

HOW TO DRIVE OUT QUACKS

Dr. Evans Tells Business Men of Methods Used in Chicago.

NEWSPAPERS COULD ASSIST

Says These Medical Leeches Could Not Live if the Newspapers Did Not Sell Them Space.

"Spread public knowledge of personal and sex hygiene and of disease," said Dr. William A. Evans of Chicago, speaking to physicians and business men at the University club at noon, "and you will soon rid Omaha of the advertising or quack doctors, all of whom are liars of necessity and cannot live except by deception, dishonesty and the dissemination of false and erroneous assertions in newspaper advertisements."

Dr. Evans was introduced as a nationally prominent member of the medical profession and the man who as editor of the medical column of the Chicago Tribune had been instrumental in driving quack doctors out of Chicago by means of a newspaper campaign and the passage of a city ordinance.

"After the newspaper campaign was inaugurated, all the quacks went out of business, possibly to come to Omaha," he said. He advocated that the newspapers here make a similar exposure of the business of quacks, whom he said were the rejects of medical schools, were ten years at least behind reputable physicians in practice, and could not live if they were required to tell the truth in their ads, as the Chicago ordinance now makes them.

"The erroneous ideas now prevalent on the subject of sex hygiene are largely the results of the ads of quack doctors," he continued. "They have prospered on the savings of ignorant people, who were swayed by the lies and misrepresentations of these leeches of the profession."

"But publicity is a double-edged weapon, and if turned against the quacks by telling the truth about them, a city can soon be rid of such self-styled specialists. The agencies of truthful publicity and public education along these lines will rid the community of all fakes in the medical profession and raise the standards of mental and moral accomplishment by improving public health."

"At present the public is not intelligent enough to distinguish the value of statements made by advertisers. Therefore the newspapers have the responsibility of guarding against false advertisements."

Loveland, who was pastor of the First Methodist church of this city for four years and who has been pastor of the First Methodist church of Topeka for the last four years, has received a call from the First Methodist church of Portland, Ore., at a salary of \$2,800 a year. The Portland church has been endeavoring to secure Dr. Loveland's consent for some time, but the consent of the bishops was only secured Tuesday and the appointment was made on that day. Dr. Loveland will probably leave Topeka to answer the call within a few weeks.

Wise Memorial Has a Successful Year

The first published annual report of Wise Memorial hospital, which was incorporated in 1901, has been issued, and in spite of the fact that greater charity of the table work has been carried on by the hospital during the last year than ever before, a number of improvements have been paid out of the surplus earnings of the hospital.

During the tornado relief work, Wise Memorial hospital cared for a great number of unfortunate people and made no charge for the aid rendered through every bed and room and ward in the hospital was pressed into service during the period which followed the storm.

In every phase of work, the last year has been a most successful one for the hospital, which under the management of the present officers has been one of the most successful institutions of the kind in the city, finishing the year with a neat balance to meet unusual demands during the current year.

A notable feature of the report is that of the 1,641 persons cared for at the hospital during the last year, there were more Catholics than persons of other faith, some 37 patients giving that as their church preference. The Methodist ranked second in numbers, sending 241 patients to Wise Memorial hospital; Jewish third, with 16, and the Lutherans fourth, with 12.

The present officers of the hospital are: Mrs. J. Sonneberg, president; Mrs. C. Schlink, vice president; Isidor Sommer, treasurer; Miss Lena Rehfield, financial secretary; Isaac Kahn, secretary; Miss Ida Illlette, R. N., superintendent.

Laborer Loses Violin It Took Seven Years to Make.

POLICE ON TRAIL OF THE THIEF

Friends of Good Government Urged to Get Their Names on Registration Lists, as Others Are Making Use of Chance.

