

### Nebraska QUIET DAY AT STATE HOUSE

Officials at Their Respective Homes, Taking Part in Election.

### EMPLOYEES GREATLY INTERESTED

Most of Them Apologetic and Will Be Out of Jobs in the Event Their Chiefs Fail to Slip Under Wire.

(From a Staff Correspondent.)

LINCOLN, Nov. 5.—(Special.)—The state house was silent as a tomb today, nearly all the state officers being absent at their homes to cast their ballots. No business was transacted and the employees waited impatiently for the first returns which would indicate their political fate.

Governor Aldrich went to David City early Tuesday morning. Attorney General Martin went to Fremont. State Auditor Burton has been campaigning in the Fifth district and Secretary of State Wait returned to Lincoln at noon after voting at Syracuse.

Although interest in the election was apparently keen throughout the state, nowhere in Nebraska were the first returns received with such acute eagerness as among the employees at the state capitol. Practically all of the employees are apologetic and the defeat of their superiors would extend through the entire state office organization, excepting, of course, those who were not involved in this election.

**New Depot at Shubert.**  
As a result of a trip made Monday by Railway Commissioner Hall to Shubert in company with Superintendent L. B. Lyman and the roadmaster of the Burlington a conference was held with citizens and an agreement reached upon the location of a new depot to replace the one burned ten days ago.

The request of the citizens for passenger train service on the branch running through Shubert, which has never been anything better than freight or mixed trains, was taken up at the meeting.

Superintendent Lyman promised to recommend to General Manager Holdrege that the trains now running between Lincoln and Red Oak, Ia., be diverted at Nebraska City, so as to run in the future between Lincoln and Falls City.

A more convenient location for the new depot has been selected. It will be west of the tracks, on the side next to town, and on the north side of the main street. The old depot was across the tracks from the town and on the south side of the street.

Citizens expressed themselves as well satisfied with the new arrangement.

**To Fix Value of Telephone.**  
Chief Engineer Hurd of the State Railway commission valuation department, accompanied by a telephone company representative, will go to York Wednesday to commence the physical valuation of the Lincoln Telephone and Telegraph company exchange at that place.

The valuation is being made preliminary to the company's request for a hearing for advanced rates and limited county service. It is expected that the inquiry and investigation will take the remainder of this week, if not longer. The Lincoln company will have a representative at York to look after its interests. T. H. Clifford probably will take part in the inquiry.

**Supreme Court Resumes Work.**  
The supreme court will resume hearings Wednesday after two days' recess for election. Seven cases are set for hearing Wednesday and the same number for Thursday and Friday.

**Bryan Takes a Long Nap.**  
William J. Bryan overslept election morning for the first time in years as a celebration of the end of his strenuous six weeks' campaign through twenty-two states, including Nebraska, in the interest of Governor Wilson's candidacy. Bryan left word that he should not be disturbed and the usual early rise did not present himself to reporters until 10:30 o'clock.

He then strolled across the country, a distance of one-half mile, to the voting place in Normal precinct, where he has voted for ten years. His vote was No. 7.

**Teachers to Omaha.**  
Two hundred and fifty teachers of the Lincoln public schools and the state university will go to Omaha early tomorrow to attend the annual meeting of the Nebraska State Teachers' association. Among the faculty members of the university who will appear at the program are Prof. M. M. Fordyce, A. H. Deed, Prof. H. W. Caldwell, Prof. E. H. Harbour, Dean Charles E. Bessey, Prof. Brownell and Dr. Clapp.

**Deshler News Notes.**  
DESHLER, Neb., Nov. 5.—(Special.)—A. Holitzen of this place, superintendent of public instruction of Taylor county, was married October 30 to Miss Ella G. Woker of Belvidere, at the home of her parents. Mr. and Mrs. Holitzen will spend their honeymoon attending the state teachers' association in Omaha this week.

The St. Joseph oil company is arranging to put a tank station at Deshler from which oil will be supplied to this section of Nebraska.

The Deshler Light and Power company is figuring on extending its operations to neighboring towns and will also supply light and power to farmers on its cable lines.

**Three Weddings at Fairbury.**  
FAIRBURY, Neb., Nov. 5.—(Special.)—Cupid has been unusually busy in Fairbury this week and already three weddings have been solemnized. The first wedding took place at the Baptist parsonage when Miss Emma B. Smart of Crete and Richard L. Rigg of Dorches-

### GET RID OF GRAY HAIR

It Can Be Done If You Use This Simple Home Made Preparation.

