Armed Tars Guard the U. S. and German Legations in Haiti

PORT AU PRINCE, Haiti, Jan. 28.—Armed detachments of American sailors from the cruiser Montana were today on guard at the American legation, the cable station and the French hospital. German blue jackets and marines were placed on protection duty at the other foreign legations and at the German stores in the city. Large landing parties were set ashore from the American and German war vessels yesterday, when President Michel Oreste fled for refuge to the German cruiser after fighting broke out in the streets of the capital.
Firing continued in all quarters of the city throughout the night and there were numerous attempts at pillage of houses and stores, but these were quickly suppressed and the city is quiet now.
A citizens' committee of public safety has been formed. It is understood that Solon Menos, former Haitian minister at Washington, will be selected for chairman of the committee.
President Michel Oreste and his wife remained all night on board the Vineta in the harbor.
PARIS, Jan. 28.—The French cruiser Conde, now in Mexican waters, was today placed at the disposal of the French consul at Fort Au Prince, Haiti, where the situation caused by the revolution and the flight of President Michel Oreste is regarded as serious. The consul was instructed to telegraph to the captain of the Conde whenever the cruiser is needed.

Plan to Provide Work for Inmates of the Red Light District

WASHINGTON, Jan. 28.—Plans are on foot here to provide employment for the inmates of Washington "red-light district," which will be eliminated as soon as President Wilson signs the Kenyon bill, passed by congress Monday. Stanley W. Finch, federal commissioner for the suppression of the white slave traffic, announced today on behalf of the National Social Welfare league, with whom he is connected, a standing offer of immediate employment at a minimum salary of \$2 a week to the women now in the segregated district.
A mass meeting is planned here late today, at which an effort is to be made to raise \$25,000 with which to carry out the league's work in Washington. Mr. Finch will endeavor to secure the cooperation of the president and Attorney General McReynolds.
The president will be asked to aid by deferring the signing of the bill in order to perfect the local organization of the league and to place the proposition before the women it would affect.
Senator Kenyon, author of the measure eliminating the "red light district," is said to have received several anonymous letters threatening him with death.

Will Question All National Banks on Reserve Locations

PORTLAND, Ore., Jan. 28.—"Where would the most favorable location for a national reserve bank be in your territory?"
This question, according to Secretary of the Treasury McAdoo and Secretary of Agriculture Houston, who were in Portland today en route to Seattle, is to be asked of every national bank in the country.
A circular letter now being prepared is to be mailed to the 7,500 national banks. Information gathered in this way, it was announced, will assist the organization committee of the new currency system to decide the regional bank cities as much as the testimony at the hearings.

Senate Seats Blair Lee of Maryland

WASHINGTON, Jan. 28.—By a vote of 53 to 13, the senate today seated Blair Lee, democrat, as senator from Maryland. It was the first contest to be voted on by the senate coming up under the new direct elections amendment. Mr. Lee was immediately sworn to the vice president's chair by Senator Smith of Maryland and took the oath of office. He succeeds Senator Jackson, republican.

FORMER PRESIDENT OF COLORADO BANK ARRESTED

GRAND JUNCTION, Colo., Jan. 28.—Orson Adams, former president of the failed Mesa County National bank, was arrested today on a warrant charging misappropriation of funds, and sworn to by L. M. Reeves, federal bank examiner. Bond was furnished by several citizens of Grand Junction. The warrant on which the arrest was made involves only \$4,000, but officials state that alleged irregularities may reach \$100,000.

FORMER SENATOR CULLOM SUCCEUMBS

Ex-Member of Upper Body of Congress Dies at Washington After Week's Illness.

NEAR DEATH FOR MANY DAYS
Wished He Might Live to See Completion of Lincoln Memorial.

THOSE LAST WORDS HE SPOKE
Had Been Person's Friend of the War President.

IN PUBLIC LIFE FOR MANY YEARS

Member of Illinois Legislature, National House of Representatives, Senate and Governor of Illinois.

WASHINGTON, Jan. 28.—Former Senator Shelby M. Cullom of Illinois died here today after an illness of more than a week, during which he hovered between life and death. His last words were a wish that he might live to see the completion of the national memorial to Abraham Lincoln, who was his personal friend.
Since his retirement from the senate last March Mr. Cullom had been resident commissioner of the commission created by congress to build the \$2,000,000 memorial to Lincoln.
A little more than a week ago he was taken with grip. His advanced age and his recovery beyond hope, but his wonderful vitality postponed the end from one sinking spell to another. He was 85 years old and had a record of more than fifty years of continuous public service.
The former senator's last hours were divided between spells of unconsciousness and short intervals in which he recognized those at his bedside. Although his wonderful vitality had sustained life from hour to hour, it became apparent early today, when he could take no nourishment, that the end was not far off.
Late today it was decided to have a brief funeral service at the Cullom home on Massachusetts avenue at 10 o'clock tomorrow morning, and take the body to Springfield, Ill., where the former senator's first and second wives and all his children are buried.

