GRAIN AND PRODUCE MARKET

Wheat is Being Sold Quite Freely for Exportation.

CORN SHOWS UP VERY STRONG Yellow Cereal Takes Renewed En ergy and is Strongest of All Grains, Making Some Hendway in Prices.

OMAHA, Feb. 21, 1914.

Wheat is selling more creely for export. Both the buying and reling sides of the market are endeavoring to keep the daily transactions from the grain trade at large. Chicago houses alone sold possibly 200,000 bushels renterday, of which part was No. 2 card winter, and which part was No. 2 card winter, and which will be shipped accord via the gulf, and 255,000 bushels is Malitoba, which will go out via the eastern seaboard. Kansas City grain men reported some acceptances of Thursday night's offers for export and word of the same hind came from St. Louis. A measage to one of the leading houses, received after the close last night, said that the purchases of wheat by exporters at the seaboard were on a more liberal scale than any day during the present week.

It transpited that Argentina is not offering any of the good wheat held in that country, but that the low grades are coming out as rapidly as buyers can be found for it.

The Armour Grain company received a cable from Paris yesterday saying that northern Bussis is ice-bound; that the Russian wheat is in damp condition, and that some damage is believed to have occurred to Russian and French wheat by winter R'ling. Also while Argentina is offering very little wheat, the offerings from southern Russia are large and likely to increase. French merchants are bidding for nearly as much Australian wheat as are those in England.

Cash wheat was unchanged to 14c lower.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Frices on Board of Trade.

CHICAGO, Feb. 21.—Distrust regarding sensational reports that the Hungarian crop would prove a comparative failure had a bearish effect today on wheat after had a bearish effect today on wheat after an early advance. The close was tame at a shade to be under last night. Corn suffered a net loss of be to be be, oats finished unchanged to a sixteenth down, and provisions varying from the same as yesterdy's wind-up to a decline of 7be. It was not until after wheat prices here in sympathy with builish cables had given evidence of rather decided strength that attention was drawn to a sudden fall of 1be in quotations at Budapest. As that market reflects conditions in Hungary, leading traders in Chicago were led to discredit the most striking previous news of the day from Europe, a statement vouched for by high authority that the crop promise in Hungary was very unsatisfactory, so much so that large purchases were being made from Roumania.

Coffee Market,

NEW YORK, Feb. 21.—Higher European cables, smaller interior Santos receipts and reports of firmer cost and freight offers seemed responsible for an opening advance of 3 to 6 points in coffee today. There was scattered buying, but demand was not active and prices weakened under March liquidation, which promoted a scattered selling all along the line. The closing was barely steady 4 to 9 points net lower. Sales, 4,000 bags. February, 8.81; March, 8.81; May 3.02; July, 8.21; September, 8.36; October, 2.46; Docember, 8.39; January, 2.52.

Cows and helfers broke at the beginning of the week, about the same as beef steers, but they, too, recovered the loss later in the week and are now fully as high as at last week's close.

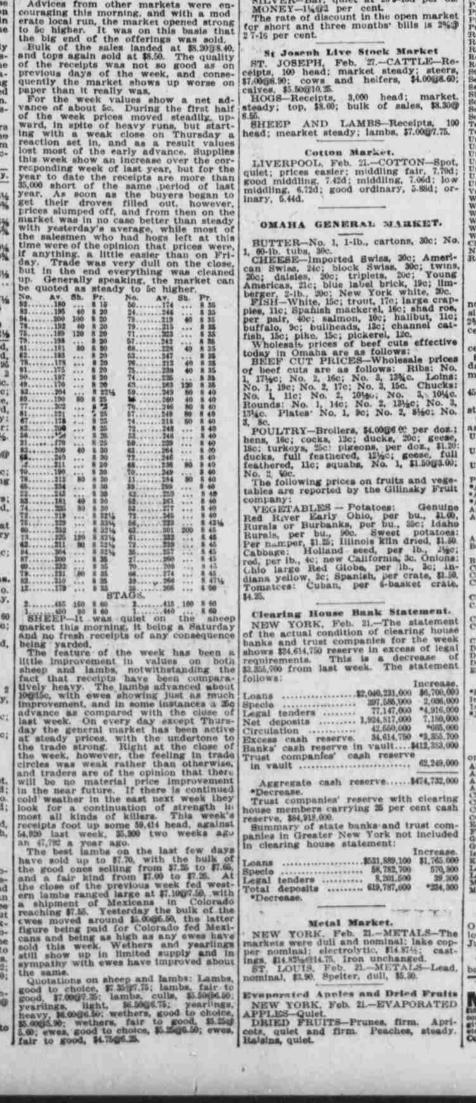

Stockers and feeders broke under the influence of large receipts and reduced country buying at the beginning of the week, and as the demand proved rather slack they falled to recover lost ground, and at the close of the week are 10@15c lower, with common steers possibly showing more loss than that.

Developments in Mexico Depress American Stocks Sharply.

LOSSES OF STANDARD SHARES

Paris Unexpectedly Engages Two Million in Gold, Bringing Up Total Export Movement to Fourteen Millions.

NEW YORK, Feb. il.—The latest developments in Mexico degressed American stocks sharply in the London market before the opening here. In the home market a sharp attack was made by bear traders at the outset. Some of the specialties fell back several points. Among the standard shares losses were general, aithough limited to fractions.

Several months ago the Mexican situa-Several months ago the Mexican situa-tion figured prominently as a factor in the stock market, but of late it has exerted little insidence and it was ap-parent that no genuine concern was felt in the financial district over the latest in the financial district over the latest developments. The market failed to recover opening losses, but sufficient buying appeared at the lower level to stay the decline, and after the first fifteen minutes quotations barely varied.

Bullish operations among the industrial specialties were checked abruptly. General Motors and American Ice were especially heavy being affected by demials cially heavy, being affected by denials of dividend rumors. Paris unexpectedly engaged \$2,000,000 gold, bringing up the total export movement to \$14,000,000. Since early in the year Paris has been taking \$2,000,000

weekly. A cash loss of nearly \$3,000,000 instead of the expected small gain was shown in the bank statement. In spite of the weck's new financing, there was only a week's new financing, there was only a small increase in the loan account. The surplus was reduced by \$3.255,000.

Bonds showed an easier tendency. Total sales, par value, \$1,900,000. United States bonds were unchanged on call on
