

TARIFF LAW HITS FARMERS

Loss to Agricultural Interests is Likely to Be Enormous.

CONGRESSIONAL RECORD FIGURES

Speaker at Young Men's Republican Club at Lincoln Points Out Effects of New Revenue Act Passed by Democrats.

(From a Staff Correspondent.)

LINCOLN, Feb. 15.—(Special.)—That the farmers of not only Nebraska, but the whole country, are beginning to feel the effect of the new tariff bill and that the loss to the agricultural interests of the country is likely to be enormous was shown in an address delivered by L. A. Welch, a young university law student, at the banquet of the Young Men's Republican club in Lincoln last week.

In speaking upon the effect the new democratic tariff bill had had upon the importations of different kinds, Mr. Welch said that he had taken the figures from the Congressional Record, which had compiled the reports from the office of the secretary of commerce and labor. He first showed the effect the new bill had had in the closing down of the iron and steel industries of the country in the eighty-seven days that the new law had been in operation, as follows:

- Third of Mills Closed. More than one-third of all the steel mills of the United States have closed. More than 1,000,000 of men idle. More than \$100,000,000 in wages gone. More than \$125,000,000 invested in closed mills which are bringing in nothing for the capital invested.

An annual pay roll of more than \$46,000,000 wiped out. On March 4, when the democratic party came into power, said the speaker, "the steel and iron industry of the country was almost at the height of its prosperity. On that day there were 306 blast furnaces running. On January 1, 1914, there were 122 of these furnaces closed. Thirty-eight per cent of all the fires in the blast furnaces of the United States are out now," with no prospects of being relit.

Farm Products.

Mr. Welch then called attention to the imports of different kinds of farm products, making a comparison of imports in October and November of 1912 with the imports of the same products in 1913, as follows:

- In October and November, 1912, there were 7,274 cattle imported into the United States, valued at \$1,491,000. In the same months of 1913, after the democratic free trade bill had been in effect, the importation of cattle into the United States had increased to 233,707, valued at \$6,794,723. In the same months of 1913 the importations of corn into this country amounted to 231,819 bushels. In the same months of 1912 the importations had increased to 2,108,948 bushels. In the same two months of 1912 the importations of wheat into the United States from foreign countries was 57,460 bushels. In the same months, after the new democratic tariff law had gone into effect, the importations increased to 306,021 bushels.

LATE TOUCH OF WINTER IS FINE FOR ALL CROPS

(From a Staff Correspondent.)

LINCOLN, Feb. 15.—(Special.)—A touch of real winter will really improve the chances for a fruit crop in Nebraska this season, so declares Secretary J. R. Duncan, of the State Horticultural society.

"By keeping the trees dormant until late in March or the fore part of April, danger of spring frost is lessened," he said today. "It has been found by studying the records of the late years that a warm March tends to bring out the blossoms and frosts in the latter part of April or early in May, usually follow." Prospects for a heavy fruit crop are considered bright, asserted Mr. Duncan. This was true of everything except strawberries. The young plantations, set out in 1913, failed to produce the usual number of new plants, while the old plantations were hurt by the dry weather. Peaches are in good condition, it is reported.

Mother! the Child Is Costive, Bilious

Don't Hesitate! A laxative is necessary if tongue is coated, breath bad or stomach sour.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When soap, irritative, feverish, stomach sour, breath bad or his stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poison, undigested food and sour bile gently scores out of his little bowels without griping, and you'll have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 5-cent bottle of "California Syrup of Figs." They see that it is made by the "California Fig Syrup Company." Don't be fooled—Ad-vertisements.

State Mercantile Show at Lincoln Will Be a Success

(From a Staff Correspondent.)

LINCOLN, Feb. 15.—(Special.)—"Our plans have developed far enough for us to warrant that the Nebraska Mercantile show will be a success from every viewpoint," said J. Frank Barr, secretary of the Nebraska Federation of Retailers, this morning. "The manufacturers of the state are engaging in a good-natured rivalry to see who can put up the most interesting exhibit of Nebraska-made goods and a number of them are arranging for 'live exhibits,' showing the actual process of making the goods."

"The manufacturers of Nebraska have nothing to do with the management of the exposition. That is entirely under the auspices of the Nebraska Federation of Retailers. We put this exposition on because we retailers want to push Nebraska-made articles; first, because our source of supply is close at hand; second, because every increase in Nebraska's manufacturing industries increases the market for the goods we handle. The more factories we have in Nebraska the larger the market for the retailers and the larger the market for the growers of the raw materials. It is a proposition that ought to receive the hearty support of every loyal and enterprising Nebraskan."

The Nebraska Mercantile show will be held at the Auditorium in Lincoln, beginning Monday, March 9, and continuing one week. The exhibits will include practically every manufacturing industry.

