RUSSIA AFRAID OF ARGENTINE

Country Offerings of Corn Continue Light, but with Good Weather There Will No Doubt Be a Freer Movement.

From the present outlook nothing short of war will help wheat buils out of their present holdings. In the fare of the present situation in the Baikana Kussia is offering its wheat in increased quantities and growers there are willing to meet the views of buyers in order to piace at least a part of the grain that is now available and for which the sale is quite slow. Russian holders fear that Argentina will come to the front with its usual rush of receipts of new wheat and that the southern hemisphere growers will force their grain upon the markets of the world and that in order to dispose of a portion of their surplus Russia will be orced to cut the price at which Argentina has a dispassed a goodly portion of its stain. In our own northwest the receipts are certain to continue big until they are partially cut off by storny weather, and the stocks there are likely to grow larger and larger. It may be said that Canada is turning every stone in order to get rid of a part of the wheat now held in that country. The situation at Buffalo could hardly be more discouraging to the holders than at the present. The harbor there is as tight as a drum because of so many boatloads of wheat held there, and there is no help for this condition until next spring, when the railroads are given the grain to haul to the seaboard for export. The country offerings of corn continue light. The weather is perfect and a continuation of the same undoubtedly will OMAHA, Nov. 59, 1912.

The country offerings of corn continue light. The weather is perfect and a continuation of the same undoubtedly will will spring about a freer movement. Traders bring about a freer movement. Traders they see nothing bullish, however, and continue to favor sales of May corn on all hard spots. The corn market loss, \$12.00g(18.50; family, \$22.00g(24.00; short clears, bring about a favor sales of May corn on all hard spots. The corn market loss, \$13.00g(18.50; pickled bellies, 10 to 14 loss, \$1 bring about a freer movement. Traders say they see nothing bullish, however, and continue to favor sales of May corn on all hard spots. The corn market opened up he higher in Argentina this morning. Cash cern he higher to he

Corn railied owing to active buying credited to leaders on the bull side. At first the market was under the influence of fine weather and of the depression in wheat. May fluctuated between 47% and wheat. May fluctuated between 47% and 480481 with the close steady at 48c, the were easy. No. 2 yellow was quoted at

Liquidating sales by December holders weakened oats all around. May which sold from \$25,982% to \$25c, closed at \$25c, a drop of 526c. Stock yard houses were good sellers of ovisions. January pork showed the ost effect, 75c decline.

Twenty Per Cent for Call Money Transactions of Associated Banks Highest Rate of Year. STOCK MARKET IS LISTLESS

Harriman Lines and Other Lines week last year. Following is a list of Report Increases of Round Amounts in Their Earn-

ings for October.

NEW YORK, Nov. 29.—The bignest rate for call money in several years was touched today. 20 per cent being quoted Just before the close. Quotations fluctuated in an erratic way through the day and the bulk of the business was transacted at figures considerably below the top. The obening was at 8 per cent and renewals were made at 7. After mounting to 10 per cent the rate foll back to 8. Late in the day the quotations rose by leages until 20 per cent was touched in the last few minutes. It was the bishest rate since January of 1968.

A flurry in money was not altogether unexpected, although the comparative ease at the opening and the dip to 8 per cent after 10 per cent was touched had lessened fears of a squeeze. There were indications, however, that the recent scarcity of funds might make itself foil in some such way. Loans made today carried over into the new month and there were preparations to be made for over \$100,000,000 December interest and dividend disbursements. Another unsettling factor was the drain on this center by Canada and the interior, which threatens to obliterate the surplus reserve shown in last week's bank statement. Forecasts based on known movement of money indicate a cash loss of from \$4,500,000 to twice that amount. The amount of gold to Canada was increased by an annual snipment of \$50,000, bringing the total to \$1,750,000.

The uncertain status of money was an effective bar to speculative activity in snocks and the market was listless. The Harriman stocks and Canadian Pacific were higher and there were wide movements in a few specialties, with General Electric. Westinghouse and Rubber particularly strong Otherwise fluctuations were narrow. The flurry in money was without effect on stocks.

The Harriman lines, Canadian Pacific and Northern Pacific were the largest in their history.

The bond market was generally firm, although there was a slight depression in

HOGS-Trade in hogs this morning acted very much like Wednesday's market, the early business being somewhat slow and uncertain and the close having ket, the early business being somewhat slow and uncertain and the close having a quick finish with a substantial advance in prices. Today's market opened with the jobbers making some purchases fully a dime higher, most of their deals being made around \$7.50\$/7.53. There were not as many hogs on speculative account as might have been as the packers came rushing along and offered to pay prices equally as good. A few hogs sold to the packers at a dime advance. Just about at this time the freaky nature of the local trade showed liself and prices jumped up a position at least 19215c above Wednesday's values. After quite a few of the offerings changed hands on that basis, hogs suddenly moved up another notch, trade at and near the close being fully 150,20c higher and in spote as much as a quarter above the way some hogs sold on Wednesday's market. In a general way most of the hogs might be described as moving at figures around \$1.50 \text{ (01.70}, with a load selling as high as \$7.80, top for the day and fully 20c higher than the highest mark reached on the last market day. After a start was made in the morning everything was cleaned up in very short order.

Receipts were comparatively light for the day as only about 100 cars or 7.000 head were received, as against 9.63 head a week ago. \$8.80 head two weeks ago and \$5.71 head on the same day a year ago. The general quality of the offerings was considered as being very fair for this time of the year and everything was disposed of early in the forenoon.

