"Old Sol" Serves A Memory Jogger!

Every Sun Ray from now on serves as a reminder that your last summer's clothes are NOT in condition to wear THIS summer, UNLESS you have some dry cleaner exercise his good offices over them.

Send 'em to Dreshers! Those perfectly good, yet badly soiled and unpressed light colored and light weight suits and dresses; those dainty waists that were soiled last Fall; those beamed straw hats that are still good beneath the surface; those white duck coats, trousers and caps; those summer flannels; those outing costumes; everything, anything that you wore last summer.

Just phone Tyler 345 and say: "Dresher, I've got a bundle of last summer's clothes that need cleaning and pressing; please send your wagon."

The Proper Graduation Gift Is a WATCH

Get a watch for the young man or girl that will last a good long while and serve as a kindly memory of childhood days—the days that, like time itself, never come back.

A Watch for the Young Man
Here is a most appropriate time piece with a 15-Jewel movement, either Elgin, Waltham, or Hampden, fitted in a 20-year, 14k gold filled Hunting case, with either plain or engraved art designs. On account of our immense buying power we can offer this watch at **\$14.85**

A Watch for the Young Lady
A beautiful 400 size Standard American watch with fine reliable Hampden movement. It has a 20-year, 14-k gold filled case, hand engraved or plain. **\$11.60**
Our special price is **\$11.60**
Remember our guarantee, whereby we keep watch in repair free of charge during 5 years.

NOTICE TO CONTESTANTS

Next Tuesday we will publish the standing of all contestants who have turned in their nomination coupons or cash checks for votes in this contest. Get your receipts in by Saturday evening, so that your standing will appear in the list, thus letting your friends know that you are competing for a trip to the Panama exposition.

How to Win a Free Trip to the Panama Exposition

Rules of Contest.
1.—The Bee offers and will award three round-trip tickets and expenses to the Panama Exposition, the total cost of each trip to be \$200, as prizes to the three contestants having the greatest number of points at the close of the contest.
2.—This contest open to everybody except employees of advertisers on this page and of The Bee.
3.—The contest page will be published one day each week and will run for a period of one year.
4.—Points will be figured on the basis of one point for each cent shown on cash checks or receipts for purchases made from advertisers on this page.
5.—Cash checks must be deposited at or mailed to "Panama Contest Editor" The Bee not later than thirty days from date of payment of same and receipts will be issued for them.
Contest to close November 7, 1914. All cash tickets and receipts must be turned into The Bee office not later than 9 p. m. on closing day of contest, or if mailed, must be postmarked not later than that hour.

FIRST WORLD POLO MATCH WILL BE AT PANAMA FAIR

The management of the Panama-Pacific International exposition has announced that the first world polo tournament will be held in San Francisco in 1915. The event, which will attract the best polo teams of all countries, will extend over a period of six weeks from March 15 to May 1. It is expected that 20 of the best ponies in the world will be shipped to the exposition grounds for this fascinating tournament. The tournament will be under the auspices of the American Polo association, which has collaborated with President C. C. Moore in appointing committees of the foremost players of the United States.

Hygienic Expert to Install Exhibits at 'Frisco Exposition

Chief Alvin F. Pope of the department of social economy announces that the Panama-Pacific International exposition has secured the services of the greatest welfare and hygienic displays in the world. This is Dr. Philip Bauer of Stuttgart, Germany, whose work in this field caused him to be decorated by King Leopold of Belgium and by Emperor William of Germany.
At the Dresden exposition in 1911, Dr. Bauer installed a series of wonderful exhibits called "Der Mensch" (the Human Being) which is still considered the world's masterpiece. It is intended that this entire exhibit be brought to San Francisco in 1915.
With Dr. Bauer there came to America a corps of wax modelers and glass blowers especially trained by him for this delicate scientific work. On their arrival in San Francisco the experts will at once begin the work of preparing the animated models for the exhibit to be made by the International Health commission, which is a branch of the Rockefeller foundation, illustrating especially the ravages of the hookworm in the tropic and semi-tropic countries of America.
Among the models shown in the hygienic exhibit will be a human heart so large that visitors may walk through the ventricles and auricles and study the effects on the great life engine of impurities in the blood and of fresh air. Another will be a human eye as large as a bay window, showing the descriptive effects of bad factory lighting. Among models constructed in the Cuba exhibit will be one of a yellow fever mosquito about the size of an ostrich, showing its two saws, its dagger and its suction pump and poison injector at work on human flesh.

Cuban Exhibits at 'Frisco to Be Large

The Cuban pavilion at the Panama-Pacific International exposition will be two stories in height, with a tower at one corner. On three sides will stretch the wide verandas to the Cuban plantation haciendas, and in the center of the building will be a large glass-covered patio with the gardens of Cuban plants, trees and flowers. The building will be thirty-four meters long by thirty-three meters wide.
In addition to the exhibits in the Cuban pavilion, Cuba will exhibit extensively in several of the main exposition palaces. Especially noteworthy will be the sanitary exhibit in the Palace of Social Economy and Education, which will display the methods of fighting tropical diseases which made possible American construction of the Panama canal. It was in Cuba that the first battles with yellow fever and the other scourges of the tropics were first successfully waged. The achievements there were utilized in making sanitary the canal zone.

WHEN YOU send your family washing "out" where does it go?

- Does it find the wholesome, sanitary surroundings your intimate garments should have?
- Is it dumped in with the clothes from families under conditions that may easily carry disease back to your home?
- Is the work done in a clean, well ventilated place, by modern processes that both cleanse and save your garments and linens?
- You can answer each one of these questions as it should be answered, if you send all of your laundry to us.
- It will pay you to investigate the way in which we care for every part of a family washing.

What You Save

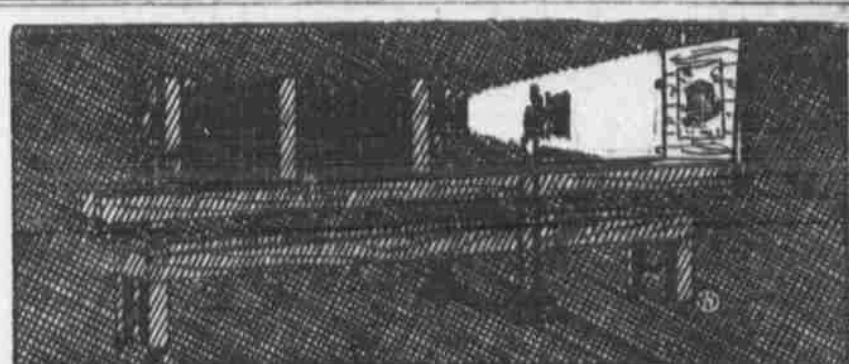

At the Four Rexall Drug Stores

You "really and truly save time and money" by trading at the Rexall Stores—for it is a well known fact that a drug item that cannot be found at a Rexall Store cannot be found in the West. And this is especially true of the thousands of Toilet Articles now in the market—and also of Standard Chemicals and Pharmaceuticals.

Cuts that print

There is often all the difference in the world between a cut that shows up well in the engraver's proof and one that shows up well when it is printed. Cuts made for a newspaper have to be made so that they will give good results under the most adverse conditions. For that reason, a newspaper engraving plant produces cuts that the ordinary printer can use and get good results.

If you have some engraving to be done, send us the work and compare both the results and the prices with that of ordinary engraving plants.
