WHY WE HAVE TO SELL

has been fully explained through our advertising for the past two weeks. If you read our advertising you would have been impressed with the fact that our piano warehouses were greatly overstocked. In this advertisement we will try to explain to you

WHY YOU SHOULD BUY

It is a fact that never before has a retail store had on sale such a large number of pianos nor such a beautiful and varied assortment. You should buy from us, at this time, for the simple reason that no matter what price you are asked to pay, you will make a saving of from 40 to 60 per cent. You should buy now, because every piano that we are offering in this sale is of high grade, standard make. You should buy now, because no matter what your taste may be, we can satisfy you. You should buy now, because the factory and ourselves give you an absolute guarantee as to qualities in the piano purchase.

No matter what you pay to us for a piano, whether it be one of the beautiful small uprights, that we are offering at a special bargain price of \$112 or one of our beautiful uprights, that are specially priced at \$750, you will receive for your money at least 50 per cent more piano quality than usual.

BUY A PIANO FOR YOUR HOME

and buy it now, for never again will so great an opportunity be offered you. Come and look over our stock. You will be surprised when you see the beauty of the pianos, hear the sweet tone qualities and learn of the remarkably small amount of money it takes to have one delivered to your home.

We Invite Comparison and Challenge Anyone to Meet Our Prices

We are quoting below just ten prices on brand new, just from the factory pianos; every one ordinarily would bring twice the amount we are asking. If the styles in this list are not what you want, we have several hundred other equally great bargains. Look them over. Every instrument absolutely guaranteed just as represented. Remember--WE give a guarantee that protects the buyer. Our prices are 50% lower than elsewhere.
