The export business via the gulf was of moderate proportions, and James Carruthers of Montreal reported twenty boatloads of Manitoba wheat for shipment to Spain to be loaded out during January. The wheat market is in a position where gentline would cause prices to be forced to a much higher level. The "bull combination" has been waiting and watching for months, and at the same time they have been suffering severe losses, for something to turn up that will help them out of the rut in which many believe they are now hidden. Cash wheat was a godsend to holders of corn yesterday. With increased offerings by the country, with the shipping demand of small proportions, and with export bids out of line, sharp losses were among the probabilities. Good to choice lambs, averaging from 70 to 85 pounds, were in best demand all the week, and as a rule were ready selliers. Anything heavier than that moved more or less slowly on most days and trade was somewhat uncertain, remitting in an oneven range of prices. Closing prices for the week on the best lamb offerings are quotably a quarter higher than a week ago. As the packer buyers discriminated against the less desirable grades, prices on them show not so much advance. What was true in the lamb trade was also in a measure true in fat

Further Violent Collapses in Prices Shows Readjustment.

Investment Having on Declines by individuals and Financial Institotions Show Benefit of Corrective Process.

NEW YORK, Dec. 15 .- The further vioent collapse in stocks just week showed the unsuspected volume of speculative ommittments in the stock market. Long continued duliness in trading had given hint of the extent of the involvment. It was current supposition that there was forced liquidation of important individual accounts which were of such long stand ing as to have become stale. Recent unfavorable factors were recognized as causes in the collapse, but the movement was interpreted also as a readjustment from an unwarranted speculative basis of prices, which had paratyzed any healthy absorptive demands.

Reports of investment buying on the declines, both by individuals and by

taking there would force a # per cent. Bank of England rate put an end to engagements. This had a bearing on the necessity for stock murket liquidation here. Interior bankers who were sounded by the secretary of the treasury as to the need of relief by deposit of treasury funds gave negative replies. The request of the interior demand for funds is now passed and money is expected to return to reserve centers in liberal volume. New York bankers, in announcing their participation in the purchase of \$25,000,000

had received assurances that there was no reason for apprehending warlike developments. Notwithstanding this authoritative intimation and hopeful expressions attending the assembling of the peace envoys

in London, anxiety continued over European relations. The fall in Union Pacific shares was cela revidence of the alarm felt by share-

advance. What was true in the lamb trade was also in a measure true in fat sheep, the discrimination being more apparent against heavy ewes than wethers and yearlings. This may have been he cause killing ewes furmed the bulk of the aged sheep offerings most of the week there being comparatively few yearlings and wethers coming. During the week the best ewes reached as high was controlled in a few minutes.
