MOTIONS TO VACATE ORDER David E. Thompson Asks Supreme Court to Withdraw Case. ATTACKS JUDGE M. B. REESE Plaintiff's Attorneys Assert that Chief Justice's Findings Are Void and Not Legally Made. LINCOLN, Neb., Jan. 10.—(Special.)—In supreme court, David E. Thompson, appellant in the suit against the Jones National Bank and the Bank of Staplehurst, through his attorneys, Stout, Rose & Wells, has filed motions to vacate the order for a rehearing entered January 7, 1914, to vacate the order entered May 17, 1913, and to correct the record and make the entries of the proceedings in the cause correctly reflect the proceedings had by the court, and to order a mandate to carry into effect its previous judgment of reversal and dismissal. The motions filed by the attorneys for Thompson will be called for a hearing at the convening of the court the morning of January 12, copies having been served. In his motion to vacate the order of the supreme court, Mr. Thompson shows by affidavits that M. B. Reese, chief justice, was disqualified to sit in the hearing of the case and that he had previously so stated. His disqualification was due to the fact that in the lower court and prior to the time of going upon the supreme court bench, he had been counseled by some of the parties to the case. Notwithstanding the disqualification of the chief justice of the supreme court, the affidavits charge that he participated in the hearing in supreme court. At this hearing in the supreme court, the qualified members of the bench were divided three and three. It was then that Chief Justice Reese, in the case in which he was to sit, as a member of the bench, voted in favor of the order, making the vote four for and three against. Court Knew About It. It is alleged that the disqualification of the chief justice to sit in, or perform any judicial function in the case was within the knowledge of the court, and all of the members thereof, by reason of the fact that the chief justice had publicly stated in open court, in the presence of all of the members of the bench, that he had been counseled by parties to the suit, and for that reason was disqualified. Attorneys for Thompson further allege that in the report to the opinions delivered on the occasion of the rendition of the final judgment of reversal, the chief justice did not participate in the proceedings. They also charge that they never consented to Chief Justice Reese participating in the final hearing. They also show that there were six members of the bench qualified to hear the case and render judgment and that in order for a quorum to be present at the deliberations, it was not necessary for the chief justice to take part in the proceedings and determination of the issues. The attorneys charge that in the course followed by the chief justice, he proceeded in direct violation of the laws of the state and that consequently the findings of the court are void and that the orders heretofore entered should be set aside.

HAMILTON COUNTY FARMERS HAVE INSTITUTE AURORA, Neb., Jan. 9.—(Special.)—The Hamilton County Farmers' institute was held in Aurora Wednesday and Thursday of this week. Mr. Dawson of Lincoln spoke on the subject, "The Milk Cow and the Hoe" and "Clean Milk." Mr. Sherry of Central City spoke on "The Farm Poultry Yard" and "A Profession or a Job." STRIKE BREAKERS TAKEN TO MINES AT POINT OF PISTOLS (Continued from Page One.) hah, probably to comply with the laws of New York, but evidently intended to deceive the Germans who could not speak English." The report goes on to say that twelve of these men made affidavit that they did not know they were going to a place where a strike existed, and saying that laborers sent by Chicago agencies were similarly deceived. This report continues: "Some of the smaller companies have been operating at a loss, but the largest company in the region, the Calumet & Hecla company, which employs upward of 50 per cent of the total number of mine workers engaged in that region, has made extremely large profits. It was organized with an authorized issue of capital stock of \$2,000,000, par value \$2, of which \$12 per share is paid up, so that the actual cash capital paid in is \$1,200,000. The total dividends paid from date of organization in 1913 and including March 30, 1914, were \$12,000,000, besides having reinvested about \$7,000,000 out of its net earnings." The remainder of the report is a description of the pension fund and other conveniences maintained by the Calumet & Hecla for its employes. Serious Charge Against Miners. NEW YORK, Jan. 10.—Two arrests were made today on information furnished by detectives employed by copper mine owners to investigate alleged false affidavits obtained here from so-called thugs and strong-arm men who said they were engaged by the mine owners to work at the scene of the mine strike in Michigan. The district attorney's office announced that it had evidence to support a serious charge by the mine owners' detectives. Two of those who appeared as having made affidavits have sworn that their signatures on these documents were similarly obtained. John T. Vickers, general manager of the detective agency that gave the district attorney the evidence, said he had been employed by James McNaughton, general manager of the Calumet & Hecla Mining company, and Theodore Bangier, general manager of the Mohawk Mining company, both of Michigan. He turned over to the prosecutor what purported to be receipts signed by various persons acknowledging the receipt of sums ranging from \$1.50 to \$2 paid by Martin and Smith for the signing of affidavits. He charged that the Western Federation of Miners employed Martin and Smith and other agents to buy these affidavits in the sums of New York. The mine owners' detectives exhibited bank affidavits forms, which, they said, the mine owners agents paid men to sign and filled in afterward. They showed copies of such an affidavit bearing the name of James Greeley and then produced Greeley, who swore in the district attorney's office that he never had made any such charges as the document contained. Richard Maher told the district attorney that on December 8 when he was supposed to have signed an affidavit in New York he was in Michigan. The examination of Martin and Smith was postponed and they were paroled in the custody of their counsel.

Important to all Women. Readers to this Paper Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes you feel old. But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys proved to be just the remedy needed to overcome such conditions. A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women. Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy, will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive a sample size bottle by Parcel Post. OMAHA JOBBERS GET MANY EARLY ORDERS (Continued from Page One.) Pacific and Burlington, who have been out through Nebraska during the last two weeks, return feeling more optimistic than in years. They all point to the unusual good outlook for a bumper winter wheat crop next season. They declare that the ground is in splendid condition and that farmers and business men are looking forward to a most prosperous year. Everywhere that the railroad men go in this state, they find stocks of merchandise, lumber and implements down to the low point and that right now, dealers, cheered by the outlook, are buying more freely than in years. Omaha Jobbers are imbued with the same feeling relative to the future, as that held by the railroad men. Right at this time they are becoming swamped with orders for goods and several of the houses are working extra men getting the commodities out. Early Orders. Omaha jobbers in practically all lines have started their salesmen out earlier than usual after the holidays, and already they are being heard from. The orders for goods are coming in much more freely than a year ago now, and they are much larger. In many instances jobbers say that they permitted their stocks to run a little low on account of the uncertainty of just what congress would do with the tariff, but with this problem out of the way, they have ordered by telegraph and
