

**Chivalry Toward Mate**  
Evinced by Male Rat

We have been libeling the rat. When we called a man a rat we felt that he was given the lowest designation possible. But we were wrong, says a writer in the New York Herald Tribune. We have the word of a scientist for this fact, Dr. A. M. Hain of the Institute of Animal Genetics, Edinburgh. Gallantry is almost invariably manifested in the male rat, he states.

It is not infrequent, he stated, for rats to show incompatibility in their cages, but he described an unusual case of an attack by a female on a male that was placed in her cage. She forced the male to the corner of the cage on his hind legs. She attacked him if he tried to lift his forepaws down. She then carried him to that corner and filled it to the full height of the cage, completely inclosing the male rat and shutting him from her sight. The situation continued for about six or seven hours when a truce was apparently arranged. "The male made no protest, manifesting a gallantry which is invariable in the male rat," stated Doctor Hain.

**Week's Supply of Postum Free**  
Read the offer made by the Postum Company in another part of this paper. They will send a full week's supply of health giving Postum free to anyone who writes for it.—Adv.

**Woman Army Captain**

Enlisting for service in the Serbian army at the outbreak of the World war and distinguishing herself in the fighting as a private during major battles, Mrs. Flora Sanders, an English woman, now is a captain in the Serbian reserves of the Yugoslavia army.

**Watch Your Kidneys!**

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, swollen limbs, feel nervous, miserable—all upset.

Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

**DOAN'S PILLS**

**CHARMING LITTLE RUNABOUT FROCK**

9333

The whole fabric world echoes with the words "Shantung,"—"Linen"—"Pique." The whole Fashion world reflects "femininity" in its styling, even when the styling is decidedly Tailored! So take a cue, and combine the two! For the casual little runabout frocks you need so many of, Pattern 9333 is the Right Answer. Charming in its simplicity, the yoke becomes a slashed excuse for a sleeve and a note of femininity is reflected in the simple bodice by means of front and back tucks. The clever detail of belt and pocket subtly conforms with the yoke styling. Choose novel crystal, wood or cork buttons.

Pattern 9333 may be ordered only in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 requires 3 3/4 yards 36 inch fabric. SEND FIFTEEN CENTS in coin or stamps (coin preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE. Complete, diagrammed sew chart included.

Send your order to Sewing Circle Pattern department, 232 West Eighth Street, New York.

**COMPLAINT**

"Are you complaining of the cost of living?" "I am," answered Farmer Corn-tassel. "When I go to town it costs me all out of reason to have my pants pressed."

**Bargain Rates**  
Big Sister—Now run along, I gave you a dime to tell Harry I'd meet him here.  
Little Sister—Gimme a quarter and I'll tell all yer beaux to come along.

**No Overproduction**  
Pat was one day employed by an old lady in the country. At tea the old lady laid a small morsel of honey on his plate.  
"Begorra, ma'am," said Pat, "I see you keep a bee."

**Treasure Gallons**  
Mrs. Pester—Mrs. Nurox was showing me her diamonds.  
Her Husband—Quartz, aren't they?  
Mrs. Pester—Mercy, no! They can't be a bit more than pints.

**Paroles and Ransom**  
Vincent Astor's Hotel  
Mussolini Is So Blunt  
The Brain Bath

Waley, the Weyerhaeuser kidnaper, caught after he sent his wife, like a true gangster coward, to change ransom bills for him, has this record:

He had been arrested six times, beginning at eighteen, and sentenced to terms in prison that would have kept him in prison for 75 years if parole boards had allowed it.

He was repeatedly released until at last, thoroughly trained in crime and convinced, probably, as he might well be, that American justice is a mere joke, he went to Tacoma and planned there the "snatch," as criminals call it, of the Weyerhaeuser child.

Highway patrolmen in the western states did admirable work cooperating with the "G-men." The western highway patrolmen are real policemen.

Mr. Vincent Astor of New York has bought in and will operate the St. Regis hotel on Fifth avenue, built originally with Astor money, now repurchased for \$5,000,000.

An Astor running a hotel is nothing new. You need not be very old to remember the gray granite "Astor House," a block long, opposite the City Hall on lower Broadway, where they had roast beef such as you find nowhere now.

