Here is something absolutely guaranteed to keep your rupture from coming out.

And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny.

If it doesn't hold—if it doesn't keep your rupture from bothering you in any way—then it won't cost you a single cent.

The Only Thing Good Enough

To Stand Such a Test

You know as well as we that you can't tell anything about a truss or anything else for rupture merely by trying it on. That's the worst of going to a drugstore or local truse fitter's.

A truss or so-called "appliance" may seem all right when you first put it on, and afterwards prove utterly worthless. The only way in the world you can make sure of exactly what you're getting is by a 60 days' trial—a thorough day-after-day test.

And our guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss—is the only bibing of any kind whatever for rupture that you can get on sixty days' trial, the only thing good enough to stand such a long and thorough test.

Something Sothing Rise Does

The Cluthe Automatic Massaging Truss is so utterly different from anything laise for rupture that it has received eighteen separate patents.

It provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

Just how it does that—antirely automatically—is all explained in the free book.

Will Save You From Operation

Will Save You From Operation
The Cluthe Truss has so noroughly proved its merits that physicians in all parts of the world and surgeons in the

U. S. Army and Navy now recommend it instead of advising operation. It has brought complete recovery in hundreds of cases after operation has proved a

failure.
