

T. R. HIS OLD SELF AGAIN

To All Appearances He Is as Vigorous as When He Went Away.

APPARENTLY FULLY RECOVERED

Political Outlook in New York and Ohio Considered at War Council with Garfield and Others.

OYSTER BAY, N. Y., May 24.—To all appearances today Theodore Roosevelt had recovered entirely from the effects of his trip into the South American jungles. Five days at Sagamore Hill have brought back his full measure of strength and chased away the tinea which furrowed his face when he returned.

As he sat on the broad veranda of his home on the crown of the hill today, looking over the tops of the trees below the bay, he appeared to be as fit physically as before he went away. There are a few more gray hairs in his mustache and his weight has been reduced considerably; otherwise there were no signs of change in his appearance from the day he set forth for the southern continent.

Holds War Council. When Colonel Roosevelt returned to this country some concern was felt as to his condition, and a period of rest was prescribed. He protested that he wanted to obey instructions, but the fact was that he seldom had been as busy as at the present time. He found time today to take a long walk across the country with Mrs. Roosevelt. The remainder of the day was given to a long council of war with a few of his assistants and to work with his stenographer.

The political outlook in New York and Ohio was taken up today. Plans for a vigorous campaign in New York state were outlined. Much of Colonel Roosevelt's time and energies are to be directed to the fight in this state, which is expected to give one of the severest tests of the strength of the new party. Theodore Douglas Robinson, chairman of the state committee, and Regis H. Post, former governor of Porto Rico, who was one of the pioneers in this state in the formation of the party, spent several hours at Sagamore Hill. With them were James R. Garfield of Cleveland, secretary of the interior under President Roosevelt, and Arthur L. Garford of Elvira, both active in party affairs in Ohio.

Not to Run for Governor. So far as could be learned the proposal that Colonel Roosevelt accept the progressive nomination for governor of New York was not brought up. Although the former president has been urged by some of his assistants to consider the proposal, it can be stated authoritatively that he can foresee no contingency in which he would give the matter serious thought.

Colonel Roosevelt would say nothing to indicate that the state ticket had been discussed today. It is understood, however, that Oscar S. Strauss, who was the progressive candidate for governor two years ago, has been brought forward as a possible candidate this year for United States senator.

For the candidate for governor several names have been mentioned. They include Frederick M. Davenport, former state senator and candidate in 1912 for lieutenant governor; William H. Hotchkiss, former superintendent of insurance, and Balesbridge Colby, New York lawyer and one of the most active progressive campaigners in 1912.

Omaha Good Roads Boosters Will Visit Thirty State Towns

Thirty Nebraska cities will be visited by the Omahans on the Good Roads run which is to be held on June 5 and 6. The run will be by automobile and thirty-five representative business men of the city have made arrangements to make the trip. The run starts Thursday evening when the Omahans will journey to Lincoln before starting in earnest the following morning. The itinerary is as follows:

- THURSDAY, JUNE 4. Leave Omaha 5 p. m.; arrive Ashland 6:30 (supper); arrive 9:10 p. m. FRIDAY, JUNE 5. Leave Lincoln 7:30 a. m.; arrive Emerald, six miles, 8:40 a. m.; stop 5 minutes. Arrive Pleasantdale, ten miles, 9:30 a. m.; stop 10 minutes. Arrive Milford, seven miles, 9:50 a. m.; stop 15 minutes. Arrive Hubey, five miles, 9:30 a. m.; stop 5 minutes. Arrive Seward, five miles, 9:40 a. m.; stop 10 minutes. Arrive Tabor, seven miles, 10:50 a. m.; stop 10 minutes. Arrive Goehner, five miles, 11:15 a. m.; stop 10 minutes. Arrive Beaver Crossing, seven miles, 11:45 a. m.; stop 15 minutes. Arrive Friend 12:30 p. m. (lunch); stop one hour. Arrive Doreheaster, nine miles, 2:00 p. m.; stop 10 minutes. Arrive Crest, ten miles, 2:40 p. m.; stop 10 minutes. Arrive Sheshta, five miles, 3:30 p. m.; stop 5 minutes. Arrive Wilber, five miles, 3:45 p. m.; stop 10 minutes. Arrive De Witt, seven miles, 4:25 p. m.; stop 15 minutes. Arrive Beatrice, thirteen miles, 5:30 p. m.; (supper over night). SATURDAY, JUNE 6. Leave Beatrice 7:30 a. m. Arrive Filley, thirteen miles, 8:10 a. m.; stop 10 minutes. Arrive Crab Orchard, nine miles, 8:50 a. m.; stop 10 minutes. Arrive Vista, seven miles, 9:25 a. m.; stop 5 minutes. Arrive Tecumseh, eight miles, 9:55 a. m.; stop 10 minutes. Arrive Graf, eight miles, 10:40 a. m.; stop 10 minutes. Arrive Rohrer, four miles, 11:35 a. m.; stop 5 minutes. Arrive Auburn, five miles, 11:50 a. m.; stop one hour (lunch). Arrive Julian, ten miles, 1:30 p. m.; stop 10 minutes. Arrive Nebraska City, twelve miles, 2:30 p. m.; stop 10 minutes. Arrive Union, fifteen miles, 3:45 p. m.; stop 10 minutes. Arrive Murray, eight miles, 4:25 p. m.; stop 10 minutes. Arrive Plattsmouth, nine miles, 5:10 p. m.; stop 10 minutes. Arrive Omaha 5:30 p. m.

