TAYLOR FAMILY GIVE THANKS

Express Appreciation for the Help Given by Bee Readers.

ARE NOW IN THE NEW HOME

Richard Burnell, who also rendered valuable assistance in buying the home, thanks those who gave aid.

With her five children and crippled mother safely moved and settled in the little home bought for them by readers of The Bee, Mrs. Edna Taylor is rejoicing in the new era of happiness that has opened up since their distress was relieved. She wrote the following note of thanks yesterday, in the effort to express, at least in spirit if not in words, the deep feeling of gratitude which she has toward all the many people who helped the family:

To the Readers of The Bee: We wish to express our heartfelt thanks to The Bee and to the kind hearted readers of The Bee who have done so much to relieve our distress. We would have suffered much if The Bee had not taken up our cause and so in the name of the children and for myself I desire to convey to you some measure of the gratitude we feel. We also wish to thank Mr. Wharton of the Omaha Lumber and Coal

company for the lumber given us for a barn, and for their assistance rendered. Thankfully yours,
MRS. EDNA TAYLOR.

Thanks from Burnell.
Richard Burnell and his wife, who were the first to discover the suffering and privation which the Taylors were silently enduring, have also written a letter, in which they give credit to those who responded so generously to their call for help in relieving the situation. It was through Mr. and Mrs. Burnell that The Bee learned of the case and was glad to lend its assistance in securing a new home and the necessities of life for the poor family. Now that the house at Thirtieth and Pinkney streets is all paid for and deeded to the five children, with the mother as guardian, the Burnells offer this letter in recognition of the co-operation they received in starting the relief movement.

OMAHA, Feb. 28, 1914.—On behalf of the Taylor family, we wish to thank County Commissioner J. C. Lynch, George A. Joelyn, Mayor Dahlman, the Omaha United States, Merchants, First and Packers' National banks; also Mrs. F. P. Kirkendall, Mrs. W. D. Hofstad, H. H. Harper and J. B. Hummel for the use of their autos and chauffeurs; also Thomas McGovern & Son for free fire insurance, Frank Norton for free abstract and D. L. Johnston for free deed; also Superintendent F. W. Booth of the Nebraska School for the Deaf, and the pupils of the school, for money donations and help in moving; also Robert Knudsen for teams loaned; also Edward Yartou of Benson for his services; also The Bee Publishing company for the great stand they took in helping the Taylor family; also the children of the Mason school and every other person who gave a cent or any supplies, clothing or other assistance to the suffering family, which has been restored to comfort and happiness by the efforts of Bee readers. Any person who wishes to help Mrs. Taylor further, by giving her washing and ironing to do, may notify her by sending a card to the home, 338 North Thirty-ninth street. May God bless the people of Omaha. Many thanks to them on behalf of the Taylors, MR. AND MRS. RICHARD BURNELL, 433 Bedford Avenue.

HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have regular headaches every week or every month, and still others have headaches occasionally, but not at regular intervals. The best doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will relieve it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take Anti-Kamnie Tablets, and the results will be satisfactory in the highest degree. You can obtain them as all druggists in any quantity, by mail, or by express, and they are guaranteed to be the best worth the money. Ask for Anti-K Tablets.

SICK-HEADACHES

Sick headache, the most miserable of all ailments, comes in its various forms. Anti-K Tablets are taken, and in many cases, the attack will be relieved. During an attack take one or two tablets every two hours. The rest and comfort which follow, can be obtained in no other way.

Genius: A-K Tablets bear the K monogram. At all druggists.

Immediately after the Dewey hotel holocaust, a great hue and cry was made about other lodging houses and hotels being unsafe. State Fire Commissioner Russell and deputies visited every hotel, made recommendations, a few slight changes—and the Dewey incident was swallowed up in the horror of the Omaha, tornado which followed a few weeks afterwards. Today, there are in Omaha hotels just as much unsafe as was the ill-fated Dewey.

Insurance Notes.

The Kentucky house bill of 44 to 24 has passed the bill abolishing the fellow servant defense in cases of accidental injury.

