**SHIELDS**

A very entertaining event took place Friday evening, Dec. 21 in the school house of Dist. 145, under the direction of Miss Louise Sullivan, who teaches the school.

In these days of moving pictures with so much fiction reproduced on the screen to entertain the public, with their metallic monotone and lifeless machines to imitate the whims of the day, it is only once in a while that we have the privilege of seeing the actual players to produce the realism that makes the joy come to the surface.

Miss Sullivan completed a course in elocution, and astonished the audience the way some of those young amateurs put things over in the way of amusement as actors and actresses.

The school building is fairly large and was filled to its capacity. It was a treat to attend this social event and pass a delightful evening among well known characters, as it undoubtedly proved for all of those present.

In connection with the program a pie sale took place. Erwin Givens was unanimously chosen to auction off the pies. He gave a short talk on general conditions and said that owing to the agricultural adjustment act and its crop reductions, it would be a good time to eat up this surplus pie, but at the same time to gather up the fragments.

Because of the general depression he did not expect and fabulous prices that evening. The bidding started right off the bat and continued until every pie was well sold. The proceeds were \$7.50, and average of about 40 cents per pie. This goes to decorate the interior of the school room. The list on the program was mislaid, so the names of those taking part in the play are lacking. All in all we had a good time. E. E.

**THE NEW FORD V-8 FOR 1935**

The New Ford V-8 for 1935 is the biggest and roomiest Ford car ever built. It is a strikingly handsome car, with modern lines and new, luxurious appointments.

But most important of all it is especially designed to give you smooth, easy riding over all kinds of roads—"a front-seat ride for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-price car.

1. Correct distribution of car weight by moving engine and body forward eight and a half inches.
2. New location of seats by which the rear seat is moved forward, toward the center of the car—away from the rear axle and away from the bumps.
3. New spring suspension which permits the use of longer, more flexible springs and increases the springbase to 123 inches.

The result is Center-Poise—which not only gives you a new riding comfort but adds to the stability of the car and its

ease of handling. You can take curves with greater safety.

There are many new features in the Ford V-8 for 1935 which make the car still easier to drive. New brakes give more power for stopping quickly with far less foot pressure on the pedal.

A new type of easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle. New, wider, roomier seats.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. There are refinements, but no change in

basic design. You buy premium performance when you buy this Ford V-8—full 85 horsepower and capable of 80 miles an hour. All Ford V-8 cars for 1935 come equipped with Safety Glass throughout at no additional cost.

We invite you to see this New Ford V-8 for 1935 at the showrooms of Ford dealers. You will want to ride in it—to drive it yourself. You will find it a new experience in motoring.
