secretary of State Befases to Reserve Seats in House for Members Until They Present Certificates of Election.

(From a Staff Correspondent.) LINCOLN, Nov. 6 -(Special.)-Unwilling to admit the defeat of Governor Aidrich up until late today, campaign managers and political advisors of the excutive gave out a statement that private advices received at the governor's office indicate his possible election

This statement was given out by Chief Clerk Fiegenbaum, following a meeting at which all the members of the governor's official staff attended at the excutive offices at the state house Wednesday afternoon

The governor himself remained closeted at the mansion, refusing to see newspaper men. He made it known that he had nothing to say in connection with the result of the election in Ne

brasks. Hope was pinned to the slender possibility that the latest returns from obscure districts of the state will give the governor sufficient votes to overcome John H. Morehead's apparent lead.

At this meeting were Secretary Fuller, Rev. J. H. Presson, Food Commissioner Nels Hansen, the governor's son and several minor appointees. Mr. Flegenbaum, spokesman for the

governor, made public the advices, which he said that he had, indicating the governor's election when all of the returns

The general depression which has enveloped the state house since a few days preceding election lifted somewhat late today when it became generally believed that the present incumbents of the state house, excepting the governor, who were running for re-election, were propably successful.

Representative-elect Butt of Omaha had written a letter to Secretary Wait, which the latter received early Tuesday, asking the secretary to reserve Mr. Butt a seat in a particularly favorable location in the representative chamber. Mr. Butt also said that he was certain

that the remaining members of his legislative ticket had been elected in Douglas county and he asked that the secretary also reserve seats for his colleagues near the desired location. Pute said efficiency, demanded a Mr. Walt said later that he would make