The Missouri department has ruled that non-resident fire insurance companies may not write policies or transact business in the state, except through an agent who is a resident of Missouri.

The Ohio fire marshal reports that the total number of incendiary fires for 1913 is about one-third the number which occurred during the first year of the department's operation. Several organized gangs of firebugs have been driven out of the state or sent to the penitentiary, and the public generally understands that suspicious fires are carefully investigated.

The fire insurance companies have been notified that the anti-rebate law of Wisconsin will be strictly enforced and are asking their agents to comply carefully with its prohibitions. The law provides that extension of credit to the insured over sixty days from the time the insurance is written, without interest, or with interest at less than the legal rate after sixty days, is in violation of the law.

The code of fire prevention ordinances for small towns recently issued by the National Board of Fire Underwriters seems to meet a long-felt want. Numerous applications are coming in for it to the committee on public safety and education. The Missouri insurance code commission, which is making a specialty of fire prevention in its various hearings throughout the state, is advocating the adoption of these ordinances.

The agents of the Prudential Life made a remarkable record in the special campaign for new business in the honor of the completion of twenty-five years of service with the company by President Dryden. During the campaign 178,000 policies to the number of 178,000 were written, a ratio of 19.3 policies per agent, with ordinary business amounting to \$7,500,000. Of this \$7,500,000 written by industrial agents and \$6,000,000 by the ordinary agents.

Insurance Commissioner Preus of Minnesota, in his annual report, says that ignorance is the primary cause of nearly all the evils of insurance, and urges that the public be given a thorough education on the subject, beginning in the public schools. He says that ignorance is responsible for the mass of half-baked and unwise legislation which burdens the premium payer, by trying to reduce rates by legislation, instead of by lessening the number of fires. He says that it is also responsible for the inadequate rates of the fraternal and for the improper contracts issued by some health and accident companies.

ASKS HEAD OF EVERY HOME SOME PERTINENT QUESTIONS

From the "Human Factor," published quarterly by the Equitable Life Assurance society, is taken another question of striking importance to the man of family. "Are you gambling with adversity?" is the query, and continuing with "Are you betting with your wife and children that you will live to make a fortune for them—or to save enough to protect them?" and answering this asserts, "If so, the odds are overwhelmingly against you."

These kind of questions propounded in innumerable different forms in a thousand different publications are helping the agent and making his missionary work in the life insurance business easier, and it is this kind of thought that has made this country the healthiest life insured in the world.

Whelan Suggests City Let Contract to Remove Garbage

Police Commissioner A. C. Kugel will submit to the city commission in committee of the whole Monday a letter from James Whelan, dead animal collector, in which Whelan suggests that the garbage problem be solved by letting contracts for its removal to the lowest bidder.

Commissioner Kugel will submit the communication without recommendation.

"Whelan told me last year that he thought he could remove garbage for less than \$30.00 a year," said Kugel. "I am making no recommendation, but will leave it to the council."

LIABILITY PLATE GLASS AND BURGLARY

THE ANNUAL PAYMENT POLICY MATURING AT AGE 60 ISSUED BY THE MIDWEST LIFE makes a splendid old age pension. It provides insurance protection to age of 60, when premiums cease and the policy matures for its face amount. The insured then can receive the face of the policy in one lump sum; or on each \$1,000 of insurance the company will pay him \$100.00 a year for twelve years; or it will pay him \$90 a year as long as he lives; or it will pay him \$60 a year for twenty years certain and for as many years longer as he may live.

The annual premium on this policy at age 25 is \$22.74; at age 30, \$27.26; at age 35, \$33.96. Insure in

FAMOUS PHOTOGRAPHS GOING INTO BOOK ON ASTRONOMY

Rev. William F. Riese, S. J., astronomer at Creighton university, has received a letter from Ellison Hawks, secretary of the Leeds Astronomical society of Leeds, England, asking permission to use the prints of the celebrated photograph which figured so prominently in the Erdmann case here several years ago.

Mr. Hawks has heard so frequently of the photographs that he wishes the Omaha astronomer to allow him to use the prints in a book on astronomy which he is now writing for boys.
