

GRAIN AND PRODUCE MARKET

Exporters Take Half Million Bushels of Wheat at Chicago.

CORN IS HOLDING UP WELL

Yellow Cereal is Maintaining Its Own, with Armour Interests Selling and the Pattern Crowd Buying.

OMAHA, Jan. 13, 1914.

During the last few days nearly 500,000 bu. of No. 2 hard winter wheat have been taken at Chicago by exporters, and it was said last night that Chicago hard winter wheat in on a solid export basis. It is an unusual happening for exporters to take wheat in the United States at this particular season of the year, and this fact is attracting the attention of the speculative world and drawing many substantial friends to the wheat market who otherwise would be against the price.

The shifting of the export business from Canadian wheat to that of the United States in the United States has been made for a substantial reason. Exporters have led themselves to believe that they would be mistaken, as a great deal of the grain held at Buffalo and other points is not owned by the exporters, but has been sold for shipment abroad, and it will be moved out as rapidly as wanted after the opening of the season.

Buffalo and other points in the United States are reported above there were some sales of No. 2 hard winter wheat, and it is too, is said to have been No. 2 hard winter.

Wheat closed at a gain of 1/4¢ yesterday and the feeling was strong, although the best prices were not fully held. There were many reports of a decline in the winter wheat, but that told of the lack of snow covering and of the probability of claims of deterioration, and the alternate freezing and thawing and of cracking of the ground. The more conservative speculators are nearly always to be found with more corn, while on hand when the crop damage reports commence to come and the wheat starts on its upward movement.

The changing of the laws so that Canadian wheat may be admitted to the United States for winter wheat, and very strong enemies in Canada. One of these is H. W. Richardson of Kingston, Ont., head of the Canadian Wheat Growers' Association, and another is J. M. Richardson of Chicago, who declares that free wheat would not be an advantage to Canadian wheat.

Portugal for winter wheat, and the United States during July, August and even September. That the United States crop is earlier than that of the United States, former largely moves its surplus in those months, which compels it to reduce prices in order to compete with the surplus of the United States.

The long in hog products were again in a liberal manner. The more conservative men in the trade believe that hogs and provisions will both be sold at lower prices. Cash wheat was unchanged to 1/4¢ lower. Cash corn was unchanged to 1/4¢ lower.

Cleanances: Wheat and flour equal to 85,000 bushels; corn, 1,000,000 bushels; oats, 75,000 bushels.

Livestock close: Wheat, 1/4 to 1/2 lower; corn, 1/4 to 1/2 higher.

Primary wheat receipts were 542,000 bushels, against 412,000 bushels against receipts of 1,013,000 bushels and shipments of 47,000 bushels last year.

Primary corn receipts were 2,000,000 bushels, against receipts of 1,300,000 bushels and shipments of 25,000 bushels last year.

Primary receipts of 2,000,000 bushels, against receipts of 1,300,000 bushels and shipments of 25,000 bushels last year.

Primary receipts of 2,000,000 bushels, against receipts of 1,300,000 bushels and shipments of 25,000 bushels last year.

Primary receipts of 2,000,000 bushels, against receipts of 1,300,000 bushels and shipments of 25,000 bushels last year.

Primary receipts of 2,000,000 bushels, against receipts of 1,300,000 bushels and shipments of 25,000 bushels last year.

NEW YORK STOCK MARKET

Shares Firm After Early Tendency Toward Lower Level.

OFFERINGS ARE WELL TAKEN

Securities of Independent Steel Companies Again Make Good Showing—Further Loss in New York Central.

NEW YORK, Jan. 13.—After overcoming an early tendency toward a lower level, stocks held firm today.

The market at times felt the effect of a selling in spots, but offerings were well taken, in spite of the apparent underlying strength, no attempt was made to bring about a continuation of yesterday's upward movement.

Professional operators were heavily engaged in the market, and their operations on the long side at this time, preferring to await news from Washington.

The administration toward anti trust legislation, it was thought the presentation of the report that standard oil might have been important influence on sentiment.

Security of the independent steel companies again made a good showing and there were further advances in the fertilizer, petal, and local traction issues.

Texas company, however, had a sharp relapse from its high level, on account of the report that standard oil interests were seeking control of the company.

A feature of the trading was the engagement of going for the New York Central, which brought down the price of that stock temporarily to 3/4, its low point since 1908.

Engagement of \$2,000,000 gold for export to Paris, while not expected at this time, had little influence on stocks, as it had been accumulating for some time.

In absence of unusual development the local money market is not likely to be affected by shipment abroad of a moderate amount of gold.

Spot market was not influenced, renewals being made at 2 1/2. The last previous engagement of going for Paris was in July, closing a movement of \$3,000,000 to France, and a total export movement of \$9,000,000.

The bond market was strong. Buying of Rock Island issues was the principal feature. Total sales, par value, \$3,000,000.

Number of sales and leading quotations on stocks were:
