AN INTRODUCTION—
 I am a farmer and stockman living on my farm northeast of Naper, Nebr., and I am a member of the legislature at the present time. I have farmed, and worked and lived in this part of the country a little over a quarter of a century. During this time I have learned a little. I have had the honor of serving in many ways, too many to enumerate here. First hand experience of this kind is and always will be of value. I have worked for common sense and economy and justice in government for so long that I don't take credit for it any more. It is a habit now and I don't want to change it. I will be working for that whether I am in or out. But if you want to be served in the legislature by one who knows your needs because he is one of you, and knows where the shoe pinches because he also wears it along with you, I shall be glad to have your vote and support and will do all I can for you and the district, and the state.