Helen Morton Not Wedded to Bailey

CHICAGO, May 24.—(Special.)—What was at first thought to be an elopement of Miss Helen Morton, daughter of Mark Morton and granddaughter of the late J. Sterling Morton, has been shown by the young woman's relatives to have been a trip east, resulting in her buying an old Virginia homestead adjoining that of Clay Bailey, a young man who recently was her guest at the Morton home in Lake Forest. This was given as the answer to the mystery surrounding the young society girl's sudden disappearance Wednesday night. She was located yesterday at Delaplane, Va., at the home of one of Mr. Bailey's friends, Mrs. Frank Neer, Jr. Upon receiving assurances that his

daughter had not eloped with the young Virginian, Mark Morton, head of the Western Cold Storage company, is said to have boarded a train for his ranch in Nebraska to seek rest from the worries caused by his daughter's "runaway." Reasons for parental objection to the young woman's eastern trip and for the frantic efforts of relatives and friends who tried and failed to intercept her are still a mystery. Miss Morton could not be reached last night in the Virginia city.

Fellow Prisoner of Silliman at Saltillo Tells of Experiences

WASHINGTON, May 24.—Vice Consul John Silliman, the cause of such prolonged anxiety on account of his disappearance at Saltillo, remained at Mexico City today, recuperating from the hardships of the trip from Saltillo, and expecting to depart for Vera Cruz Monday, according to reports reaching the State department. One of his fellow prisoners in the Saltillo jail, Dr. Franklin Moore, called at the State department today and told of his experiences. Mr. Moore was a practicing physician of twenty years' standing in Saltillo. He said tranquility had prevailed there all through the earlier phases of the revolutionary movement, until April 22 a telegram signed "Victoriano Huerta" was received from the capitol, stating American warships were bombarding Vera Cruz. Immediately following the signature were the words "Hang all Americans," presumably added by the telegraph operator.

Messages from the civil governor summoned all Americans in Saltillo to headquarters. The doctor excused himself from the patient he was attending, with a promise to return in a few minutes. But it was fifteen days before he was again at liberty. He was first placed in a cell three feet by seven feet for twenty-four hours, but the following day he was admitted to a large room where all the American prisoners were gathered, including Vice Consul Silliman. They were treated fairly well and were released only after they had jointly signed a statement reciting that they had simply been detained to ensure their protection against violence at the hands of the people. Silliman, however, was held after the others left, on the charge that he was a spy.

ONE KILLED AND ONE MAY DIE FROM CRASH OF CAR INTO BUGGY

(Continued from Page One.) notified by her sister of her husband's death she collapsed, but was later able to journey to the coroner's where her husband's body had been taken. Wallace is reported to be very low at the Swedish Mission hospital, with but slight chances for recovery. H. Beam, conductor of the street car, declared that he had no inkling of the accident until the car was brought to a sudden stop.

At Thirteenth and Dorcas streets a northbound Benson car loaded with passengers, whose crew consisted of Motorman G. Ferril, 2024 South Twenty-fourth street, and Conductor E. F. Wright, 1813 Spring street, was struck from the rear by an empty special Krug park car, which had turned from Vinton street onto Thirteenth street. The brakes on the latter refused to work and the car, coasting at a high rate of speed down the grade on that thoroughfare crashed with considerable force into the car ahead.

