DR. TODD'S

Porcelain Dental Work
This advanced idea and high
class work is bringing people hun-
dreds of miles. Teeth that are
natural in comfort and appearance
are more valuable than diamonds
and precious jewels.
If you have two or more roots
or teeth in the front of your
mouth Dr. Todd can replace the
others without the use of rubber
plates. I have three patents cov-
ering porcelain, crown and bridge-
work. People of culture and re-
finement are investigating, and
are discarding the vulgar cluster
of gold for the teeth.
