GREECE ASKS

Six months have passed since the close of the second Balkan war, and the Bulgarians are apparently hopeful that much of the terrible indictment that was brought against them by all Europe has become a confused memory. A party of Bulgarlan officers and solders, assisted by the local Bulgarian authorities and a band of 'irregulars,' entered and looted the city, subsequently setting fire to the consulate, were dragged to the mountains. The Italian consulate also suffered destruction. The flags of foreign powers were ignored. The American flag, flying over the stores of the American Tobacco company, availed nothing. The managers escaped to Salonica, reporting a loss nearly a million dollars. Every man, woman and child caught in the streets or hiding within the looted houses was mercilessly slain. Read what the Rev. Gustave Michell, head of the French Catholic mission of Kilkis, has to say. The dispatch which we quote was sent by him to the press of Pars:
"Most shocking crimes have been perpetrated in this town and throughout the surrouding country by the Bulgarians. With my own eyes I have seen the massacre of helpless human beings. In the willage of Kourkouf a band of Bulgarians headed by the bandit, Dontsioff, forced all the male population within the confines of the mosque, which they then burned to the ground, 2compelling, at the point of the sword, the women and children to witness the frightful scene. Seven hundred men were burned alive. Those who tried to escape were shot as they ran I have visited Kourkour and I have ceen the care of human remaines. "At Plantza, the same band of marauders carried their devillances to still greater lengths. They drove the male inhabitants into the mosque, which they burned, compelling, as before, the women to witness the atroctous proceedings, immediately after which the women were stacked together and burned alive in the square before the ruins of the mosque. In Rainovo, men and women were sain and the bodes thrown into the wells. At Klikis, the Bulgarian inlabitants destroyed the mosque and massacred their fellow townsmen of the Moslem faith.

These documentary proofs of Bulgarian ferocity are but a few of the great mass of depositions, letters and governmental reports that ile ready to the hand of the investigator. An army of witnesses at test the truth of every allegation. These witnesses are of all nations, all faiths, all walks of life. They are not interested, as Bulgaria is interested, in endeavoring to justify her unjustifiable acts; they are interested, as all should be, in the protection of non-combatants and the observance of the rules of civilized warfare.—Advertisement.

Only Three Thousand Dollars Appropriated to Run Department for Year, and that is Now

(From a Staff Correspondent) LINCOLN, Feb. 6 .- (Special.) - Labor sioner Charles Pool, who has been in the limelight the last week in connection with charges of nonenforcement of the act regulating the hours of female labor, has issued the following state-

If those well meaning persons who have seen fit to criticise me for what they are pleased to term my 'failure to enforce fully the provisions of the law pertaining to the employment of females in the city of Omaha." had made some slight inquiries they would do doubt have been surprised to learn that the legislature appropriated the munificent sum of \$3,000 for the conduct of the bureau of labor for the fiscal year beginning April 1, 1913, and closing April 1, 1914.

Of this \$3,000 appropriated there was expended up to February 4, 1914, \$2,542.18, leaving a balance of \$457.72 to carry the department up to April 1, 1914. Of the amount expended \$858.52 was paid to inspectors, the two in Omaha receiving \$759.43 up to November, when it was necessary to dispense with their services because of the funds being so nearly exhausted. If those well meaning persons who have

The average expenditures of the department for all purposes (other than the salaries of the deputy and stenographer in the office) was \$211.85 per month, which includes printing, inspections, postage and all necessary supplies for the department. Should the expenses for February and March not exceed \$211.85 per month the department will have a surplus of \$34.02 April 1 1914. April 1, 1914.

April 1, 1914.

The services of the inspectors were of great benefit to the department and would not have been dispensed with had it been possible to find a way in which to meet their salary claims.

The department has exercised due diligence in investigating and correcting all the evils that have been brought to its attention, yet it is possible there have been violatilons of the law. Any fairminded person will admit that while there are laws there will be infractions of the same, but we do maintain that we have done all we could with the funds at our command to enforce the laws as we found them.

at our command to enforce the laws as we found them.

Understanding Governor Moreheads ideas were to carry on the work of all departments on as economical a plan as possible, it has been the practice of this department to get full value for each dolla rexpended, and to see that no unnecessary outlay was made.

The taxpayers of the state have a right to demand the practice of economy by their public officials, and the records of this department will bear out the assertion that at so time has there been an unnecessary use of funds, and that we have secured results of great benefit to the people of Nebraska with the meager appropriation given us by the legislature.