Before prosperous Americans learned to be really "aristocratic" with yachts, race horses and divorces, they thought owning a hotel and putting your name on it was almost aristocratic. The Astor House and the Brevoort House in New York, the Palmer House in Chicago, the Coates House in Kansas City, a thousand others prove it.

Mussolini annoys England; he talks so plainly—no diplomatic beating about the bush. Bluntly he says to old Britannia: "When you were building up your empire, killing off

the Boers to grab South Africa, taking India from the pot-bellied rajahs, gathering in everything that was not tied down, you did not care tuppence what the world thought about you. Now it is my turn to gather in territory, maybe Ethiopia, and I care less than half of tuppence what you think about it. So mind your own business, please."

Important to the human race is news of the "brain bath," which, according to physicians gathered at a convention of the American and Canadian medical associations, literally "washes the brain," freeing it from the poison of diseases such as infantile paralysis, St. Vitus' dance, sleeping sickness and some kinds of spinal meningitis.

A solution of salt and water is injected into the vein at the ankle. After it has gone through the circulation and washed out the brain, it is withdrawn with its collected poisons through a needle inserted in the lower end of the spine.

Newsdom, written for newspaper men, says it has questioned all editors and publishers that amount to anything, and finds them "overwhelmingly certain that radical movements are of no serious trend." The discovery will comfort many, but it is well to be cautious. There is always a possibility of underestimating what looks like "radicalism of no importance."

China, because she cannot do otherwise, yields in full to Japan's demands. This is the news from Tientsin, and it happens because the 400,000,000 Chinese are not prepared for war, whereas the 60,000,000 Japanese are prepared.

"Yielding" probably will not save China from another heavy loss of territory. It is predicted that the young Chinese emperor, Japan's figurehead in Manchukuo, will be moved over and back to the old imperial palace, there to sit again as the Japanese imperial dummy.

"What's in a name?" Some young Republicans want the old Republican party to change its name from "Republican party" to "Constitutional party." Long ago, when the New York Herald, since dead, reduced its price, the late Joseph Pulitzer wrote in a short editorial: "The trouble is not with your price, it is with your newspaper. Change that."

The trouble with the Republican party is not with its name. A dangerous strike is called off in Toledo, workmen wisely deciding to deliberate before going ahead with a strike that might have thrown tens of thousands out of work.

**English Far in Lead in World's Languages**

How many people speak English today? It is hard to answer with any precision, but an approximation is nevertheless possible. First, let us list those to whom English is their native tongue. They run to about 112,000,000 in the continental United States, to 42,000,000 in the United Kingdom, to 6,000,000 in Canada, 6,000,000 in Australia, 3,000,000 in Ireland, 2,000,000 in South Africa and probably 3,000,000 in the remaining British colonies and the possessions of the United States.

All these figures are very conservative, but they foot up 174,000,000. Now add the people who, though born to some other language, live in English speaking communities and speak English themselves in their daily business and whose children are being brought up to it—say 13,000,000 for the United States, 1,000,000 for Canada (where English is gradually ousting French), 1,000,000 for the United Kingdom and Ireland and 2,000,000 for the rest of the world—and you have a grand total of 191,000,000.

Obviously, no other language is the everyday tongue of so many people. Russian is spoken as first choice by no more than 80,000,000 of the 150,000,000 citizens of the U. S. S. R.; the rest cling to one or another of the hundred odd lesser dialects in which the Bolsheviks are forced to print their official literature. German follows with a grand total of 85,000,000. Whether French or Spanish comes next is in doubt, but neither can show more than 55,000,000. Italian is the runner-up, and the rest of the European languages are nowhere.

Nor is there any rival to English in Asia; for, though Chinese is ostensibly the native tongue of more than 300,000,000 people, it is split into so many mutually unintelligible dialects that it must be thought of

less as a language than as a group of languages. Thus English is far ahead of any competitor. Moreover, it promises to increase its lead hereafter, for no other language is spreading so fast or into such remote areas.—H. L. Mencken in Harper's Magazine.

**No Place for Good Old Mule in Modern Armies**

Ten thousand spectators looked on with bewilderment, officers with a score of years' service stood by in amazement. There was "something wrong" as the 12,000 troops at Schofield barracks, largest army post in the United States, passed in review before Maj. Gen. Hugh A. Drum, new commandant of the Hawaiian department.

