Change is Wonderful.

After the depression, the stagnation, the despair over some blood disorder, it is fine to wake up to what S. S. S. has accomplished for you after a few days use. It

puts the nerves and blood in harmony; it arouses the cellular activity of the liver, kidneys, lungs, and other excretory organs to remove from the blood the body wastes

blood sickness, but now the pure, vegetable S. S. S. is their safeguard.

You can get S. S. S. in any drug store, but insist upon having it. The great Swift Laboratory in Atlanta, Ga, prepares this famous blood purifier, and you should take

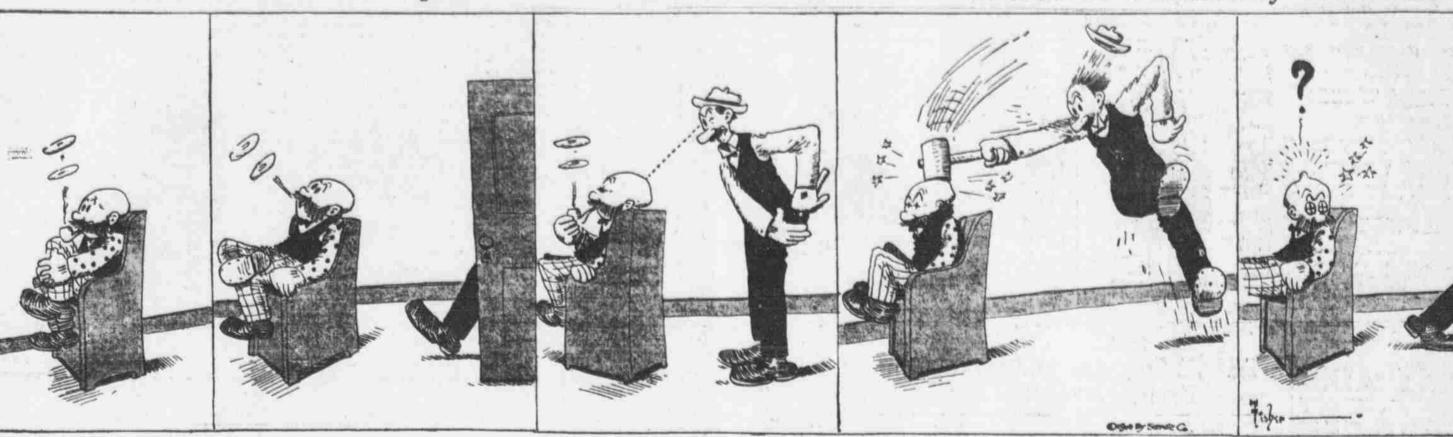

no chance by permitting anyone to recom-mend a substitute. And if your blood con-

dition is such that you would like to con

suit a specialist without charge, address Medical Dept., The Swift Specific Co., 537 Swift Bldg., Atlanta, Ga.

NEW YORK, May 22.—Cleveland ended its long losing streak today by nosing out New York in a close game, 3 to 2. Jackson batted in all the Cleveland runs. A blunder by Cook, who made three of the locals' seven hits ended a rally in the eighth, when the New Yorks did all their scoring. With one run in and the bases full, Peckinpaugh beat out an infield hit scoring Hartsell, but Cook overran third and was retired for the third out. Hagerman pitched great ball and struck out ten men. GRAIN AND PRODUCE MARKET

Speculators in Wheat Who Discard Long Side Up Against It.

SPRING PLANT IS IN FINE SHAPE Seeding is Finished Both in Northern United States and Canada and the Young Growth in

Faring Excellently.

OMAHA, Neb., May 22, 1914.

The wheat speculator who discarded the long side of that market yesterday, and who not only disposed of his holdings because there was a profit in it and proceeded to put out a short line will be obliged to pay the penalty.

There was a partial change in sentiment in the Chicago wheat crowd yesterday, but those who have adhered to the bull side for some time past refused to sell out, and they continued to talk bullish on the conditions surrounding this grain. It was the city speculator who sold grain freely yesterday, while the man in the country added to his holdings in order to lower his average.

There were many new crop reports on Hessian fly invasion, and one of the more important ones told of the little pests in the wheat fields of the Kaw all the way from Kansas City, Mo., to Topeka, Kan. Wheat was bought on this.

