You Can TELEPHONE

Night and All Day Sunday

From O'NEILL

To LOS ANGELES

For Only \$2.10

Since the eighth reduction in long distance telephone rates during the last ten years you can telephone at night or any time Sunday from your home in O'Neill to the farthest corners of the United States for \$2.75.

Walter S. Gifford, president of the American Telephone and Telegraph Company, said recently: "... we shall continue with every expectation that long distance rates may in time be further reduced, and that whatever shortcomings there may be in the service today will be eliminated so far as humanly possible."

NORTHWESTERN BELL TELEPHONE COMPANY

SERVICE IMPROVES WITH AGE

OUR greatest asset lies not in the customers we sell for the first time but in the customers we keep. We are advertised not so much by the friends we make, as by the friends we hold.

The sale of a man's stock for a single season gives us a single commission. This single commission has oftentimes been entirely dissipated by the effort and expense required to obtain his business.

If he did not "come back" we could not afford to bid so persistently for his patronage. It follows then, that the service we render must have unusual merit in order to retain his business.

We have improved and developed our service along the same lines that an inventor improves and develops a promising piece of mechanism—and we know that the mechanism of our service is fully geared, well oiled and highly efficient.
