

As the Good News Spreads this Sale Gathers the Force of a Mighty Landslide

The Sale that Startled Omaha

Sensational Selling of Nebraska Clothing Co.'s \$300,000 Stock to be Renewed Tomorrow Morning at

1/3 to 1/2 P-R-I-C-E

Monday morning this most wonderful sale starts anew. Don't let another day pass without sharing in the unparalleled opportunities afforded to get new winter clothing at far less than you ever expected to pay. Regular prices shattered.

Reductions That Are a Revelation. It's the Topic of the Town.

ONE MAN SAID: "I'm going to tell every man in my block to get down here quick. This is the most wonderful sale I ever saw. You're giving bargains so remarkable that I can't understand where you are going to get off at, but I guess you know your business. Thank you for saving me these many dollars on the finest suit of clothes I have ever bought."

Change of Ownership. Thousands of New Customers for the greater Nebraska

We've made up our minds that every garment must be sold. The character of the merchandise offered in this sale is cut of the best, but we are determined that every dollar's worth of goods must be of our own selection. Other concerns would gladly buy these goods at the prices we offer them to you. But we bought this enormous stock at a price that enables us to make thousands of new customers for the greater Nebraska, by giving you the most sensational values ever offered anywhere in the height of the season—get your share.

WILSON WILL CALL CONGRESS

Extraordinary Session Will Convene Not Later Than April Fifteen.

WOULD REDEEM PLEDGES SOON

Thinks Uncertainty as to Tariff Revision Should Not Last Long—Begins His Vacation Trip Today.

NEW YORK, Nov. 16.—Governor Woodrow Wilson announced tonight that immediately after his inauguration as president of the United States he would call an extraordinary session of congress to convene not later than April 15, for the purpose of revising the tariff.

The president-elect will sail for Bermuda at 2 o'clock tomorrow afternoon for a vacation and will return December 15. To set at rest in the meantime speculation as to what he would do with regard to tariff revision he issued the following statement:

"I shall call congress together in extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of the business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."

Beyond this brief announcement the governor said he had nothing further to say. Most of the opinions he had received from public men seemed to be in favor of an extra session, he declared.

Hastens Announcement.
The governor did not intend to express himself about an extra session so soon after his election. Although he has favored the idea of an extra session because

the present arrangement would not bring the new congress into session until thirteen months after its election, he had promised to spend more time in ascertaining public opinion.
The governor was impressed by the argument that with an early arrangement democratic leaders in congress could begin to take counsel at an early date so that much of the preliminary detail could be worked out before congress convened on April 15. The governor was prompted incidentally in making his early announcement by the fact that many members of congress were desirous of arranging for accommodations in Washington for the extra session, if there was to be one.

Immediately upon his election the governor made up his mind to wait until after he returned from his vacation before making known his attitude, but upon finding, as he said, that opinion in favor of a special session was practically unanimous, he felt no hesitation about making public his conclusion.

Though the president-elect means to rest awhile in Bermuda, he really expects to give a good deal of time to quiet thought about the problems that face him. He will sketch his annual message to the New Jersey legislature and will do some extensive reading on data on the tariff, monopolies, banking and currency reforms, and other issues.

Attends Dinner in His Honor.
The governor came to New York tonight to attend the dinner given in his honor by his classmates, Princeton '78.

Mrs. Wilson and her three daughters accompanied him. Oddly enough there was a special car on the same train en route from Philadelphia to New York, carrying sixteen business men, one of whose number was paying a bet of \$5,000 which he wagered a year ago that a democratic president would not be elected this year.

The president-elect will sail on the steamship Bermuda, one of the regular boats plying between New York and Hamilton, Bermuda.

Besides the Wilson family, a stenographer and three servants, there will be ten newspaper correspondents along. The party will arrive in Bermuda, Monday. The president-elect has leased a cottage on a remote part of one of the islands, where he has many a season heretofore spent his vacations.
Immediately upon arrival in Bermuda, he will call upon the governor of the island and request him to consider his presence in Bermuda entirely informal and unofficial.
"I'm going to try to be 'incong,'" said governor Wilson tonight, "so that I may have no functions of any kind while there."

