FEDERAL HEADS GOING EAST

Does It Mean Peace or Invasion by Outlaws of New York?

THREE LEAVE FOR METROPOLIS

Han Johnson Opposed to Planting Association Team in Cleveland, Objects Lead to Third Club Placed in Chicago.

CHICAGO, Feb. 9.—The unexplained and hurried departure of three of the Federal league leaders to New York, where their opponents of organized ball are gathered this week in force, gave rise to two theories tonight.

One that peace between organized and outlaw ball is to be made and the other that the Federals, despite their protestations, are figuring on invading the metropolis.

President James A. Gilmore of the league and Charles Weighman and William M. Walker, owners of the Chicago club, made the trip.

Han B. Johnson, president of the American league, though apparently well informed as to the movements of the rival league magnates, said he knew nothing of the purpose of their journey. He did say, however, that he was opposed to the proposition to plant an American association team in Cleveland, although to the suggestion that a third team be placed in Chicago his objection was not so strong. Johnson left tonight for New York.

Won't Enter Courts. The American league head intimated that organized ball would not enter the courts in the war with the Federals, but said that any player who began the season with the outlaw circuit probably would be let go.

Pimples Often the Source of Serious Blood Trouble

In thousands of instances blood troubles have been the result of coming in contact with disease germs in public places. And the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, often infecting the entire system in a few days.

It is fortunate, however, that there is a remedy to cope quickly and thoroughly with such a condition, in the famous S. S. S.

This preparation stands alone as a blood purifier. It is somewhat revolutionary in its composition, since it has accomplished all that was ever claimed for mercury, iodides, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. It contains one ingredient which serves the active purpose of stimulating such tiny cellular part of the tissues to the healthy and judicious selection of its own essential nutrient. There are more cases of articular rheumatism, locomotor ataxia, paralysis, neuritis, and similar diseases resultant from the use of minerals than most people are aware of. These facts are brought out in a highly interesting book compiled by the medical department of The Swift Specific Co., 304 Swift Bldg., Atlanta, Ga. It is mailed free, together with special information, to anyone who writes describing their symptoms.

Little Girl Tries to Double-Cross the Drug Stores

So many different types of "con" men have been played in Omaha that Steve Maloney and the other demagogues on the Omaha detective force have become enamored with the idea that they have bucked every possible game. But any such dreams were shattered last night for a new one broke.

A little girl, perhaps 2 years in age, started a campaign of the drug stores which almost merited financial returns, but failed miserably. She entered the store of Unit-Doekal and announced that she had purchased a box of candy therein for which she paid 19 cents. The box was empty and she demanded reparation. But the box was a half-pound box and would sell for 20 cents. Therefore she was questioned. She asserted she had bought it from an old man. As Unit-Doekal have no old men in their employ she was told that she had evidently made a mistake.

The young woman then hurried across the street to a news stand where some candies are sold, followed by a clerk at the drug store. There she declared her mother had purchased the candy to send to a friend out of town. As the news stand did not carry the brand of candy the empty box signified, she was unsuccessful there.

"Black Tony's" Photo is Identified by His Pal in Omaha Jail

"Yep, that's him," succinctly answered Joe Williams last night when he was shown a picture received from Pueblo, Colo., purporting to be that of "Black Tony."

"That's the guy," repeated Williams, self-confessed leader of the bandit trio. "You've got the killer and the prize liar," he continued.

"That guy says Rosamond and I went to Denver and Lincoln with him and he knows he's lying. And he says he only got \$200. He not only got all his share, but stole mine and Rosamond's."

Detective Dunn, who is now in Pueblo, will confirm the identification in a telegram to Chief Dugg, this morning. Two hundred dollars, offered as a reward for "Black Tony," will be paid over by Dunn today, and he will start back to Omaha with his prisoner as soon as requisition papers can be prepared.

HIS MIND A PARTIAL BLANK

Man Found at the Union Station Does Not Even Know Himself.

PRINTER'S CARD IN POCKET

Remembers Nothing About His Affairs, but Upon Other Matters His Condition Seems to Be Normal.

Officer Brown found a man at the Union station Sunday afternoon, whose query to the officer of "Who am I?" has brought to light a case of loss of memory.

At police headquarters a membership card of Printers' Union No. 122 of New York City and a night letter addressed to S. T. Odell partially identify the man. Aside from the fact that he declares this to be his name, and his occupation to be that of a printer, the man seems to know but little of himself. The letter dated February 2, and bearing a Julesburg, Colo., date is as follows:

"S. T. Odell, Clear Lake Ia. Your letter just received. My name is Clarence Odell Sinch. My brother Frank T. Sinch has been missing since October. We feel sure you are he from handwriting and name, which was mother's maiden name. S. T. were initials of Uncle 'Doc' Odell. If you are Frank, wire, I will come. May send tenderest love.

CLARENCE C. SINCH." A type slug engraved "I am going to Clarence C. Sinch, Julesburg, Colo.," was found in the man's pockets. When questioned he denied all knowledge of Clarence Sinch or the name. He could not remember ever being in Clear Lake, or anything except that he had been a printer for forty years and had tipped a waiter 25 cents on the diner Sunday morning.

Well dressed, of excellent speech, and able to converse in German, French or Spanish, the man is a complete puzzle to the police authorities and local doctors who examined him Sunday evening.

In a pocket book he had plenty of money and a ticket to Julesburg. At intervals during the evening he would catch glimpses of his past and during these brief intervals announced that he had worked on the Portland Oregonian, about a month ago, and since then had been in Richmond, Va.

Aside from the fact of his lost identity, the man is perfectly rational and for several hours during the afternoon and evening discussed various topics with officers at the station. The police have wired both Julesburg and Clear Lake in the hope of obtaining enlightenment as to who the man is. Meanwhile he will be kept in custody.

Earl of Derby Backs Up When Bluff Called

LONDON, Feb. 9.—The earl of Derby has declined to sell to Baron de Forest his Bootle estate in the suburbs of Liverpool, as at one time appeared likely, on the ground that the baron had wilfully misrepresented the terms of his offer.

Recently in a contribution to the land inquiry committee's report, Baron de Forest cited the Bootle estate of the earl of Derby as a striking example of unearned increment. The property, which was purchased in 1724 for \$33,000, he estimated to be now valued at between \$15,000,000 and \$20,000,000.

Certain-teed Roofing

Quality Certified Roofing Durability Guaranteed

There is no "advance test" by which you can know how long a roof will last. Your safeguard is the guarantee-in-advance of a manufacturer whose responsibility is unquestioned.

Roofs don't wear out—they dry out. We use no coal tar in this roofing—because coal tar is of a gaseous origin and naturally returns to gas, thus drying out too quickly. Our properly blended asphalt is the result of a quarter century's experience and tests. They are not of gaseous origin and dry out very slowly.

When we say, "Certain-teed Roofing—shingles or rolls—is built on a soft center asphalt base with a harder asphalt protecting surface"—we have named the materials that make the ideal roof for best and longest service. We guarantee them for 15 years—in Certain-teed Roofing. And the three biggest mills in the roofing industry are behind that guarantee.
