Stroke Shattered My Nerves.

Gave Up Preaching For Two Years.

Dr. Miles' Nervine Put Me On Active List.

Are you well? Do you sleep well? Do you get up rested, fresh and vigorous? Is your mind clear and active? If not read the following. See what another has suffered and how he recovered.

"Some years ago I was afflicted with sun stroke which left me with a shattered nervous system and exceedingly poor health. I suffered terribly with pain in my head, the top of my head would feel hot. I could not study, and after striving for two years to wear the trouble off, I was compelled to give up my pastoral labor and retire to my farm where I spent nearly two years trying to recuperate. It was all of no avail. Physicians' treatment and patent medicines failed to relieve me. I was exceedingly nervous and irritable and sometimes would shake terribly. I could not bear any noise. At the least excitement the blood would rush to my face and head. Two years ago I was induced to try Dr. Miles' Restorative Nervine. After using one bottle I could see improvement in my condition so I continued taking it for nearly a year. I am happy to say I no longer have those pains in my head or nervous spells. My appetite is good and I am able to preach three times on Sunday without fatigue. I consider Dr. Miles' Nervine the most wonderful medicine ever discovered."—Rev. D. Alex. Holman, Pastor U. B. Republican Morals

The Independent has given glimpses of legislation in those states which are so unfortunate as to have a republican majority. Bishop Man, of the Protestant Episcopal church, gives a glimpse of their morals in that solid republican state of North Dakota. He says:

"If no one else will say it publicly the bishop of North Dakota must: That there is a condition of things existing in our capital city utterly disgraceful, corrupting and inexcusable. In the leading hotel of Bismarck the lowest vice flaunts itself unchecked and unrebuked. That hotel presents the features of a saloon, a gambling house and a brothel. At least, it does so during the sessions of the legislature, and many of the senators and representatives board and lodge there.

"What conception of law do our legislators possess? What respect for the laws they enact will the people possess, while they supinely contemplate such outrageous violations of legality, morality and decency? When the matter comes up in conversation—it never does in any other way—the usual remark is that classical, 'What are you going to do about it?'

"The lessee and manager of the place is a political power; he sits in party councils, he helps distribute the offices, he is deemed able to aid or injure political aspirations. Yes, politics—in the basest sense of the word—is responsible for this disgrace to North Dakota. The cowardice of the respectable small politician—that most cowardly class of mankind—is the reason this thing goes on."

The people of Prussia are so well satisfied with their experiment in the government ownership of railroads that measures are being taken to acquire six more of the private lines having 558 miles of track and which are capitalized for \$19,250,000. The government has offered a small per cent above their capitalization for the roads, and the private owners have indicated that they will accept. Here in the United States we go plodding along at the tail end of the world.

Several communications received at this office from university professors, literary men and leading men in politics and business men in the eastern states forces the editor to the conclusion that the people of that section really believe that populists are socialists. There is an immeasurable amount of ignorance among what are called the "educated classes" in the eastern states.

The meat trust has at last been found guilty and the five corporations each fined \$5,000 and costs, amounting to something over \$5,000 more, which makes a total of \$25,000. It took a Missouri court to do it, and the supreme court of the state was unanimous. The opinion says: "The testimony introduced by the state was abundant and shows that the respondents (the packers) were members of a combination or pool to fix and maintain prices."

How the people must long for the days to return when their necessities will be supplied as they were in the days of old, before the trusts destroyed competition. Then the markets supplied every demand. A man could buy coal any day and it was a rare thing indeed when the railroads did not furnish cars as they were demanded. The trusts have made life a misery. Every man's business and even his life is in the hands of the trusts. If they do not please to supply him with the necessities of life then he must die. It is all in their hands. What economists have called "the undirected or unconscious supply," was, before the monopolies took charge of things, always sufficient. Even in years of crop failure the people never suffered as they have under the rule of the trusts.

THE COMING DAIRY COUNTRY

Probably the richest farming country open for settlement to-day on the American continent, is the fine hardwood belt extending along the Minneapolis, St. Paul & Sault Ste. Marie Railway ("Soo" Line) in northern Wisconsin and Michigan. Acknowledged by good authorities on dairying to be the best dairy region in America. A land of Clover and Blue Grass well supplied with streams, lakes, and springs of pure water

W. D. HOARD, Editor of Hoard's Dairyman, says:
"I believe that northern Wisconsin is going to prove the most successful dairy region of the northwest, something like that of St. Lawrence and Lewis counties in New York."
"The peculiar salubrity of the air, the moderate heat of summer, the abundant and pure water, the good soil and luxuriant growth of grasses, all conspire to make it an ideal dairy region."