One of the largest American implement houses and a concern covering not only

this country, but many others, reports the prospects for a bumper crop of wheat this year are not endangered; that the insect iosses on the whole are not alarming and that the losses are confined to a few counties in the states of Missouri and Illinois.

folk today's game against Hastings by a score of 4 to 1. Mason was batted mercilessly, and, although his support was good at times, the Drummers had the Reds outclassed in all departments of the game. When Norfolk tallied in the second and third innings, Manager Bennett darted into the diamond followed by half of his team. The crabbing continued for three innings and Umpire Dixon ordered Bennett off the grounds for interfering.

There were unfavorable crop reports on the growing oats in many sections, but the rains reported will doubtless re-lieve at least a part of the states from lieve at least a part of the states from where these reports came.

The provision market was a dull and uninteresting affair and price changes were narrow. The offerings exceeded the buying power, with longs in the lead as sellers. They were influenced by the weakness in hogs and the declines in corn and other grain markets. Cash trade in saited meats were reported slow. Cash wheat was unchanged.

CHICAGO GRAIN AND PROVISIONS

CHICAGO. May 22—Although absence of predicted general rain today put a little firmness into wheat prices at the outset. a decline took place later on. Optimistic reports as to crop conditions in Kanaas had much to do with weakening the market Comparative steadiness of cables, however, acted as a check on ing the market Comparative steadiness of cables, however, acted as a check on the bears. Quotations started \(\)c off to a like amount up but gradually sagged below last night's level all around. Afterward, there was a transient rally, Missouri and Illinois advices seeming to grow worse in regard to the damage by hessian fly. The close, nevertheless, was weak, \(\)After to \(\)After net lower. Persistence of unfavorable weather in Argentina had a bullish influence on corn. Trade, though, lacked volume. After opening \(\)ac down to \(\)ac advance, the market scored a moderate gain for the whole list. the whole list.
Subsequently pronounced strength developed owing to a dry weather flurry and to an expected decrease in the Chicago stock. The close was unsettled at a net advance of 1601c.
Unabated dry weather east of the Mississippi tended to push oats higher. Houses with country connections all took to the buying side.

Provisions turned easy with hogs. There was no active demand from any quarter.

last week of March.

With a generous run in sight and advices from other points rather discouraging, the market opened out dull. Shippers and speculators bought a few scattering loads early at prices that were all of a nickel lower, but as a general thing the demand from this quarter was very slack, and practically the whole supply was left at the disposal of the packers. Early killer bids were close to a dime lower than yesterday's average market. That is, first offers were made around \$3.15. a flat dime lower than the good time Thursday, and fully 5c below the close. Sellers objected to such a sharp break, but huyers refused to better their bids to any great extent, and while salesmen held on until after 10 o'clock, the supply finally started to move alow's at figures that were right at 5610c look than yesterday's general market. Trais remained slow throughout and at times came to a standatill, but buyers had things their way and in the end practically everything soid on the basis named.

The most popular price was \$3.174. Bulk

CATTLE—There was the usual compar-ativety small Friday run of cattle, only 25 loads, about 500 head, being reported in the yards, but the big bulk of these were cornfeds of very destrable quality Yearlings predominated and as has been the case practically all week they met with considerable favor from all classes of buyers and trade was decidedly active at theyenly stronger figures. A choice

There was very little doing in the way of trading in stock cattle and feeding steers, but the accumulation in vard traders' hands has been pretty well cleared up and tone to the trade is healthy at the close. Prices are about 25c off for the week, but an improved country demand has put a little more life into the trade the last two or three days, prospects being favorable for a good clearance for the week.

named.

The most popular price was \$8.17% Bulk of the sales can be quoted at \$8.1598.20, the latter price being the highest paid. At the time of going to press yesterday there were still some fifteen leads unsold. Later in the day about half of these were cleaned up at \$8.20, although about eight leads were carried over.

and some of the mutton offerings. On account of the limited receipts this morning it did not take long for sellers to dispose of what they had and the clear ance was comparatively early. A feature of the market was the first arrival of California spring lambs for the season, which consisted of three cars averaging other transactions were two cars of clipped lambs, the same as some that brought is on Wednesday, that moved at \$7.90. As usual for some time back the mutton supply was scant. A sale of clipped ewes was made at \$5.40.

It has been largely a clipped lamb market this week for both the wooled grader of lambs and anything in the line of aged sheep have been scarce. While the supplies of clipped lambs have been very moderate prices have fallen off from 13 375cc since last week's clone, the declimate being more noticeable on the common to medium grades. Since mid-week the summon to medium lambs have gradually lost alove and are none too active at current quotations.