Approval by Democrats.
WASHINGTON, Nov. 16.—General approval was voted in democratic circles tonight over President-elect Wilson's decision to call an extra session of congress to revise the tariff. The announcement was in line with almost universal recommendation of senate and house

Dean Tancock Pleads For Broader Vision By Lodge Members

Atlanta convention of the federation adopted a resolution favoring this method of election, providing it was found upon investigation by officers to be practicable. The report of the executive council, made earlier this week, indicated that fifty-two national and international unions affiliated with the federation had declared against the proposal and twenty-three unions had favored it.

"You lodge men defeat the very purpose of the lodge if you fail to identify yourselves with the other organizations outside your own which work for the betterment of the race and the uplift of mankind," said Dean James A. Tancock of Trinity cathedral, in addressing a meeting of the Ancient Order of United Workmen of Omaha and vicinity last night at the Ancient Order of United Workmen hall.

The dean said he was a member of the order himself and was glad to be one. He said, however, that he had often wanted an opportunity like that afforded him last night to convey this idea to the lodge in regard to taking part in the affairs of other organizations, especially in the work of the church. He said he often met a man and asked him why he did not come out to church last Sunday and was met with the reply:

"I was at lodge last week."
"What in the world has the lodge got to do with the church?" asked the dean. The speaker went on, saying that in spite of the everlasting work of the politicians and reformers people were still asking themselves what it all meant and why the world was not showing more improvement as a result of their efforts.

"They need a vision," said the speaker. "The world is perishing for a vision. Organized charity is not all we need in this world. We need hope and faith and a broader outlook on life."

The orchestra of lodge No. 11, Ancient Order of United Workmen, furnished music after the speaking. The occasion was the regular monthly meeting of the lodge of Ancient Order of United Workmen.

Steamer Wrecked in Falkland Isles

BUENOS AYRES, Nov. 16.—The steamer Oravia has been wrecked in the Falkland islands off the southern coast of Argentina, according to a wireless despatch received today from Admiral Garcia on board the Argentine cruiser San Martin. The admiral reports that all the passengers and the crew were saved.

The Oravia, a steamer of 5,74 tons, belongs to the Pacific Steam Navigation company of Liverpool. It was built in 1897. The Oravia left Liverpool October 27 for Callao.

OMAHA ENGINEER TAKES BRIDE IN PHILADELPHIA

PHILADELPHIA, Nov. 16.—(Special Telegram.)—John Harry Warnick of Omaha secured a marriage license here yesterday to wed Miss Isabel Smith of 225 North Twelfth street, Philadelphia. Mr. Warnick is 25 years of age and his bride is the same age. He was formerly of this city and was connected with the United Gas Improvement company. He is now connected with the Omaha Gas company as engineer. The couple were married this evening by Rev. William Porter Lee of Germantown and left on an extended honeymoon.

Reception for Farley.
KANSAS CITY, Nov. 16.—His eminence Cardinal John Farley, who arrived here last night on his return to New York from the Pacific coast, was given a public reception late today at the home of Bishop Thomas F. Lillis. Afterward he was the guest of honor at a dinner at a downtown hotel. Tonight he left for Chicago.

Socialists to Make Fight Upon Gompers

ROCHESTER, N. Y., Nov. 16.—A fight against the administration of President Gompers of the American Federation of Labor is to be taken up next week by socialist delegates to the convention in this city. The delegates of the radical wing number eighty-four, according to J. Mahon Barnes of Philadelphia, national campaign manager of the socialist party and a delegate to the convention from the Cigarmakers' International union. This group constitutes less than one-fourth of the delegates, but socialists say many will come under the banner when the fight opens.

The first skirmish is expected when the committee on resolutions reports the report of Delegate Duncan of the United Mine Workers providing for the election of officers of the federation by a referendum vote of its 2,000,000 members. The

Young Girl Kidnaped, Beaten and Drugged

CHICAGO, Nov. 16.—Unrequited love is believed by the police to have caused Samuel Aleechi and two unidentified companions to kidnap Christiana Alessi, 15 years old, tonight.

Three hours after the girl had been forced into a taxicab by three men, one of whom she asserted was Aleechi, a former suitor, she was found dazed, beaten, bleeding and suffering from the effects of chloroform beside a railroad track on a lonely road several miles from her home.

"Aleechi threatened to kill me if I did not become his wife," she told the police. "I refused and then the three attacked me. I attempted to scream. Aleechi put a handkerchief over my mouth and I became unconscious. When I recovered consciousness the chauffeur was telling the men he would not carry us any further. I then was thrown out of the machine."

