EW YORK pooh poohs at the results of Federal raids," shouts the Sporting News in a big-lettered headline. Ah, but does it? By New York we may assume that the forces of "organized" base ball are meant. Yet, far from pooh poohing is it for Mr. Farrell of the New York Highlanders and Mr. Ebbetts of Brooklyn and Mr. Murphy of Chicago and Mr. Tom. Dick and Harry of Philadelphia for Mr. Tinker, Mr. Farrell for Mr. erals to lose out, but for some of them to win, and none for the "organized" leagues to laugh them out of existence, as, of course, all judges of the situation know. Last year we learned from the same sapient sources that this upstart of a Federal league would blow about the first of June. It blew not; it finished a rather pretentious season and cut in on the mightiest raid of the old It will not be as strong a league in 1914 as either the American or the National, as things now stand, but it will have a good deal of strength for an infant.

Toronto goes in and out of the Federal circuit by alternating ourrents of gosthe league, though, it is to remain a part of the new organization. Which brings up the interesting of the new organization. brings up the interesting subject of distances in the new circuit. A good deal calculation about relative distances. For instance, some are saying that it is too big a jump from Kansas to Toronto, seemingly assuming without reckoning that because a national line is crossed flukey about his playing, or about his that leap is the longest. It is not. It is 970 miles from Kansas City to Toronto, but 1,191 from Kansas City to Baltimore, which is the "longest haul" of the circuit. From Baltimore to Toronto is 499 miles The other distances are not worse gun practise, and early reports from the than those already and always traveled other side indicate that they will have in major leagues. Some Ball, Bo.

For many long and joyful years the base ball fan so gay
Did glory with perpspiring ease in Matty's fadeway.
While spit ball artists, Ford and Walsh, were in the prime of life
And mowed the batters down with glee throughout the bitter strife.
But now 'tis changed, alas, alack, those stars no more do thrive,
Their curves have passer the zenith far and no matter how they strive
They've lost their kick and staying power and backward now do slip,
For now the ball which takes the prize is called the tango dip.
'Tis strange, this ball, this tango dip, but it never, never fails,
'Cause from its funny little twists the batter always qualls.
It one-steps round his neck with speed and trots around his feet,
Then Castle walks across the plate and ne'er the bat does meet.
The fielders never have to work, the the catcher helps alone,
The umps, his job is simple to call strikes in a drone,
As the ball shoots clean across the plate at an auto's speedy clip
For this curve is infallible, this famous tango dip.
