NO RESTRICTION ON BUYING OF FEEDER PIGS IN CONTRACT

Farmers Finding Signing Up For 1935 Program Much Simpler Than Previous Year.

The corn-hog section met one of the first problems of the 1935 cornhog producer when they issued ruling 134 removing restrictions regarding the purchase of feeder pigs. The previous provision of the 1935 corn-hog contract and rulings Effect On Marriages seemed to work a hardship upon Notwithstanding the depression, both sellers and buyers of feeder

curately kept, the pigs he buys will be considered as if they sure farrowed on the farm.

Convenient blanks will be made Dr. Wiliam C. Flora, dentist of available within the next few days

The new ruling about feeder pigs bought and sold since Dec. 1, 1934.

With proctically all of the community educational meetings out of the way, county corn-hog control associations are now turning their Checks totaling \$19,253.26 on attention to the signing of applica-

The producer who continues to farm his land as he did last year. and who had a contract last year. can finish his application blank in 10 or 15 minutes when he comes to the sign up places arranged by the county association. Application writers say most of the farmers are agreeably surprised this year to find it is no trouble at all to make out the application.

Quite a large proportion of farmers who rent part or all of their land have not yet made their final arrangements with landlords for 1935, and are unable to make out their applications at this time. Associations all over the state are preparing to keep the application signing open a few days after the regularly scheduled signing days in order to take care of the men who have not completed their leasing arrangements.

The next step in the procedure will be the call for annual meetings in each of the communities, and the election of 1935 comunity committees. The chairman of each community committee is automatically a member of the board of directors of the county association and will attend a directors meeting