The girl was taken home and a dragnet spread for the three kidnapers. She was unable to describe any of her captors, except Aleechi.

Governor of Idaho to Become Senator

BOISE, Nov. 16.—Governor James H. Hawley of Idaho announced tonight that he would resign his office, probably tomorrow. Lieutenant Governor Sweetser, who is a republican, announced that as governor he would appoint Hawley United States senator to succeed the late Senator Heyburn. Governor Hawley is a democrat.

BODY OF MAN FOUND ON SANDBAR AT BLAIR

BLAIR, Neb., Nov. 16.—(Special Telegram.)—While Everett Houghton was hunting on an island sandbar in the Missouri river, about six miles north of Blair, he found the body of a man buried in the sand except the shoulders and head, which had been exposed to the weather so long that the flesh was almost entirely gone.

The man had on a heavy suit of winter underwear, heavy socks, middieweight shoes, about No. 9 or 10, dark trousers, light work shirt and a pair of police suspenders, with no coat or vest and

Light Metal Shield Stops Rifle Bullets

BERLIN, Nov. 16.—A light metal shield, claimed to be capable of rendering infantry practically invulnerable against rifle bullets, is said to have been invented by a German engineer named Schumann.

Volleys fired at a distance of eighty-five yards by the men of a regiment during experiments on the Dahlem rifle range only slightly dented one of the newly invented plates, equivalent in weight to a plate of nickel steel of six millimeters thickness (just under a quarter of an inch). On the other hand bullets fired by the same men from a similar distance at a plate of nickel steel seven millimeters thick (over a quarter of an inch) smoothly penetrated the metal.

The composition plate, which, according to Die Post has proved far superior to nickel steel, is much less costly than nickel steel, while its weight is less than one-third.

The Prussian war minister is taking a lively interest in the matter, but it is said that the United States, Russia and Austria are represented at the experiments and are making active efforts to secure the invention.

Switchman Instantly Killed

ALLIANCE, Neb., Nov. 16.—(Special Telegram.)—Dan Hetrick, aged 35, a switchman for the Burlington at Seneca, was run down and almost instantly killed at that point tonight. Hetrick was until recently a conductor out of Alliance. He leaves a widow and three children living at Seneca.

Twenty-Three Hurt On U. S. Territory

WASHINGTON, Nov. 16.—Twenty-three persons at least were killed or badly wounded on the American side of the Mexican boundary line last year by bullets fired during the fighting between the rebels and the government forces under Madero. This fact was developed by the special army board, headed by Colonel Francis Kernan, which has just returned to Washington from the inspection trip to El Paso, Tex., and Douglas, Ariz., where most of the trouble occurred.

Culls from the Wires

Lu Cheng Hsiang, former premier and minister of foreign affairs of China, has again been given the portfolio of the latter office.

W. A. McIntyre of Ardmore, Pa., was elected president of the Phi Sigma Kappa fraternity at York at the sixteenth biennial convention in Baltimore.

Representatives of legal aid societies in fifteen cities participated in New York a permanent organization to be known as the National Alliance of Legal Aid Societies.

Four jurors were sequestered out of fifty-two taken in the trial at Fort Worth, Tex., of John Red Sneed, banker, accused of having murdered A. G. Boyce, a ranch owner.

Representative Nicholas W. Longworth of Ohio, who was defeated for re-election by ninety-seven votes, spent \$100 in his campaign. His opponent, Stanley B. Howels, reported that he spent \$87.

William J. Flynn, who resigned as chief of the New York State secret service several months ago to assist the aldermanic committee in New York City, will return to his federal position on November 20.

Members of the subcommittee of the arbitration committee appointed to adjust the dispute between fifty eastern railroads and the Brotherhood of Railway Engineers in Chicago found their tentative decision so unsatisfactory that another week will be taken for drawing up a revised agreement.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, man-drake and stone root, golden seal, Oregon grape root and cherry-bark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how great the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."
"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Mr. JAMES G. KEAY, of 710 E. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

Green Gables
DR. BENJ. F. BAILEY
SANATORIUM
Lincoln, Neb.
This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet entirely distinct and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of noncontagious and nonmental diseases, no others being admitted. The other West Cottage being designed for and devoted to the exclusive treatment of select mental cases, requiring for a time watchful care and special nursing.
