"Dual-Tone" GMC's

ATTENTION-COMPELLING COLOR DESIGN

Inbred in the new GMC's—"built-in" as an integral part—are the new, entirely original "Dual-Tone" effects which blend cab, cowl, hood and radiator into one harmonious color design. This feature, exclusive with GMC, originated on GMC drafting boards, was fashioned for GMC modish shapes and contours and therefore cannot be imitated! Smartly styled though GMC's are, their inherent stability and record-low upkeep are for truck operating records to tell. GMC urges you to ask GMC owners for facts. There we rest our claims! GMC prices are now crowding the lowest!

breakfast, jammed on his hat, hurried down stairs and drove out in the country with a great rush. Monday morning he was all smiles. His face that of a boy when he told his colleagues that he landed a seven pound bass.

Speaker Bankhead is the father of the great actress Tullulah Bankhead. His brother is a member of the United States Senate. The Speaker's job in Washington today is the hardest of any man in either the House or Senate. In power he is next to the Chief Executive. His time is limited. He is demanded for nearly all social functions and must be in on all important conferences. Yet he has a human touch. He is kind to all members and is always willing to aid them with their problems. His humanity is displayed when he pulls his hat down over one eye and tells of the thrill he gets when the fish are biting good. He tells good stories. Clean stories.

His favorite story is the one he tells about himself. Following his selection as Speaker of the House he went back to his home town at Jasper, Alabama, to be guest of honor at a big home-coming in his honor. The streets were beautifully decorated for the occasion. A farmer came to town and asked what all the decorations was about. Somebody told him Bill Bankhead was coming home. The farmer replied: "Why, I didn't know Willie Bankhead was away—where's he been?"

BRIEFLY STATED