Sketch of His Life.
Senator Cullom, while a member of the senate was the oldest member of that body and also one of its veterans in point of service.
Mr. Cullom was a veteran in the public service of Illinois. In addition to his years of service in the senate he had served four terms in the Illinois legislature, nearly two terms as governor of the state, and three terms as representative in congress.
Mr. Cullom was born at Monticello, Wayne county, Kentucky, November 22, 1828. His father, Richard Northcraft Cullom, who afterwards became a member of the Illinois legislature and a warm friend of Abraham Lincoln, moved with his family to Tazewell county, Illinois, in 1830, and it was there that young Cullom obtained his education in the country.

Committee Rushes Work on Radium Bill

WASHINGTON, Jan. 28.—Spurred by reports that prospectors have started a "radium rush" to the carbonate lands of Colorado and Utah, the house mines committee today hurriedly closed its hearings and began preparing a bill for government control of the nation's radium output. It will not withdraw radium lands from private entry, but will reserve to the government the right to buy and reduce all radium in a government reducing plant, probably at Denver.
The new bill will be introduced late today or tomorrow and an effort will be made to get a special rule to expedite its passage through the house.
J. F. Galbreath, secretary of the American Mining congress; Charles T. Parsons of the bureau of mines and Frank L. Hess of the geological survey urged immediate action, to prevent private monopoly.
Mr. Hess declared that practically all the radium land known had been located and claimed.

Six Concerned in Ohio Train Holdup

ZANESVILLE, O., Jan. 28.—Five men were arrested here today in connection with the robbery of passengers on the Baltimore & Ohio passenger train No. 105 just outside of this city early this morning. One other is being sought. The six men are alleged to have boarded the train at Cambridge.
After robbing several passengers five of the men escaped. Harry Warner, the sixth, was arrested at he jumped from the train.
George Anderson, Thomas Slayton, Charles Lloyd and Charles Sipes, all of Cambridge, were arrested later and are being held by the police. All came from Cambridge on the train. All are well known in Cambridge and deny any knowledge of the robbery.

Texas Compromises Suit Against Katy

AUSTIN, Tex., Jan. 28.—A compromise was reached today in the suit of the state of Texas against the Missouri, Kansas & Texas Railroad company of Texas in which the state alleged violation of state anti-trust laws and asked penalties of more than \$100,000,000. The terms were not made public.
The suit charging an illegal merger by the Missouri, Kansas & Texas railway of Texas with eight other roads in this state was filed by Attorney General B. F. Looney, soon after the legislature early in 1913 had passed a bill authorizing the merger. Governor C. E. Colquhoun vetoed this bill, but the legislature passed it over his veto.

"Met" on His Merry Round

ZERO WEATHER IS IN SIGHT

Colonel Welsh Hoists Black Flag Above Federal Building.
SNOW IN WESTERN NEBRASKA
Storm Center is Near North Platte and Alliance—Stockmen Warned to Be on Lookout to Prevent Loss of Stock.

The first real winter weather this season is promised for Omaha for today, according to the forecast issued by Colonel Welsh of the local weather bureau when he hoisted the cold wave flag on the federal building. The approaching storm was scheduled to arrive here last night or today, turning from rain to snow, and followed by a decided drop in temperature, which may go down to zero.
The storm center yesterday was in eastern Colorado, and temperatures in the wake of the storm are reported as low as 25 degrees below zero in the northern states. From Montana to Arizona, a snowfall is reported in the west, while the present disturbance is scheduled to cover the entire valley from the Mississippi to the mountains, in its eastward movement. A special warning is given stockmen throughout the state to prepare for the storm, because of the fact that the wet storm, followed by a cold wave, will cause more suffering to cattle than is incident to a cold wave unaccompanied by rain and snow.
At midnight a high wind was blowing here and heavy snow was reported at Alliance and North Platte. The gale was reported to be blowing fifty miles an hour.
The lowest temperature recorded by the instruments in Omaha this winter is 3 degrees above zero.
With a decided change of temperature from warm to cold in the northwest, Omaha ice dealers are sorting out and getting their ice cutting machinery in condition for operation as soon as the freeze is well under way.

WILSON PARDONS PRIVATE IN THE SIGNAL CORPS

WASHINGTON, Jan. 28.—"Pardoned with pay W. W." With these words written in pencil on a memorandum, President Wilson today gave freedom to Private Clarence L. George of the army signal corps, who had served four months of a year's sentence at Fort Leavenworth, Kan., for writing letters about his superiors to Secretary Tumulty. The letters George wrote never reached the secretary, but went back to his commanding officers, who court-martialed him for breach of discipline.

