Favorite Recipe of the Week

FRESH fruit pies are always good, but fresh grape pies are worthy of superlatives in description. The thickening may be cornstarch, eggs, flour or tapioca, depending upon preference. Tapioca is suggested in this recipe.

Grape Pie.

- 3 1/2 cups prepared grapes
- 2 1/2 tablespoons quick-cooking tapioca
- 1/4 teaspoon salt
- 1 1/4 cups sugar

Wash and stem the grapes. Press the pulp from the skins with the fingers. Simmer pulp slowly until soft, then press through sieve to remove the seeds. Combine 3 1/2 cups of pulp and skins together with salt, sugar and tapioca and let stand for 15 minutes. Place rolled pastry in pie pan. Fill pan with grape mixture. Moisten edge of pastry and fold inward, even with the edge of the pan. Moisten edge again and place top pastry on pie. Press edges together with a fork and trim off surplus crust. Bake in hot oven (425 degrees) for fifteen minutes. Decrease heat to 350 degrees, moderate heat, and bake about twenty-five minutes longer.
