Home Heating Hints

By John Barclay Heating Expert

Have Your Furnace Cleaned and Inspected Now Before the Cold Weather Comes Along.

HERE'S a straight money-saving tip: Before starting your heating plant this fall, be sure it's thoroughly vacuum cleaned. It is one of the greatest precautions you can take to insure its most economical operation during the winter ahead.

When the heating surfaces are covered with as little as one-sixteenth of an inch of soot (which acts as an insulator against heat, being five times as effective as asbestos) it wastes fully one-quarter of every ton of coal you burn! What's more, a furnace caked with dirt and dust won't deliver nearly as much heat as a clean furnace will.

Call in a competent service man now and arrange for a thorough vacuum cleaning of your furnace. He will do the job without muss or inconvenience.

While he's doing that, have him check up the whole heating system from flue to ash-pit—guard against any possible failure of the plant after cold weather sets in. I know you'll find the cost is little compared with the staggering cost of the fuel that a dirty, faulty plant is sure to waste! Every home-owner wants to save and not waste his fuel dollars!

Beauty of Conviction

Conviction brings a silent, indefinable beauty into faces made of the commonest human clay; the devout worshiper at any shrine reflects something of its golden glow, even as the glory of a noble love shines like a sort of light from a woman's face.—Balzac.

Worthy of Friendship

"MAKE me worthy of friendship, and give me friends; make me worthy of love, and give me love," was the daily prayer of a loyal heart that had learned the sacredness of human ties. Many a lonely one, complaining of neglect and isolation would find life's whole environment changed by learning humbly and sincerely to pray that prayer. Friendship, to abide, must find a worthy resting place, and love has its duties. No one can demand either as a right. The heart that is tenderly and unselfishly ready for them will never miss them.