The National Capital

Wednesday, January 28, 1914.

Crew of Abandoned Ship Jumps Into Sea

NEW YORK, Jan. 28.—Captain Dean and five members of the crew of the schooner Anna E. Banks, which they were forced to abandon 500 miles southeast of Cape Race on January 18, were brought to New York today aboard the steamer Indiana from Swansboro, Va. Although the men were running, Chief Officer H. T. White and five men of the Indiana launched a boat and picked up the six distressed seamen, who were forced to jump into the sea because the lifeboat could not get alongside the schooner.

COMPLAINTS BY TRAINMEN ON EASTERN ROADS

NEW YORK, Jan. 28.—Complaints of trainmen on the eastern railroads that several lines are not obeying the award of the arbitrators are the subject of conferences here, which will continue all of this week between the trainmen's general adjustment committee and the conference committee of railway managers.
About eighty complaints have been settled, but members of the managers' committee do not believe that an agreement with others will be reached. In that event they will be referred to the arbitration board, as provided under the Newlands act.

Railroads Suffer from Government by Chief Clerks

NEW YORK, Jan. 28.—In the administration of the affairs of the railroads and other corporations of the country are suffering from government by chief clerks and secretaries, according to Major Charles De Lane Hine, originator of the unit system of organization for the Harriman and other railroad lines, who spoke at the annual dinner of the Efficiency society last night. He said he believed that under no circumstances should one individual ever use the name or sign the initials of another.
"That experts should devote more time to developing the efficiency of the heads of great corporations and let the employees rest once in a while was the opinion expressed by Roger Babson, expert statistician.
"I believe," he added, "that the greatest inefficiency is in the boards of directors of our various corporations. Most of these men are indifferent and attend meetings only for their fees, if they attend at all. Moreover many of them hold their positions simply because of inherited property and are utterly unfit for their work."
Mr. Babson also emphasized the need of more accurate records in the rating of men employed under the efficiency system.

Canada Pays Joslyn Over Half Million for Advertising Lands

WASHINGTON, Jan. 28.—How Canada has paid the Western Newspaper Union \$42,000 a year for the last twelve years to circulate reading matter about the Dominion through the medium of patent insiders, which the union furnishes to newspapers, was told to the senate lobby committee today by George A. Joslyn of Omaha, president of the union, and Alfred Washington, its advertising manager.
Joslyn testified that the matter so circulated was marked "advertisement" and was designed to induce Americans to emigrate to Canada.
Washington testified under cross-examination that he did not think it unpatriotic nor disloyal to his country to circulate such matter. Canada's interior department, he said, paid the Western Newspaper Union \$1 a column for all such material the newspapers used.

POLITICAL GUNS TRAINED

Democratic Nebraska Awaits Action on Patronage Question.
DISCONTENT IS ILLY CONCEALED
Congressmen Believe Senator Hitchcock Should Settle Marshaling and Collectorship with Secretary Bryan.

(From a Staff Correspondent.)
WASHINGTON, Jan. 28.—(Special Telegram.)—With hundreds of friends of a score or more candidates for United States marshal and collector of internal revenue in Nebraska and an equally large number of friends of those who aspire to be deputies under the new appointees, training their mightiest and most powerful political fighting guns upon Mr. Bryan, Senator Hitchcock and the democratic members of the Nebraska delegation in the interest of their respective candidates, the Nebraska patronage situation from the Washington standpoint is one the twould require occult powers to solve or even hazard a guess as to the outcome.
So far as the members of the house from Nebraska are concerned, the situation is handled entirely by the lone democratic senator from the state. The representatives are of the opinion that the question should be handled by Mr. Hitchcock and by him thrust out with the secretary of state. However, they do not conceal their anxiety for Mr. Bryan and Mr. Hitchcock to get together on the question of the United States marshaling and internal revenue collectorship, both offices now being open for the democratic dinner table as soon as an agreement is reached by them.
But when it comes to the problem of Jerry Howard of South Omaha, who has written a characteristic letter to Senator Hitchcock, transmitting resolutions passed by, as he expresses it, "the employed and unemployed laboring men" of the bi packing houses, in which the Nebraska Manufacturers' association is played for its stand on the Bartlett-Bacon bill referring to labor.
The resolutions of Mr. Howard condemn what they term "the cowardly, unwarrantable and unjustifiable attack on the down-trodden, oppressed, persecuted laboring element of the nation."
Mr. Howard urges Senator Hitchcock to vote for the Bartlett-Bacon bill.

Keys in Washington

C. E. Keys of Springfield, Neb., former member in the legislature, is in Washington for a few days. He has been visiting in the east for some time and is on his way home.
Reparation on Shipment.
The Interstate Commerce commission has awarded reparation in the case of the George H. Lee company of Omaha against the Illinois Central Railway company on incinerators and brooders shipped from Cairo, Ill., to Omaha, which was found to be unjust.