Gray hair is an evidence of approaching age we would all like to get rid of. But the use of dyes, restorers, etc., such as are available, have so little to recommend them that few refined people care to use them. Then again, who likes to go into a drug store and ask for these preparations—always a plain "give-away" that our hair is turning gray? But this simple, easily-made preparation, a capital hair darkener and scalp tonic, solves the problem exactly and is sure to meet every requirement. Procure at any drug store 1 oz. bay rum, 4 oz. glycerine and a small box of Barbo Compound. Dissolve the latter in 7 ounces of water, adding the bay rum and glycerine and the preparation is ready. Apply once a week until the hair is sufficiently darkened, and then every two weeks will be often enough to preserve the color. This also an excellent remedy for dandruff and other humors of the scalp, does not rub off or color the skin and keeps the hair soft, glossy and as beautiful as nature could make it.—Advertisement.

### Nebraska.

ter, Neb., were married, Rev. B. H. Taft officiating. The groom is a brother of J. M. Pigg of this city. Mr. and Mrs. Pigg will make their home in Dorchester.

Miss Florence Hartman and Bert Andrews were married in county court by Judge C. C. Boyle. The bride is a popular Fairbury girl. Mr. and Mrs. Andrews left for Trenton, Neb., to make their home.

Mrs. Etta DeWees and Alred A. Jones were married by Rev. S. E. Megaw of the Presbyterian church. The wedding took place at the bride's home, and immediate friends and relatives witnessed the ceremony. The bride is a daughter of Mr. and Mrs. Ellis Crane. They will make their home in this city.

### KEARNEY WILL ENFORCE POOL ROOM ORDINANCE

KEARNEY, Neb., Nov. 4.—(Special.)—The lid on pool hall attendance by minors is expected to be screwed down tight as the result of the action of the board of education this morning in passing a resolution asking the mayor and city council to vigorously enforce the pool hall ordinance.

A truant officer was employed at the meeting, after the present incumbent had been given a two weeks' trial. D. E. Sawyer, a senior in the state normal school, being chosen for the office.

School will be dismissed tomorrow for the remainder of the week that all of the teachers will be able to attend the state association at Omaha this week. But two teachers will not accompany the city school corps, their remaining home being occasioned by illness in their families. The new school addition will be officially dedicated December 12.

Special aid was voted this noon by the Commercial club to the Kearney High school students in their annual football excursion to Grand Island, which takes place November 15, this year. Decorations, banners and a band will be taken, the trip to be made on a special train.

### NOTES FROM REATRICE AND GAGE COUNTY

BEATRICE, Neb., Nov. 5.—(Special.)—Word was received here yesterday from southern Missouri announcing the death of Thomas Grace, a pioneer resident of Gage county, who located in that state some years ago. Mr. Grace was 82 years of age and leaves a family of children, all grown.

The barn on the premises of J. W. Burgess, who resides on North Fifth street, this city, was destroyed by fire last night at 12 o'clock. A pony and considerable hay and grain was destroyed. The loss will amount to nearly \$1,000, partially covered by insurance. The origin of the fire is unknown.

Mrs. Agnes Berry, an old resident of Barneston, died suddenly yesterday. The body will be taken to Wymore for interment.

Mrs. Jane Harrington, a former resident of this city, died at Sioux City Sunday. The body will be brought to this city Wednesday for interment.

Announcement was received here yesterday of the marriage of Carl Hamilton of this city and Miss Iva Richardson, which occurred at the bride's home at Toledo, O. The young couple will make their home in New York.

### Young Man Injured

TECUMSEH, Neb., Nov. 5.—(Special.)—Master Melvin Phelps, the 6-year-old son of Mr. and Mrs. Walter Phelps, the family home being seven and a half miles southeast of this city, was kicked in the face by a horse and terribly injured.

### GALVANIZING AN OLD THEORY

Holds to the North, Ties to the South, Janssens Sound and Refreshing Sleep.

Experiments are now being conducted at Columbia university to prove the truth of the theory that people who sleep with their heads pointing toward the north magnetic pole and their feet toward the south sleep more soundly than those who sleep otherwise.

"Do you sleep well?"  
"Are you in perfect health?"  
If not, you had better box the compass before retiring. Every man, woman and child in this broad land should turn his or her head around until the head points north and the foot south. Then only will his or her sleep be as deep and sound as possible, all other things being equal. Then only will he or she arise with nerves rested and with proper tone to the entire body.

"Nonsense, rot," you say. Yet experiments at Columbia university seem to bear out this theory, which is almost as old as the hills.

Dr. Walter J. Clarke of 24 West Seventy-second street, one of the best known exponents of the use of electricity, not only for the cure of diseases, but for the soothing effect it has on overworked or tired nerves, is a firm believer of this theory.