200 60 227 246 129 245 246 80 1.3 SHEET - Everything was pretty slive in the sheep barn, some backer buyers having men camped best offerings ever since 7 o'clock best offerings ever since; a clock in the marking interests needing the stuff to fill their orders, consequently everything at all suitable for killing began to move early and was cleared during the first tew hours in the forenoon at prices generally anxwhere from 10c to 15c higher than Wednesday's market. Incidentally it might be noted that the receipts, expecially of fat offerings, have been very light during the last week, and as a mat-

it might be noted that the receipts. enpecially of fat offerings, have been very
light during the last week, and as a mitter of fact the supply of good killers has
gotten below the apparently increasing
demand. While the receipts were very
liberal this morning for a Friday there
was, as previously intimated, a good outlet for almost everything in the killing
line. A load of fed western lambs reached
\$7.60, and some shorn lambs soid as high
as \$2. Other features of the trade were
a car of fed western yearlings bringing
as much as \$6. fed ewes \$4.40 and some
fed western wethers that sold up to \$4.00.
The supply of feeders was very meager,
a great part of the receipts consisted cotirely of killers. While not a great many
feeder lambs or sheep were offered values showed no material change from
Wednesday's trade. Peactically no buyers
were in from the country, and commission men apparently had very few orders
to fill, at least at prevailing prices. The
feeder trade was tairly active, however,
and stuff sold may be regarded as steady
to strong. A clearance was made in good
season.

The total sheep receipts footed up

Total 3.041 6.977 7.578

CATTLED-Cattie recespts were quite liberal for a Friday, 199 cars being reported in. Of this number a considerable proportion consisted of westerns from Colorado. The market as a whole was rather slow and dull, buyers apparently being in no hurry to fill orders. Thus it happened that the trade dragged along during the greater part of the forenoon. Still there was a pretty fair demaind for this late in the week, and the cattle kept seeling along a few at a time, with prices showing comparatively little change in either direction.

As might be expected cows and heifers did not sell quite as high as some of the extreme wild prices paid Wednenday, but taking the market as a whole the average would not be very far from steady. What has been said would apply equality well to killers of all kinds, beef steers and cow stuff, and also to feeding and stock cattle. It was in fact a typical Friday's market, with the trade as a whole devold of new or interesting features of any kind.

DUN'S REVIEW OF TRADE

November in Many Respects Best Month in Nation's History.

HOLIDAY PROSPECTS SPLENDID

Current Indications Point to Maximum Records of Production of Iron and Steel for Nineteen-Thirteen.

NEW YORK, Nov. 26.-H. G. Don & Co.'s weekly review of trade tomorrow WILL BAY

November has been in many respects the best month this country has ever experienced and every prospect is pleas-ing for a holiday sensor of extraordi-

the best month this country has ever experienced and every prospect is pleasing for a holiday season of extraordinary activity.

The demand for iron and steel products rises higher than the productive and transportation resources of trade, in all important branches an active business is reported and new orders received are in great volume.

Current indications point to maximum records of production in 1912. It is believed that by the end of the present year exports will figure close to 3,000,000 tons. All descriptions of finished products are firm and specifications come in freely. There is still a searcity of crude steel and premiums are paid for prompt supplies with \$25.0 and \$27. Pittsburgh, quoted for open bearth billets for the first quarter. P. Iron is in a favorable position, following the adjustment of oraprices for 1912 and sales of basic fron aggregate a large tomage.

The situation in the dry goods market is emigently satisfactory. Pricebage well maintained and in some lines additional edvances established. Demand for cotton goods steadily broadens and with many mills well sold up and primary stocks much reduced lobbers are being forced to place business further absaud to insure the deliveries wanted. Whis sheetings and denima have been advanced and there is further raprovement in fine and foncy cetton for spring, while brown sheetings and prints are very firm and selling steadily. Mills are complaining of the scarcity of labor and though orders are plentiful, considerable machinery is idle. In woolens and worsteds business continues in large volume.

There are advances in the volume of shoe business. Leather is still strons, but hides are easier.

BRADSTREET'S TRADE REVIEW

BRADSTREET'S TRADE REVIEW Trade Continues to Move at Swift

to strong. A clearance was made in good season.

The total sheep receipts footed up around 36 cars, or \$.000 head, as against 2.534 head last Friday. \$.346 head two weeks ago and 4.461 head on the corresponding day a year age. Fed weniern stock comprised the big builk of the holdings, there being only about a dozen louds of range sheep and lambs offered. Very little native stuff was on sale. The whole general quality of the fat end of the receipts was considered very fair and much better than recently.

Quotations on sheep and lambs: Good to choice lambs. \$7.567.56; fair to good iambs. \$7.567.56; fair to good iam

vious conservative buying is reflected in demands for prompt supplies. Re-orders from surplus crop moving sections are featured in the receipts.

Business failures in the United Stakes for the week ending November 28, were 34 against 38 lus weak; 210 in the like week of 1911, 217 in 1910, 230 in 1909; and 224 in 1908.

Business failures in Canada for the week number eighteen as against twenty-seven last week and twenty-six in the

seven last week and twenty-six in the like wek hast yar.

Wheat including flour, exorts from tos United States and Canada for the week ending November 28, aggregate 5,685,617 bushels, against 6,14,577 last week and 4,855,316 this week last year. For the twenty-two weeks ending November 28, exports are 57,240,781 bushels against 76,733,-441 in the corresponding period last year. seven last week and twenty-six in the 41 in the corresponding period last year, corn exports of rthe week are 1.247 bushcis against 59,404 last week and 144,556 in 1911. For the twenty-two weeks ending November 28, corn exports are 1,524,671 bushels as against 11,137,357 last year.
