Will Move Medical Books to Make More Room at Library Removal of the collection of medical volumes belonging to the Douglas County Medical society and now in the public library has been ordered by the board of the latter institution. The library authorities are seriously handicapped by lack of space for general library purposes, and have been forced to seek a discontinuance of the medical library feature, in order to have the room for other uses of a more general nature. Disposition of the collection of medical books has not been arranged by the society of doctors, of which Dr. F. S. Owen is president. A special meeting may be called soon to handle the matter. It has been suggested that the county medical library be placed with the state library in the new medical college building of the state university at Forty-second street and Dewey avenue. However, this plan is opposed by some physicians, who favor a downtown location for the medical reference works. The Nebraska medical library was sent to the college here by vote of the state medical society at Lincoln last week.

Magnay Considers Investigation for an Ice Trust Here Investigation by County Attorney Magnay of an alleged ice trust in Omaha may be the outcome of Margolin Brothers' damage suit against the Omaha Ice and Cold Storage company. The attorney said that he would consult District Judge Day with regard to evidence brought out in the trial of the civilian suit. The judge, although he said that in his opinion the evidence was sufficient to show that the Omaha Ice and Cold Storage company induced Gunderson Brothers to break their contract to sell ice to Margolin Brothers, took the case from the jury on the ground that a conspiracy between it and Gunderson Brothers had not been proved. According to the judge, under the evidence, the damage suit should have been brought against the Omaha Ice and Cold Storage company for causing the breach of contract. Attorney's for the plaintiff indicated that they would appeal to the supreme court.

Burglars Take Away Cigars and Money Burglars forcibly entered the rear door of the Trimble Grocery company's store, Twenty-fourth and Fort streets, Tuesday night, and secured a box of cigars and \$45 in currency. NOT A BAD SPOT IN THE STATE

Freight Agent Johnson Declares Nebraska is a Perfect Garden. CUTTING ALFALFA IN PLACES Burlington Official Travels Over Route Slowly and Finds First Crop of Forage is Now Being Harvested.

"Nebraska is a perfect garden and without a bad spot to be seen. The prospects for a bumper crop were never as good at this season of the year as now." The foregoing is the opinion expressed by Assistant General Freight Agent Johnson of the Burlington after returning from a trip that has taken him well over the company lines in this state. That he might get a good idea of crop conditions, Mr. Johnson did his traveling in the day time and returns very enthusiastic and optimistic over the outlook. He adds that it is too early to make a prediction on the corn crop, as but about 75 per cent of it is planted. The ground, however, he asserts, is in perfect condition. Speaking of other crops, Mr. Johnson says: "I went pretty well over the winter wheat belt of Nebraska and found the condition perfect. There are no bad spots and nothing to indicate that insects of any kind are making their appearance. I have never seen such a stand of wheat and have never seen it have a better color. The grain is beginning to joint and it is so thick on the ground that it would stand a long dry spell. However, there does not seem to be any danger of drought. The ground was moist, except on the surface and now the rain of last night has fixed that. "Probably 75 per cent of the corn is planted and it will about all be in the ground by the last of this week. I saw a few fields where the cereal is up and many others where it is just coming through the ground. "I never saw alfalfa look so well. In some instances the first cutting is going on and the yield is very heavy. The cool, wet weather has been just the thing for the plant and it has made a wonderful growth. "While out I noted the condition of fruit and found that, take the state as a whole, the greatest crop in its history is promised. In some isolated localities the frost of a couple of weeks ago damaged the cherry crop, but it is not going to be anything like a failure. It looks as if there would be a great yield of apples and an abundance of all kinds of berries. Backlen's Arniea Salve cured Ben Pool of Threst, Ala., after being dragged over a gravel roadbed. Buttermilk Beautifier Costs But a Half Cent

Beetles being so effective in cleaning, whitening and softening the skin buttermilk offers the most economical complexion treatment. We do not refer so much to the liquid; in buying that you pay mostly for water. In the concentrated form of precolated buttermilk emulsion, however, this ideal beautifier is quite inexpensive. This is worth knowing, for while many would not mind paying a good price for such splendid results, the saving is a consideration just the same. Each time the precolated buttermilk emulsion is rubbed into the face the cost is about a half cent. A small jar of it goes as far as 20 pints of fresh buttermilk. The longer the emulsion is left on—whether on face, neck, arms or hands—the more thorough is its beautifying action. It should be washed off with soapless water. Precolated buttermilk emulsion is obtainable at all leading druggists, including Sherman & McConnell Drug Co., 14th and Dodge Sts.; Owl Drug Co., 18th and Harney Sts.; Hawkeye Pharmacy, 24th and Farnam Sts.; Loyal Pharmacy, 20-9 North 18th St.

Anita CORSETS

We are Showing "ANITA" Corsets For the First Time in Omaha

WE PLACE them in stock because of their superior style and their proved wearing qualities—because they measure up to the high standard of quality we have set for this store. The boning of a corset is everything that makes it—it is the foundation—if right the corset will retain its style and shape indefinitely. Anita Corsets are boned with "Excelon"—a positively indestructible boning. Just remember this—it is mighty important to you. Anita Corsets are hand made, they have the style of the custom made corset with the added Parisian style. The Anita designers make frequent trips to the fashion centers of Europe and the Anita styles therefore are always the latest and best. In all shapes for every type figure. Rheumatism

Remarkable Home Cure Given by One Who Had It—See Wants Every Sufferer To Benefit. Send No Money—Just Your Address. Years of awful suffering and misery have taught this man, Mark H. Jackson of Syracuse, New York, how terrible a enemy to human happiness rheumatism is, and how it gives him sympathy with all unfortunate who are within its grasp. He writes every rheumatic victim to know how he was cured. Read what he says: "I had Sharp Pains Like Lightning Flashes Shooting Through My Joints." In the spring of 1909 I was attacked by acute and inflammatory rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but each relief as I received was only temporary. Finally, I found a remedy that cured me completely, and I have never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. "I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent, simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-sought-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Don't let that fair! Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. MARK H. JACKSON, "No. 875 Guiney Bldg., Syracuse, N. Y."
