The supreme executive officer of the Royal Arcanum, Frank B. Wickersham of Harrisburg, Pa., will make a visit to the councils in Council Bluffs, South Omaha and Omaha tomorrow, the event closing in a big union meeting of all the councils in the three cities, and from other points in Nebraska, and as the guests of Union Pacific council in Omaha. At the union meeting Thursday evening a large class of candidates will be mitiated, the Council Bluffs council furnishing twelve or fifteen. The members of Fidelity council will hold a regular session this evening in their hall on Pearl street and tomorrow evening will meet at the lobby of the Grand botel and proceed from there in a body to the Omaha meeting.

Today is expected to be the big day at the office of County Recorder Barghausen, when the annual spring rush to get real estate transfers on file for record will reach its maximum. The transfers yesterday amounted to more than \$23,000, and there are some reasons for believing that the total fillings today may aggregate considerably more. The greater number of the heavy transactions relate to the sale of farms with prices ranging around \$150 an acre. The movement of city real estate is also unusually large, and many of the filings expected during the week will be transfers of local real estate. Real estate men declare there is more inquiry for desirable city property this season than has been noted in March for many years.

for many years.

George Donnelly, one of the car checkers employed in the yards of the Union Pacific railroad at the transfer, indicated the kind of metal he is made of when he encountered two car looters at work. They had broken the seal of a merchandise car in the extreme western end of the yards and were in the act of forcing the door when he came around the end of taking to their heels as he expected they both sprang at him, each thrusting out an ugly looking revolver. They made him throw up his hands and told him to stand still or they would shoot his head off. Both then backed away until they reached the end of the car and then disappeared. The instant their backs turned Donnelly whipped out his own revolver and started after them, firing as he ran at two shadowy forms that were dedging in and out between cars. Donnelly wasn't frightened a bit, he was just mad. If he had seen the fellows' backs a moment sarlier he would undoubtedly have bagged them.

CHICAGO, March 4.-Policewomen were decided here today to be a failure when comes to handling disorderly persons of their own sex or crowds. In replacing the policewomen by men, Chief Gleason said that the presence of the women officers drew such a crowd as to create a dangerous condition.
