The cottonwood plumage is taking on the gorgeous shades of autumn. Many feel October to be the most pleasant of seasons. To the "country gentleman," it means a letting up, a period of repose after the strenuous efforts and blistering days of summer. The freshness, the fragrance, the bloom of spring and early summer hold an inspiring charm, yet the autumn brings a restfulness, a beauty of landscape, a far vision thru the clear atmosphere to distant hills over which broods quietness and rest. A tinge of regret is injected with the thought that the overwhelming blasts of winter are just ahead.