Infantry brigades passed on in rank after rank; tanks rumbled and roared and lurched; motor trucks of the field trains sped across the huge field; signal corps cars with their loads of carrier pigeons raced along; light field artillery and the heavy guns swept past the reviewing stand; bands tooted and thumped—but there was something decidedly wrong, something missing.

It was the good old army mule. Not a single mule had been used. It was the first time in the history of the Hawaii department that a complete divisional review had been staged without the appearance of any mules. The review was completely motorized.

**Odd Beauty Standard**

Despite the 20-year prohibition, women still bind their feet in many part of China. In Hwaking, foot-bound women and girls are far more numerous than those with normal feet. The bride's beauty on her wedding day is not her face or her figure, but the beauty of her feet.

**CROCHET COLLAR OF MEDALLIONS**

No matter what state you live in, you will find the women interested in crocheted collars. They are becoming more popular every day, and we know our readers will be interested in the ideas we have to offer. The round collar shown above is made of twelve assembled medallions, No. 30 thread and size 8 hook.

Package No. 719 contains sufficient white "Mountain Craft" crochet cotton to complete this collar, also instructions how to make it. Send us 25c and we will mail this package to you. Instructions only will be mailed for 10c.

ADDRESS—HOME CRAFT CO., DEPT. B., Nineteenth & St. Louis Ave., St. Louis, Mo. Enclose a stamped addressed envelope for reply when writing for any information.

**Healthy Feet**

Foot health means feet that are free from disease, free from pain, free from tire, and feet that tread the measures of life in the way that a kind Providence, after hundred of thousands of years of experimentation, has discovered is the best way for the erect human being to stand and to walk.—The Parents' Magazine.

**WHOSE WORD WILL YOU TAKE FOR BLOWOUT PROTECTION?**

Are you accepting the judgment of men who risk their lives on their tires and know from experience the tire that gives them the greatest blowout protection?

Thirty-three race drivers and their mechanics lined up for the dangerous, gruelling grind of the 500-Mile Race at the Indianapolis Speedway May 30th. Firestone Tires were purchased and used on every one of the thirty-three cars.

Kelly Petillo won the race at an average speed of 106 miles per hour. Wilbur Shaw was second, flashing across the finish line just behind the winner. Both drivers broke the track record without tire trouble. In fact, not one of the thirty-three drivers had tire trouble of any kind.

Gum-Dipping is one of the outstanding reasons why Firestone Tires give such amazing performance. It is a patented extra process not used in any other make of tire.

When you realize that last year 43,000 accidents were caused by blowouts, punctures, and skidding, you will understand how important it is for you to protect your life and the lives of others by equipping

your car with Firestone Gum-Dipped High Speed Tires—the safest tires built.

It will be worth your time to read these three questions and their answers:

**QUESTION 1—**"Will the tread give me the greatest traction and protection against skidding?"  
**ANSWER—**Leading university tests show Firestone High Speed Tires stop your car 15% quicker than the best of other popular makes of tires.

**QUESTION 2—**"Are they built to give me the greatest blowout protection?"  
**ANSWER—**Unequaled performance records for sixteen consecutive years prove that Gum-Dipping gives you the greatest blowout protection ever known.

**QUESTION 3—**"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

**ANSWER—**Thousands of car owners report unequalled mileage records—evidence of the longer wear and greater economy of Firestone High Speed Tires.

Volume—Direct Purchasing—Straight Line Manufacturing and Efficient and Economical System of Distributing to 500 Stores and to 30,000 Dealers, enables Firestone to give greater values at lowest prices

**1** University tests show Firestone tires stop cars 15 to 25% quicker.

**2** Gum-Dipped cords give greater blowout protection. Gum-Dipping is not used in other tires.

**3** Wider, flatter tread gives more than 50% longer non-skid wear.

**THE MASTERPIECE OF TIRE CONSTRUCTION**

**\$7.45** HIGH SPEED TYPE  
4.50-20 Gum-Dipped

This tire is accurately balanced and rigidly inspected and we know it is as perfect as human ingenuity can make it.
