

SNOW IS DRIFTING IN WEST

Banks Several Feet High Reported from Western Nebraska.

GENERAL STORM PREVAILING

Roads Have Not Experienced Any Trouble, but Snow Sweepers Have Been Dispatched to Threatened Points.

Stormy weather is reported throughout Nebraska along the lines of the North-western and Burlington, particularly along the Omaha and Lincoln divisions of the latter road. Snow and rain began falling at points along these divisions early last evening, continuing intermittently throughout the night.

At Alliance the heaviest rain was reported, two inches having been recorded there. Sargent and Columbus both report an inch of rain.

Snow fell heavily in several parts of western Nebraska. At Gordon and Heshville four inches were reported. The snow is falling, with an accompanying wind, and it is drifting several feet deep in some places.

Trains have so far had no trouble from the drifts, but as a precaution both roads have dispatched sweepers to the points threatened. Despite the snow and wind the weather throughout the entire state is far from being cold, although a big drop in temperature from the mountains has been reported.

YOUNG LADIES WRITE DR. HARTMAN.

DR. S. B. HARTMAN

In my answers to correspondents published recently, one was to a young lady who had written me concerning pimples and blackheads that were spoiling her complexion. I understood this young lady some advice, concealing her name of course.

The publication of my advice on this subject has brought me a shower of letters from young ladies. I had no idea there were so many young ladies afflicted in this way. In spite of all the advertised remedies for pimples, and lauded preparations to produce clear skin and splendid complexion, in spite of all this it seems there are a large number of young ladies who are haggardly anxious about their complexions. I thought perhaps a short talk from me on this subject might be a good thing.

Of course I will be suspected of wishing only to sell my medicine, and to recommend Peruna for such cases. In spite of this, however, I am going to recommend Peruna for pimples and blackheads. Let me tell you why.

The bowels when they are healthy contain no poisonous material. Long before the poisons can generate the contents of the bowels are discharged, provided they are in ordinary activity. But constipation will dump up the contents of the bowels and retain them so long that they decompose and furnish poisonous gas and fluids. These poisons are absorbed by the blood vessels in the bowels and taken into the system. The result is pimples and blackheads and other disfigurements of the complexion. Young
