HULL COMPROMISE COMPLETE

Immediately Following McKeen Attorneys Withdraw Depositions.

TERMS OF AGREEMENT SECRET

Deposition of Former McKeen Stenographer Comes to Light and She Discloses Gossip of Alleged Indiscretions.

Arrangements of details of the ending of C. W. Hull's suit to annul the divorce decree and alimony contract of his former wife, Mrs. William R. McKeen, Jr., are completed. Immediately afterward attorneys for the McKeens withdrew from the files in the office of the clerk of the district court all the depositions taken on behalf of the McKeens. Depositions on behalf of Hull will be removed from the files soon. The terms of the agreement are being kept secret.

A deposition of Mrs. Harriett Jaschka, who was Miss Harriett M. Mould, a former stenographer for McKeen, has come to light. The deposition reveals that Jaschka first was sought as a witness by the Hull side, but later was used by the McKeen side. Her testimony was about as damaging to one side as to the other.

Opens Personal Letter.
Mrs. Jaschka declared that when she was working for McKeen, about September 1, 1908, there came for him a personal letter. He was at home sick at the time, and, not knowing the communication was personal, she opened it. The letter was unsigned. Mrs. Jaschka testified, it began: "I am in your Indiana, my dear old Billy." The writer of the letter said he or she was unhappy.

Gossip at Country Club.
On cross-examination Mrs. Jaschka said she was at the Country club one evening when there was considerable talk about Mr. McKeen's former wife's dancing every dance with Hull. Their faces were flushed, she said, and Hull held Mrs. McKeen so tightly that her feet were off the floor. She testified there was some gossip about their actions and some talk of asking Mr. Hull not to come to the club.

According to Mrs. Jaschka she made an affidavit regarding her observations while in McKeen's employ. The affidavit was made for Mr. Hull several months before her deposition was taken. The making of the affidavit was preceded by an informal conference with Hull and his attorney, Francis A. Brennan.

Just before she made her affidavit, she said, Hull made some inference about her own personal appearance and asked her if she had had anything to do with the divorce between Mr. and Mrs. McKeen. She cried all through her examination for the affidavit. Later, when she received word that Hull wanted to see her regarding further testimony in the case, she answered that Hull would not see her if she saw him first.

The witness said the day before she gave her deposition she called upon McKeen because he had told her to come to him if she ever needed a friend, and she needed one. She admitted she was loath to testify against McKeen because her brother had worked for McKeen and wanted a recommendation from him and her husband was trying to sell goods to McKeen.

Webster Asks for Additional Fees from the Water Board.

A little bill for \$15,000 is creating a considerable rumpus in the Water board, having divided the board against itself, with the water commissioner and the president on one side and three violent protesters on the other. Just now the vote stands three for and three against, with the hope of a compromise in the dim distance.

Attorney John L. Webster presented the bill last June, covering services for three years, additional to his annual salary of \$5,000. It came before the board with a batch of other attorneys' bills aggregating \$17,500. The other bills were allowed, but the Webster voucher was not forthcoming.

Mr. Webster became impatient this week. He said he wanted his money, and Water Commissioner Howell replied that he had all that was coming to him except the amount of his salary, which was in arrears.

A resolution was submitted, supported by three members, attempting to compromise with the general on \$2,000. President M. T. Barlow, Mr. Howell and C. R. Sherman voted against the resolution. P. C. Heafey, D. J. O'Brien and T. E. Condon are on record as supporting it. All the members are much wrought up and declare they will stand firm in the positions they have taken. Webster's supporters say the money is really due him as a matter of justice, and Howell's backers declare his regular salary covered the services for which the bill is presented.

Munitions of war are being collected by the diligent members and a severe engagement is expected when the bill is again considered.