Isaac Latroc, a packing house laborer at 2321 Q street, is heartbroken over the loss of a violin made by himself after years of labor and toil. Latroc told the police yesterday that his violin had been stolen a few nights ago. The police say that the loss of the instrument means as much to Latroc as the loss of one of his family. The instrument was home made. It took seven years in all to complete. Latroc first procured the wood and after two years' seasoning under a special process of his own began the work of making a violin for himself. He was too poor to purchase one that would suit him and he nailed the shrieking scrape of the machine-made things that were sold to the poor.

So, after seasoning the wood Latroc went to work on the actual manufacture of the instrument. It took him five years in all. Since the completion of the violin he has spent many hours in its company. Into it he has worked the thoughts and dreams of a lifetime and from its heart he has drawn the comfort and soothing of its sweetest music. And then a thief came and stole his precious violin—and now Latroc pays daily visits to the police station to see if his violin has been recovered. The police say they will get it back.

YOUTH BREAKS LEG. Edward Lowry, son of Mrs. Ed Lowry of Twenty-fourth and G streets, arrived home yesterday from school at Spaulding, Neb., where he sustained a fracture of the left leg a few days ago. The break was caused by a fall on the ice where young Lowry was skating. The hurt is not serious.

Fast Stock Special. From Billings, Mont., to Omaha, comes the new weekly stock special carrying from thirty-five to fifty-five cars of stock from the ranges of Montana to the pens at the Union Stock yards. The run is made in twenty-one hours' time, including stops. A few times the run has lasted twenty-three hours. But even at that local stockmen say it is a big thing. The fastest stock train on the Burlington does not exceed the rate of speed now exhibited by the Billings special. Stockmen say that the new train means a big thing to the Union Stock yards and Omaha.

POOL HALL MEN ON CARPET

Ryder and Dunn Instruct Them to Observe Law Closely.

RINE DRAFTS NEW ORDINANCE

Violations in Running Establishments to Be Punishable with Regular Fines and License Suspension.

Pool hall proprietors were summoned before Police Commissioner J. J. Ryder and Chief of Police Dunn yesterday and instructed to literally and strictly enforce the law prohibiting minors from loitering about the places or playing in them.

Commissioner Ryder said there has been some complaint that the pool hall owners were negligent, allowed rowdies to hang around their halls and permitted minors therein.

"Of course it is hard to determine whether a young fellow is a minor or not," said Commissioner Ryder, "but all we want is good order in these places and prompt expulsion of any boy who insists on hanging around."

City Attorney John A. Rine, at the request of Mayor Dahlman, has drafted an ordinance making more severe the punishment for the violation of the "pool hall ordinance" provisions.

This ordinance gives the commissioner of police power to suspend the license of any pool hall proprietor he deems guilty of violations of the law. Charges shall then be filed against the proprietor and the council shall give the man a hearing. In case the proprietor is found guilty the license must be revoked.

HOWARD WANTS PLACE ON MINIMUM WAGE COMMISSION

A place on the minimum wage commission is the latest job being sought by Jerry Howard of South Omaha. When for the second or third time Governor Morehead announced that he would finally appoint this commission which the legislature provided for a year ago Howard immediately began to consider himself a candidate. As this position is one that carries no salary, Jerry feels pretty sure that he can at last land this political job. He has not yet been able to get the federal appointment as consul to Dublin, which he has sought. Yesterday he wrote a long letter to Governor Morehead.

The Beer of individuality and quality. If in doubt - try it. BEVERAGE. Dietetic Value of Beer. From a German Medical Opinion. The intoxicating action of beer is very much less than that of wine and whiskey; and as it gradually tends to suppress the use of the latter, it accomplishes a high mission in the history of civilization. The intoxicating action of the small quantity of alcohol (in beer) is neutralized by the carbonic acid and the malt extract. Hops in small quantities stimulates the appetite and promotes evacuation, (or acts as a laxative.) Beer is very nutritious when consumed with meat, cheese and bread and it is greatly undervalued as promoting health and robustness. -DR. KIRBACH. BLATZ COMPANY.