Sheridan Man Named

President Wilson sent the nomination of G. T. Stahl of Sheridan, Wyo., to be receiver of public moneys at Buffalo, Wyo.

Iowa Appointments

W. H. Leibhouse was appointed postmaster at Walford, Benton county, Iowa, vice Anna Benach, resigned.
W. W. Bradley of Lewis county, Iowa, and W. C. Green of Oskaloosa, Ia., have been appointed clerks in the Agricultural department.

Child Born in Depot

BOONE, Ia., Jan. 28.—(Special Telegram.)—A daughter was born to Mr. and Mrs. Frank Harrison in the Milwaukee depot at Madrid today. The parents are en route from Kentucky to the west.

UNIVERSITY HEADS ASK CITIZENS ABOUT REMOVAL OF CAMPUS

Presidents of Leading Schools of Middle West Hear Evidence About Consolidation.
LINCOLN CLUB TAKES NO PART
Members of Commercial Body Announce They Are Neutral.
JONES SAYS ALUMNI DIVIDED
Average Lincoln Man Unable to Judge Free of Prejudice.
FUTURE PLANS MADE KNOWN
Educators Ask Minute Details of Purpose of Regents in Case Two Schools Are Not United on Farm Acres.

(From a Staff Correspondent.)
LINCOLN, Jan. 28.—(Special.)—The future of the state university as a whole, without regard to minor things, seemed to be the drift of the questions asked by members of the committee from colleges of the west invited here to look over the proposition of university extension as it confronts the voter of the state at a meeting held at the Lincoln hotel this morning to conclude the inspection made of the downtown and farm campus propositions yesterday.

Ex-Regent Teeters confined his remarks to a general talk on the two propositions, and that both Lincoln and Omaha papers had given notice a day or so ago that everybody was invited to come before the meeting this morning and talk to the committee. He thought that was no way to do things, but finally subsided.
Alumni Differ.
Will Owen Jones, editor of the Nebraska State Journal and president of the Alumni association, gave a very interesting talk. He was asked by President Thompson of the committee if the alumni as a body had opposed the consolidation of the university at the farm and replied that they had not; that the action taken was by the officers and not by the alumni. He said that the alumni here generally opposed removal, but that the alumni of Omaha favored it. He said that a postal card vote had been taken by the Omaha alumni, but he did not consider the proposition put up as being a fair one. He also thought that the average Lincoln citizen was not competent to speak on the matter from an unprejudiced standpoint. He thought that the people of the state would be glad to have a body of competent men such as composed the committee make a study of the proposition and decide the matter. He said that one great objection to the present location of the university was its nearness to the railroads, which interfered with the best work of the students on account of the smoke from passing trains and the noise in connection with the switching. Amusements so close to the university proper also had a tendency to detract the attention of the students from their work.

The Ever Useful Store Window

Mr. Merchant, there are many kinds of good advertising, and there are many ways to advertise.
We believe that newspaper advertising is the best-known form, because the daily newspaper reaches everybody everywhere.
The most successful way to advertise is, first, to take the best medium, and then to get 100% of results out of that medium.
We hope that you are a user of newspaper advertising, but whether you are or not, you can take advantage of the advertising done in good newspapers like The Bee.
Your show windows offer a splendid medium for advertising the advertised goods on which manufacturers spend money in the columns of this newspaper.
Sit down today and make a list of all the products advertised by manufacturers in this newspaper that occupy a place on your shelves.
Then tomorrow make a window display of all these products and draw attention to the fact that these articles are standard goods advertised in the best daily newspapers.
In this way you will "cash in" on the demand created by the makers of these products because you will let customers know that you sell them.

The Weather

Forecast till 7 p. m. Thursday:
For Omaha, Council Bluffs and Vicinity—Snow; much colder.
Temperature at Omaha Yesterday:
Hours: High 45, Low 25.
Comparative Local Record:
Highest yesterday 45, 1913 45, 1911 45.
Lowest yesterday 25, 1913 24, 1911 25.
Mean temperature 34, 1913 32, 1911 32.
Precipitation for the day 0.00, 1913 0.00, 1911 0.00.
Temperature and precipitation departures from the normal:
Normal temperature 32, 1913 2, 1911 2.
Excess for the day 13, 1913 13, 1911 13.
Total excess since March 1, 1,230.
Normal precipitation .62 inch.
Deficiency for day period, 1913, 1.21 inches.
Total rainfall since March 1, 21.28 inches.
Deficiency since March 1, 4.34 inches.
Deficiency for day period, 1913, 4.21 inches.
Deficiency for day period, 1911, 15.79 inches.