DAILY NEBRASKAN WINS FROM PRINTING COMPANY

(From a Staff Correspondent.)

LINCOLN, Neb., Feb. 15.—(Special.)—The Daily Nebraskan, the student university paper, won its suit in court yesterday, Judge Stewart deciding that an injunction could not apply in this case as it would produce no benefit to the plaintiff shutting off the very means by which the defendant would be able to answer for any contract, namely its publication. The suit was brought by the Kohl Printing company in an effort to enjoin the student board from taking from it the job of printing the paper and giving it to the Western Newspaper Union, claiming that it was damaged by reason of the loss in business.

TABLET TO MEMORY OF SLAIN SHERIFF UNVEILED

(From a Staff Correspondent.)

PAWNEE CITY, Neb., Feb. 15.—(Special.)—A large crowd witnessed the unveiling of a tablet to the memory of Cloud Fuller in the lobby of the court house Saturday afternoon. NEW ORGANIZATION PLANNED TO GET RID OF THE LOAN SHARK EVIL

(Continued from Page One.)

pose is to conduct all the operations on a strictly business basis, so as to afford such a fair return on the capital employed as would be expected from a financial institution operated under a conservative management. Dividends of each of the local institutions, however, will be limited to 5 per cent on the book value of the capital stock, in order that they may maintain a satisfactory and growing surplus.

Succeeds in Many Cities.

The plan is in successful operation in Norfolk, Va.; Atlanta, Ga.; Baltimore, Md.; Washington, D. C.; Memphis, Tenn.; Richmond, Va.; Charleston, S. C.; Columbia, S. C.; Springfield, Mass.; St. Louis, Mo.; Denver, Colo.; Lynchburg, Va., and Philadelphia, Pa. A similar company, with a capital of \$1,000,000 is ready to begin operations in New York City under supervision of the New York State banking department, and similar companies are already under way in Nashville, Knoxville, Jackson and Chattanooga, Tenn.; Durham, N. C.; Chicago, Ill.; Pittsburgh, Pa.; New Orleans, La., and in other important cities throughout the country.

In every instance where local companies have been organized to operate the plan, to quote further from the announcement, men of distinction in their several walks of life in the respective communities have invariably become the directors and deeply interested in the work of the company.

For instance, in Philadelphia, the directors are Louis J. Kolb, Howard H. Henry, Thomas Newhall, W. L. Forbes, Dr. Thomas G. Ashton, Franklin S. Edmonds, Samuel M. Curwen, John Gribble, Thomas Martindale, Robert L. Montgomery, J. R. McAllister, Robert McKenty, Charles J. Rhoads, Joseph M. Steele, W. Finley Stewart and Charlton Tarnall.

In Baltimore the directors are: Henry F. Baber, Bruce Cotten, Hooper Coyne, Fred A. Duffield, Solomon Frank, C. I. T. Gould, John J. Kelly, Jr., Stuart Oliver, Aubrey Pierce, Jr., Redmond G. Stewart, Jenkins S. Whitebee and John C. Wroes.

In St. Louis the directors are: Paul Brown, James G. Butler, W. F. Carter, Henry L. Cornet, F. B. Eisman, T. S. Garnett, Jr., W. W. Hoxton, Oscar Johnson, W. J. Kinsella, George D. Markham, A. L. Shapleigh, M. L. Wilkinson and Thomas Wright.

In Springfield, Mass., the directors are: Ralph P. Alden, Charles H. Beckwith, John W. B. Brand, Raymond A. Jacobs, Harold A. Ley, C. Frank Merriam, James R. Miller, William H. Sergeant, Joseph Shattuck, Eliphath T. Traft and Charles McI. Tunstall.

The actual result in gifts to the borrowers in one city alone, Atlanta, Ga., amounted to \$75,000 in a single year.

Standard Test of Experience. The fundamental principles of the "Morris plan" have not only stood the test of experience in this country, but the experience of European countries is further confirmation of its value, according to the statement given out today. It is an adaptation of the principles of the Schulz-Delitzsch industrial banks that revolutionized the financial and sociological conditions in Germany and Austria over fifty years ago, and of the Lusatti modification of this plan that has been in successful operation in Italy for half a century. The adaptation has been scientifically fitted to American conditions and laws, based upon the principles to be found in the experience of American banking.

The organization committee of the Industrial Finance corporation is composed of Dr. E. R. L. Gould, New York, chairman; Fergus Reid and Arthur J. Morris, Norfolk, Va.; W. R. Craig, Samuel L. Fuller and Charles H. Sabin, New York. Among those in New York City who have cooperated with the organization committee are Dr. Nicholas Murray Butler, W. D. Sloane, Eugene H.
