and no fresh receipts of any consequence being yarded.

The feature of the week has been a little improvement in values on both sheep and lambs, notwithstanding the fact that receipts have been comparatively heavy. The lambs advanced about 100mic, with ewes showing just as much improvement, and in some instances a 250 advance as compared with the close a improvement, and in some instances a 36c advance as compared with the close of last week. On every day except Thursday the general market has been active at steady prices, with the undertone to the trade strong. Right at the close of the week, however, the feeling in trade circles was weak rather than otherwise, and traders are of the opinion that there will be no material price improvement in the near future. If there is continued cold weather in the east next week they look for a continuation of strength it most all kinds of killers. This week's receipts foot up some 59.414 head, against 54,920 last week, 35,300 two weeks again 47,792 a year ago.

The best lambs on the last few days have sold up to \$7.70, with the bulk of the good ones selling from \$7.25 to \$7.65. At the close of the previous week fed west-

ern lambs ranged large at \$7.1097.50, with a shipment of Mexicans in Colorado reaching \$7.55. Yesterday the bulk of the cwes moved around \$5.0095.50, the latter figure being paid for Colorado fed Mexicans and being as high as any ewes have sold this week. Wethers and yearlings atil show up in limited supply and in sympathy with ewes have improved about the same.

Quotations on sheep and fambs: Lambs, good to choice, \$7.55.97.75; lambs, fair to good, \$7.0097.55; lambs, cuils, \$5.5095.50; yearlings, light, \$6.5096.50; yearlings, light, \$6.5096.75; yearlings, heavy, \$6.0096.50; wethers, good to choice, \$5.5096.50; wethers, fair to good, \$5.3595.60; ewes, fair to good, \$4.7596.35.

A Warfare for Women

THE average cost of the food necessities of life has in-L creased 49 per cent since 1903. Prices will never go back where they were ten years ago. The increase has come to stay and we must learn how to spend money so that each dollar has greater buying power. No one has been quicker to see this than the women, for it has been the women of this country who have been compelled to face the fact that food prices are advancing more rapidly than the average income.

The Cost-of-Living Fight

must be waged and won in the kitchens of American homes. No one woman can hope to win the battle alone but the combined experience, knowledge and influence of all women everywhere is more than sufficient to drive out THE HIGH-COST-OF-LIVING DEMON.

The Plan of Campaign

has been under discussion for months and it has at last taken the form of a book containing the life-long experience of 450 of America's best known home makers. Notable women from every state have contributed suggestions in generous numbers, and in order to give a touch of personality to each contribution, portraits and biographies of the contributors are given.

"Economy Book" Cells how

each woman cango about it to solve her own per-sonal problems. The smallest incomes may be made to go farther by following the plans suggested in The "Economy Book." Larger incomes will be benefited to just as great an extent, and even the rich will find that the scientific principles it advocates will add a great deal of pleasure to life. The co-operative spirit is strong among housewives of today and this book is positive proof that women are espable of solving the most diffi-oult problem of the age.

Join the Crusade Coday

In order to allow this book to go into every home, the Editors of the work have commanded that the price be fixed at \$50, an amount that barely covers the east of printing and distribution.

Cut out this ECONOMY CENTIFICATE, sign your name and give full address. Present it at The Bee office, 105 Bee building together with 89c, which is the fee fixed by the Editors. The return of the Certificate is necessary.
