WHAT'S DOING IN THE LEGISLATURE
(Continued from page 1.)
A. E. Anderson, state and federal crop statistician, adds hopeful words to those coming from Mr. Blair. From present indications, the state will have a wheat harvest of 32,872,000 bushels compared with less than half that yield in 1934. With a little more rain in some sections, Mr. Anderson will revise his 1935 prediction considerably upwards.

Pastures are in excellent condition. Because of pasture shortage last year, more rye was planted

for this year's pasture needs than ever before in the state's history. Present indications are for a crop in excess of 4,000,000 bushels, compared with 728,000 a year ago and a five year average of 2,500,000 bushels.

Barley and oats too are expected by Mr. Anderson to produce bumper crops, while there are good prospects of a record first cutting of alfalfa.

Present conditions are excellent for a good corn crop, the cereal king of Nebraska, the statistician concludes, but several months must elapse before any well-founded predictions can be made as to yield.

Encouraged by the weather, the state senate decided to make up for the parsimony on the part of the 1933 legislature and give the state government enough to run on for the coming biennium without having to watch the pennies so closely.

The general appropriations bill as approved by the senate carried a total of \$11,990,442 to be expended from the property tax. By the time this appears in print the legislative action will have been completed on an appropriation of approximately this amount, which is slightly under a million dollars more than was appropriated in 1933.

Also no one was left out in the cold by the legislative appropriation, state institutions were the greatest beneficiaries. This action is generally considered fair, inasmuch as most of the institutions are in a bad state of repair as the result of "depression" economy for the past four years, along with the fact that the cost of commodities has increased considerably in the past year.

GAMBLE'S TRADE-IN SALE!
Get your money's worth out of your old radio—Gamble's allow up to \$15.00 for it on a Brand New Coronado All Wave Console—Battery Sets, \$5.00 down, \$1.25 per mo.

BRIEFLY STATED
It is easier to get fifteen miles out of a gallon of gas than it is to get the gallon.

One statistician has figured it out that 85 per cent of the liquor produced in the world is bought by women. Yes, but who pays for it?

Mrs. Hans Egger returned to Columbus last Friday after spending three weeks here visiting at the home of her mother, and with other relatives and friends.

Mr. and Mrs. V. F. Walker and son of Otis, Kansas, arrived in the

city Wednesday afternoon for a couple of days visit at the home of Mrs. Walker's sister, Mrs. Dale Tressler.

Mrs. John Ellis and two children, of Casper, Wyoming, arrived in the city Tuesday for a few days visit at the home of Mr. and Mrs. Henry Grady. Mrs. Ellis is a sister of Mrs. Grady.

We understand that the Niobrara river raised two and a half feet in one hour yesterday and took out part of the highway near the dam. A group of road men are working on the road today.

Mr. and Mrs. Lawrence Chapman came up from Omaha last Saturday evening for a short visit at the home of Mr. Chapman's mother, Mrs. L. C. Chapman. They returned home Sunday afternoon.

Miss Nellie Toy, who has been teaching at Herman the past year, came home last Sunday, her school having closed Friday. Miss Toy has been re-engaged to teach the same room for the coming year.

Walter Warner, who has been visiting his family and looking after business matters here the past ten days left Tuesday for Ansley, where he makes his headquarters while traveling for a national remedy company.

Miss Mamie Cullen, of Elizabeth, N. J., arrived in the city last Friday evening for a few days visit with old friends here. She left Monday evening for Omaha where she will visit for a week before returning to her eastern home.

S. J. Weekes returned Wednesday evening from a three day stay in Omaha where he was serving on the loan committee of the Agricultural Credit Corporation. He says the business men of the metropolis are feeling much better, as a result of the liberal amount of moisture the state has received during the past two weeks.

Miss Roberta Arbutnot, federal relief director, and Miss Dorothy Chicken, Mrs. Mitchell and Mrs. Mabel McKenna, case workers, left Thursday afternoon for Norfolk where they will attend a district meeting of the various relief workers in this section of the state, which will be held in that city Friday.

R. G. Schildts, who has been the foreman at the Armour plant here for the past two years, has been transferred to Rock Rapids, Iowa,

and left for his new post of duty Wednesday. His place here will be filled by Elmer Sexe, of Mitchell, South Dakota, who arrived the first of the week and whose family will arrive here on Saturday.

Romaine Saunders and son, Ned, were up from the south country Wednesday. "Pete" says that the south country is beginning to look natural again as all the lakes and ponds in that section are full and overflowing with water and in some places the water is up to the fence posts. He is of the opinion that the South Fork Valley is on its way back to the good old days, when it was the garden spot of Nebraska.

Henry Dauer, who has been the bookkeeper at the Armour plant for the past four years, resigned his position, effective the first of June. Mr. and Mrs. Dauer expect to move to Minnesota where Mr. Dauer will engage in business for himself. Mr. and Mrs. Dauer made many friends during their residence in this city, who, while regretting to see them leave the city, wish them happiness and prosperity wherever they may locate.

C. W. F. Lehmann, of Chambers, was in the city Tuesday and made this office a pleasant call extending his subscription to The Frontier. Mr. Lehman has been a resident of the southern part of the county for

Thirty Million Miles of Ford Economy

MORE MILES. Faster miles. Greater economy . . . that is the story of the Ford V-8. There are conclusive figures from owners to show that it is the most economical Ford car ever built.
A particularly interesting and complete report of costs comes from a national fleet owner who has owned 854 Ford cars which have run more than thirty million miles in business use.
175 were Model T Fords which were run 5,017,075 miles. 599 were Model A Ford cars which were run 24,041,632 miles. 80 are Ford V-8 cars which have been run 2,982,886 miles.
This owner's cost records show that Ford V-8 cars cost 12% less to operate than the Model A Fords and 31% less than the Model T Fords. And they covered more miles per month! The monthly average for the Model T Fords was 1509 miles. . . . For the Model A Fords, 1866 miles. . . . And 2571 miles for the Ford V-8.
Each year the Ford car gives you more in value and performance and costs you less to operate.

Actual Figures Show
The Ford V-8 is
12% More economical than the Model A.
and
31% More economical than the famous Model T.

LET THE TELEPHONE HELP YOU MORE

ILL BE BACK AS SOON AS I CAN. I COULD SAVE HER THAT TRIP.
I WISH I COULD GET DOWN FOR THOSE BARGAINS BUT I CANT. I COULD ORDER THEM FOR HER.
DINNER IS SPOILED, YOU ARE SO LATE. I COULD HAVE SAVED IT IF HE HAD THOUGHT TO CALL AND TELL HER HE WOULD BE LATE.
I GOT A GARAGEMAN. I COULD HAVE FIXED THAT EASY.
AND I LOST ANOTHER CHANCE TO SAVE THEM MONEY WHY DONT SHE CALL HOME?
I COULD CHEER HER UP..IF SHE WOULD CALL SOME OF HER FRIENDS.
OH, I USE THE TELEPHONE FOR DOZENS OF THINGS. DONT YOU?
I FORGET TO SOMETIMES BUT IM GOING TO USE IT MORE.
HOORAY! THAT SUITS ME.

Each person uses the telephone in his own way. The unemployed, to get work. The busy, to save time. The thrifty, to save expense. The lonely, to make contacts. The friendly, to win friendships.
The usefulness of the telephone to you is what you yourself make it. Let it help you more.
