Two Things That Work Marvels On The Complexion

Twin Secrets of Valeska Suratt, One of America's Greatest Actresses, Which Have Made Her Self-Made Beauty Famous, the World Over.

THERE are, after all, but two things it cool. If necessary to beautify any complexion, assuming of course, that the blood is not full of impurities resulting in the appearance of pimples and eruptions. With these two things accomplished you have achieved all that the most beautiful woman in the world can ever the with the appearance of pimples and eruptions. With these two things accomplished you have achieved all that the most beautiful woman in the world can ever hope to obtain. Any woman can now acquire a transcedent, queenly beauty. It is a simple matter if the right means are employed, and I propose to tell you right here what these two things are. There are two articles, then, which you must have on your dressing table—and with a faithful use of these two your great wish will be surely accomplished. I have done it and you can do it, too. There is nothing else necessary for beautifying your complexion.

I can sum up these two things by saying that you need first a formula which will eliminate wrinkles and make the skin smooth and youthful in its vigor. The second is a formula which will eliminate every blemish, red spot, redness, freckle, and all muddy appearance, making the skin as spotless and pure as the petals of a rose. What more can any woman ask?

For the first the following formula will be used with startling results: he used with startling results:

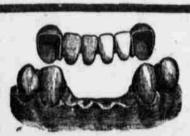

In a large bowl, pour half a pint of hot, but not boiling, water. Place this bowl in a pan of water on a slow fire. In a few minutes add two ounces of eptol and continue stirring until all is dissolved. At first it will look like Jelly, then it will start to cream. When it does this, remove from the fire, add slowly two tablespoonfuls of glycerine, and stir constantly until cold. Keep in air-tight jar. You should be able to get eptol at any good drug store and it should not cost you more than fifty cents. Rub in well until the cream disappears. This cream will not grow hair. eptol and continue stirring until all is dissolved. At first it will look like jelly, then it will start to cream. When it does this, remove from the fire, add slowly two tablespoonfuls of glycerine, and stir constantly until cold. Keep in air-tight jar. You should be able to get eptol at any good drug store and it should not cost you more than fifty cents. Bub in well until the cream disappears. This cream will not grow hair.

For the second purpose, beautifying the skin, the following is a wonderful success:

In a half pint of hot water add two tablespoonfuls of glycerine. Keep stirring, while adding one ounce of zintone, until it is all dissolved. Then let

Valeska Suratt satiny. Any gist will sell you an ounce of zintone for not more than fifty cents. Soap may be used for other parts of the body, but keep it off the face and hands as mpuch as possible

CLARISSA—Yes, even mothers who have suffered loss of bust development may regain it fully and completely. Dissolve two ounces of ruetone and a half a cup of sugar in half a pint of cold water. Mix thoroughly, and after meals and at bed time take two teaspoonfuls at a time. This makes four doses a day. It is perfectly safe and also acts as a splendid tonic. Its effect on the development of the bust is really remarkable. The development is natural and healthy. Mechanical contrivances such as vacuum cups should not be used under any circumstances. Also avoid pads if possible. You will be able to get the ruetone from your druggist for one dollar. Just keep it up and you will be grateful indeed that you followed my advice.