"The truth of this theory, which is a very old one, has been demonstrated thousands of times," says Dr. Clarke. "But it is only just recently that scientific proof has been produced. We now understand why it is so. By electrical stimulation of the nerve fibers one can either rest them or make them healthy, if diseased. Many diseases that were formerly treated by the giving of drugs are now cured by electricity. There is no doubt that sleeping with the head to the north is beneficial."

Thomas A. Edison does not take much stock in the theory, however. "It's simply a matter of self-hypnosis," he declares. "If a nervous person thinks he will sleep better headed due north it is well for him to do so. I find I can sleep well no matter what direction I'm headed if I can only get to bed."

The research work at Columbia university under Prof. G. V. Wendell has brought out the fact that d'Arsonval, a French scientist who lived in the eighteenth century, experimented along these lines and found that people who slept with their heads pointing to the north magnetic pole slept more soundly than those whose heads pointed in other directions. His experiments were made from 1815 to 1820. He explained the phenomena on the theory that in all the hundreds of cases studied by him the flow of the magnetic current going on all the time over the earth's surface from the north magnetic to the south magnetic pole induced a weak current of electricity in the bed on which those who were being observed slept, the principle being exactly the same as electrical current is now generated in a dynamo.—Chicago Inter Ocean.

### MRS. HAYWARD FOR DIVORCE

Wife of Former Well Known Nebraskan Starts Suit Here.

### ALLEGES EXTREME CRUELTY

No Specific Acts Mentioned and the Plaintiff, Now in City, Declines to Discuss Her Case.

Mrs. Sarah C. Hayward, wife of William Hayward, former secretary of the republican national committee, has brought suit for divorce alleging extreme cruelty. Her petition was filed in the Douglas county district court yesterday afternoon. The petition gives no details and alleges no specific acts of cruelty. Mrs. Hayward, who is in Omaha visiting Mrs. W. H. Wheeler, declines to discuss the suit, as do her attorneys.

Since the estrangement of the Hayward, Mrs. Hayward has been residing in their old home in Nebraska City. Mr. Hayward lives in New York city.

Mrs. Hayward is a daughter of the late Colonel Frank P. Ireland and a grand-daughter of the late General Isaac Coe. Mr. Hayward is a son of the late Senator M. L. Hayward of Nebraska City. He entered politics as soon as he was old enough to vote. He served as chairman of the republican state central committee Nebraska and later became secretary of the republican national committee.

Mr. Hayward was defeated for congressman from the First Nebraska district two years ago. After a trip around the world with his wife he became a member of a New York city law firm. Mrs. Hayward accompanied him to New York and they lived together there for a time.

### Jannus Now Ready For Long Flight to Gulf of Mexico

Tony Jannus made a trial flight at Carter lake yesterday afternoon and found his hydro-aeroplane in excellent working condition to begin his air and water voyage to New Orleans this afternoon.

The machine, which is made by the Benoist Air Craft company of St. Louis, arrived yesterday morning and was taken to the Rod and Gun club grounds for assembling.

By 4 o'clock the big bird was ready to fly. Jannus made several trial flights, circling around over the lake, on one of which he took the passenger, Bert La Brun of the Rod and Gun club.

Jannus will give an exhibition flight at the club this afternoon at 3 o'clock. He will make several circles above the lake and just before starting down the river toward New Orleans, he will fly over the retail district.

He expects to circle the Woodmen of the World building about 4 o'clock. If the wind permits he will hang in the air 200 feet above the tall building and slide down into the Missouri river.

Charles L. Young, his manager, has gone south to make arrangements at the various cities along the route for Jannus' exhibitions. His first stop after leaving Omaha will be at Nebraska City. He will also stop at St. Joseph, Kansas City and St. Louis for short exhibitions.

### RUMOR OF MERGING OF C. G. W. AND MARQUETTE

According to the statement of Assistant General Manager Alfred of the Pere Marquette, his visit to Omaha has no significance, but according to many of the local railroad men, it has to do with the early merging of this road with the Chicago Great Western, both Morgan properties.

Mr. Alfred arrived in his private car over the Chicago Great Western, and soon thereafter made a social call at the various railroad headquarters, later in the day leaving for the west.

While in the city Mr. Alfred looked over the terminals and other properties of the Chicago Great Western in Omaha and South Omaha and Council Bluffs, refusing to comment, more than to say that the terminal facilities of the road seemed to be excellent.

Not long ago the Pere Marquette was taken over by the Morgan interests and S. K. Felton, then president of the Chicago Great Western, placed at its head.

