Discolored, Wrinkled Skin Easily Removed

(From the Woman Beautiful.)

Since brown or yellow, over-red or biotchy complexions are decidedly not the fashion. I cannot understand why so many continue to wear them. Surely every woman has heard of mercolized wax. This I know-from my own and others' experiences-will positively banish every unsightly tint. The wax really takes off a bad complexion. It gradually harmlessly, absorbs the thin layer of surface skin with all its defects, as chaps, liver spots, pimples, freckies, blackheads. Just as gradually the discarded skin is replaced by the clear, white, youthful skin underneath Mercolized wax, procurable at any drug store, is applied nightly like boid cream and erased mornings will suffice.
