The proper treatment for a bilious child

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

ANY mother knows the reason when her child stops playing, eats little, is hard to manage. Constipation. But what a pity so few know the sensible way to set things right! The ordinary laxatives, of even ordinary strength, must be carefully regulated as to dosage. A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help. This treatment will succeed with any child and with any adult. The doctors use liquid laxatives. Hospitals use the liquid form. If it is best for their use, it is best for home use. The liquid laxative most families use is Dr. Caldwell's Syrup Pepsin. Any druggist has it.