Prior to this Mr. Felton had secured his promotion of the Chicago Great Western from Morgan.

### An American King

Is the great king of cures. Dr. King's New Discovery, the quick, safe, sure cough and cold remedy, 50c and \$1.00. For sale by Beaton Drug Co.—Advertisement.

### What Women Use to be Beautiful

Those who can find nothing that will protect their tender skin from the cold and wind should try this and they will no longer suffer from water complexion upsets. Dissolve four ounces of borax in one-half pint with hazel (or hot water), and add two teaspoonfuls of glycerine. Apply this, with the palm of the hand, to the face, neck and forearms in the morning and it will not rub off or show like powder. It is a true complexion-beautifier, for it restores and preserves the soft and rosy color of youth.

This inexpensive lotion is especially fine for those who have dark, sallow or oily skins.

"Shampoo" is a word of Hindoo origin and means "to lather, rub and wash the head." When using canthrox for shampooing, dissolve a teaspoonful in a cup of hot water; pour on the head a little at a time and rub well—just as you would with an ordinary shampoo; then rinse the hair and scalp thoroughly with warm water. Canthrox makes an abundance of lather and will remove that fine scurf of which many complain, for it is nothing more nor less than dandruff. Don't use soap when shampooing, for it leaves the scalp hot and hard and causes streaks in the hair when drying. When you use canthrox the hair dries quickly and is soft, bright, fluffy and not streaky.—Advertisement.

Chickering, Kurtzman, Ivers & Sons, Auto Pianos and Player Pianos—and Victor Talking Machines.

COPYRIGHT 1911 BY MARTIN MCCARRICK

## A personal word from Mr. Robinson about the Orkin Brothers club piano

I have been asked by the salesmen to make a personal statement about the pianos we bought for our Inaugural Club. Were the deal not such an important one, I would not presume to tax the readers' patience with any opinions of mine, and especially in a matter that affects my own interests.

In this case, however, I know so well that you who join the club get such "good value received," that I willingly assume the risk.

In the Club Piano, you get all you bargain for and a good deal more. You save money—big money—nearly 100 dollars, in becoming a member of this club. The piano itself is right. It's a good honest piano. The person who buys one as good for 300 and 75 dollars gets the worth of his money, it matters not from whom he buys it. I know this from more than my own personal experience. The manufacturers of this piano are now making about 5 thousand pianos every year and are shipping them to all parts of the known world. Their constant aim is to produce a piano of beautiful tone, attractive case design and, above all, one that will last a lifetime. Hundreds of these pianos are sold right here in Omaha and the surrounding territory every year and I know from my own personal experience just how good they really are—what more can be said?

I have considerable pride in this deal. I consider this the most important piano transaction I have ever made. It will save several tens of thousands of dollars of money to the 500 persons who go to form this big club—money they can use to pay for musical instruction or in taking a vacation trip or whatever use they see fit to make of it.

As this big purchase is intended to stand as an enduring advertisement to our house, I can assure you that the Club Piano itself, as far as I know how to make it do, represents the extreme limit of value for the price and liberal conditions under which it is offered.

*Wm. Robinson*

These pianos are made by good German labor in the factory of one of the best piano manufacturing plants in the world.

The cases are made of fine selected mahogany, walnut and quartered oak. The inside is of birdseye maple.

The keys are genuine ivory.

The strings are of the best imported German wire.

The action is of the best French repeating type—very carefully regulated by as competent workmen as there are in the piano trade.

Our knowledge of the instrument is based on an experience running back over a dozen years—not on faith or hearsay—and it is from that experience we are willing to give the unreserved unconditional guarantee that we do, the equal of which has never before been given on any piano, it matters not what its merits.

**These Pianos are worth \$350. The Club price is \$257.50—thus saving you \$92.50. The terms are \$5 cash and \$1.25 a week.**

**There is positively no interest added.**

### These are the club's special privileges and conditions

- Every instrument is guaranteed without reserve—for five years. There are no "ifs" or "ands" in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing.
- If, after 30 days' trial, the piano is not satisfactory we will give you your money back.
- If the piano is satisfactory after 30 days' use, the Club Member has eleven more months in which to satisfy himself as to the character of the piano. If it does not then prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell—(and we sell over thirty different representative makes).
- If a Club Member dies during the life of his contract we will immediately send a receipt in full to his family for the instrument.
- A beautiful stool and scarf to match the piano are included without extra cost.
- The piano will be tuned twice without charge.
- There is positively no interest added.
- Club Members have an opportunity to still further reduce the cost of their piano by procuring other Club Members.
