POOL HALL LICENSES HELD UP

Kugel to Be Given Full Control of Gathering Places.

TO HAVE HEARING ON MONDAY

Police Commissioner Has Anthority to Suspend License of Any Pool Hall Proprietor Who Violates Law.

Licenses of five pool hall proprietors are being held up by the city council pending an investigation of the places by police. No licenses will be granted until the police commissioner has secured information as to the character of the proprietors and the kind of places they have been operating.

Police Commissioner A. C. Kugel sent a sergeant of police to investigate the halls of the three applicants and the reports, while making no recommendations, were of such character that there will be no licenses issued.

An ordinance has been passed by the city commission giving the police commissioner authority to suspend the license of any pool hall proprietor who violates any of the regulatory laws.

"I have given the police to understand that these pool halls where loafers are allowed must be cleaned up."

Breeding Places for Crime. money and must scheme to secure more. The council will leave the control of forers. the pool halls exclusively to the police commissioner, having vested him with complete power to take what remedial steps he may deem necessary.

Some of the proprietors whose licenseare being held up will be given a special hearing at a meeting of the commission Monday, but as soon as the commission passes on the applications it will drop the matter, leaving the police commis-

However, proprietors will still have the privilege of appealing to the whole counall from the decree of the police com-

WILL PUSH IMMIGRATION When You Smell the General Passenger Agent Wakeley

to Urge Booster Appropriation.

WANTS MONEY FOR ADVERTISING

Will Make Showing of the Way the Western Part of the State is Forging Its Way to

General Passenger Agent Wakeley of the Burlington has gone to Chicago and while there he is expected to take part in the conference of officials of the Hill roads relative to the plans to be adopted for pushing settlers into the west during the coming spring and summer,

Mr. Wakeley will insist that the Ne-Braska and Wyoming lines over which he has jurisdiction be given consideration and that they come in for an equitable share of the appropriation set aside for advertising purposes. He goes upon the theory that it is to the company's interest to exploit the western part of this state and eastern Wyoming, putting a settler upon at least every section of the land, thereby increasing the population and at the same time adding to the quantity of freignt that of necessity must be hauled in and out.

With him Mr. Wakeley has taken the facts and figures showing what the western part of Nebraska has done in the last two years in shipping out cream and butter. He will also present to the officials figures on the increase of live stock in the western countles along the Burlington, showing to what extent the country has been benefited by ranchers who have borrowed money with which to buy cows and young cattle. He believes that he will be able to make a pretty good showing and furnish conclusive proof covered the plight of the family and has of the family. "F. H." sent 50 cents. hill area of Nebraska cannot be beaten that as a live stock section the sand
