Mr. Thomas says that republicans have not had much cause for joy the past few years as democrats were very numerous in all parts of the country. But he is satisfied that things are rapidly heading for a change, the sentiment of the people rapidly changing and that at the coming election they will again return to the republican party so as put the government back into the hands of the people and stop the squandering of millions of the taxpayers' hard earned dollars.

SCHOOL NOTES

Teachers examinations will be held on Saturday, January 18, and will be given in the usual places. All applicants should make it a point to write on this examination and get as many subjects out of the way as possible.

All Free High School Tuition reports should be mailed in immediately, since we will be able to pay them off as soon as all applications are received at this office.

I want to call school patron's attention to the compulsory attendance law, Sec. 79-1901, which states that all children under the age of sixteen and an undergraduate of the eighth grade must be in school. We are making a check on all children who are not in school. Children should not be taken from school

unless the pupils are sick and unable to attend.
