Like All Women, You Want Your Clothes to Be Right

ND the only way that you can be sure they will be right is to know what the designers and creators of new styles have decreed shall be right.

Cherie Nicholas, nationally known authority, who writes on women's fashions for this paper, tells you just what you want to know and pictures for you the garments and hats that the well-dressed woman will be wearing in the weeks to come. The styles that Miss Nicholas describes are authentic and the garments that she depicts are up-to-the-minute, but they do not represent style extremes. The garments are those that will be worn by the average woman and that you will find for sale in your home stores.

Keep up with the changing styles through Miss Nicholas' illustrated fashion articles, appearing in these columns, and tell your friends about them.
