Witness Unable to Recall Any Conviction of Federation Officers Outside the Michigan Copper District.

HOUGHTON, Mich., March 4 -- James MacNaughton today declined on advice of counsel to state before the congresssional committee the amount of his ralary as general manager of the Calumet & Hecla Mining company. The question put by O. N. Hilton on cross-examination precipitated a heated discussion, during which MacNaughton arose to his feet and, shaking his finger at Hilton, exclaimed: "It is not \$100,000, otherwise it's none of your affair, and I won't tell

There was an outburst of applause from the audience, including the witness' wife and daughter. Chairman Taylor warned the crowd against making any further demonstration.

Hilton had explained that his reason in asking the question was because it had been reported that MacNaughton's salary was \$100,000 a year, and if it was true that he was getting such a sum while men were "working for him in the mine for as little as 20 cents a week," he thought it ought to be shown. Congressman Casey asked the witness

if he had any objections to telling the committee what his salary was. "Privately, no," replied MacNaughton. Chairman Taylor said he supposed the committee would be able to ascertain the amount received by MacNaughton from

Mr. Sloan's speach attracted much interest. The ranking member of the agricultural committee, Clibert N. Haugen of Iowa, had yielded an hour's time to his associate, Mr. Sloan, to explain the provisions of the bill from the minority point of view, which was rather an unusual honor to be accorded to a member of the committee ranking below the leading member of the minority. While the chairman of the agricultural committee, A. F. Lever of South Carolina, whom Mr. Sloan followed, was given careful attention during the opening of his speech, Mr. Sloan had the distinction of having a larger number of representatives present at the close of his remarks than did Mr. Lever. Mr. Sloan occupied the attention of the house for an hour and a quarter, being frequently interrupted by applause, and during that time he showed that he had made a very close study of the bill now before the house, and which carries in round numbers about \$25,000,000.