PNEUMONIA MOST FATAL OF ANY ACUTE DISEASE

More than 3 per cent of the deaths in Nebraska are caused by pneumonia, and it is considered the most fatal of any acute disease, according to Dr. E. L. Alexander, who delivered an address on the subject before the Omaha Homeopathic Medical society. He spoke of the dangers that lie in certain treatments of the disease. In summing up he declared that careful nursing and quantities of fresh air are the most essential in effecting a cure. Another interesting paper was read by Dr. Stella Jacobbi.

Traphagen Tells of New Proposed Liability Bill

"The chief asset of the proposed workmen's compensation and employers' liability bill," said C. D. Traphagen of the Commercial club, "is the fact that it will have a great tendency to prevent accidents. It will cause employers of labor to provide equipment safeguarding their workmen and the workmen to use those precautions."

The speaker, who is chairman of the commission appointed by the governor to frame a workmen's compensation and employers' liability bill to be presented for passage to the next legislature, gave a comprehensive analysis and explanation of the bill to the club.

"Its tendency to prevent accidents and deaths," said he, "is much more to be desired than the compensation afforded injured workmen," and then in rather dramatic phrases he pictured the inability of the proposed law to compensate for the pain of a mangled leg or the sorrow of a widow.

He said that it is certain the bill will greatly better present conditions, the present tendency to resist every claim of an injured worker, no matter what are the merits of the claim. The bill, he explained, will furnish prompt payment to the injured one and maintain him above want until he is able to resume his earning; and in case of death it will relieve the sufferings of his dependents. It is better for the employer, the speaker said, because it relieves him of the present uncertainty of paying unlimited amounts.

Mr. Traphagen is opposed to framing the bill in the form of a state insurance, as advocated by some, he believing that such an insurance would not prevent accidents in the way it would if the responsibility fall more directly on the employer.

Omaha Boy to Guard President Wilson

Richard L. Jervis, one of the secret service men who has guarded President Taft for four years and who has now been sent to guard President-elect Wilson, is a former Omaha boy. In 1905 and 1906, when Lucian C. Wheeler was investigating land frauds here, he took Jervis into his employ as a stenographer. Later he was taken into the secret service, and when Wheeler and Sloan took charge of the guarding of the body of the president of the United States they took Jervis on the staff.

MEMBERS OF PREBYTERY ATTEND BRADEN FUNERAL

Funeral services for the late Rev. R. M. L. Braden, D.D., were conducted Friday afternoon at 2 o'clock in Bellevue. The services were attended in a body by members of the Omaha presbytery, in which Dr. Braden was a prominent worker. At a meeting of the presbytery resolutions were adopted "bearing hearty testimony to the sincerity and genuineness of his Christian character and to the fidelity and efficiency of his services as pastor at large during the long years in which he has labored in that office." At the funeral the members of

Council Bluffs Minister Dies at End of First Week

Rev. W. Gardner Thrall, who preached his first sermon as pastor of St. John's English Lutheran church in Council Bluffs Sunday, died Friday morning at 8 o'clock at his temporary home, 120 South Seventh street.

Dr. Thrall came to Council Bluffs Saturday from Chicago. Two days before coming to Iowa he worked extremely hard packing his household goods and in so doing injured his heart. When he arose at 7 o'clock he complained of being sick. His wife went out to get some medicine and when she returned found her husband lying on the bed unconscious. She summoned Dr. Cleaver, but before he arrived Dr. Thrall had died. Death was due to leakage of the heart.

Funeral services will be held Sunday afternoon at 3 o'clock from St. John's church. Rev. G. W. Snyder of Omaha and Charles A. Alden of the University of Omaha will have charge of the services. Interment will be in the Council Bluffs cemetery.

Teachers Endorse Medical Inspection

Medical inspection in all schools was endorsed in a resolution passed by the boards of education division of the Nebraska State Teachers' association. E. H. Gerhart of Newman Grove read a paper on "The Relation of the School Board to the Teacher," and H. P. Shumway of Wakefield followed with a paper on "Efficiency."

Dr. E. Holovitchner, president of the Omaha Board of Education, pointed out the value of medical inspection, explained how the Omaha schools managed such inspection, and the section went on record in favor of it.