Motorman C. E. Hansen, 2123 South Twenty-second street, of the Krug park car avoided a very serious affair by keeping the gong sounding loudly, and warning the Benson crew who opened up their power just before the two cars met, thus lessening the shock. Hansen and his conductor, J. D. Lackard, 2317 1/2 South Twenty-fourth street, are both comparatively new men with the company. Besides the one injured in the above list about ten people were cut by flying glass or bruised from the sudden impact. Those hurt were removed to their homes after receiving the attentions of the police surgeons.

HANSON HAS JUMPED BOND

(Continued from Page One.) request was to come up yesterday and Hansen did not appear. Mr. Lynch, who is from Kansas City, with Frank Murphy, an Omaha detective, is stopping at the Jefferson hotel. "The democrats are in power in the city and the republicans in the county," Mr. Lynch said. "The independent element has been trying to shake up both city and county and get control. The Burns detective agency was hired. The information leaked out. Pickard and Hansen opened offices in the Brandeis Theater building and installed a dictaphone. The opposition also installed one and secured enough information to send both Burns men to the penitentiary. The Burns agents were at work five months."

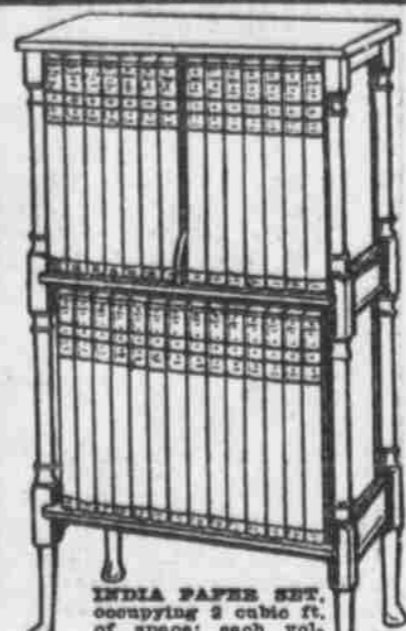

"Frank Best, another county commissioner, was approached on the smoke consumer proposition, and all the conversation took place where both dictaphones were working." Pickard was arraigned before Justice Charles H. Clark late this afternoon on a fugitive warrant and his bond placed at \$500. He was unable to furnish it. The hearing was set for Friday. Frank Murphy, a detective, is awaiting requisition papers on which to take Pickard back to Omaha. John A. Gustafson, manager of the Burns agency in Kansas City, denied to night that Pickard was connected with his agency. "I never heard of Pickard until tonight, and if he was one of our men he would have called upon me for assistance," Mr. Gustafson said. "The Chicago office may be working on the Omaha case, but I have not heard anything about it. If the Burns agency is handling it I should be informed and I may hear something tomorrow."

OHIO STATE IS VICTOR IN ANNUAL TRACK MEET

COLUMBUS, O., May 24.—Ohio State yesterday won the track meet in which nine Ohio universities and colleges competed. The Ohio State athletes scored sixty points. Oberlin was second with forty-nine, Case third with twelve and Cincinnati fourth with ten. Two state records were broken. Harvey of Oberlin clearing the bar at 5 feet 1 1/2 inches in the high jump and Kessler of Ohio State making 11 feet 8 inches in the pole vault.

ONLY THREE MORE DAYS TO SECURE THIS GREAT WORK AT PRESENT LOW PRICES AND ON EASY TERMS

INDIA PAPER SET, occupying 3 cubic ft. of space; each volume but one inch thick.

Never Before has it been possible to buy a new edition of the Encyclopaedia Britannica at such low prices as will obtain until May 28th—3 days after today.

Never Before has the demand been so great, the manufacturing so extensive, the capital invested so considerable, the book itself so good a piece of work, and

Never Before has anyone been able to pay \$5 down with his order and receive the whole set—29 magnificent volumes—complete in one shipment. All previous methods of publication have involved the issue of each volume separately, and its sale and delivery to subscribers separately. The 25 volumes of the 9th Edition, for example, were issued during a period of fourteen years—1875 to 1889.

The present plan of publication—all the volumes issued at one time, and therefore all of uniform date—was a

Revolution in Publishing. Several men sat down together in London and discussed ways and means of making a completely new edition of the Encyclopaedia Britannica—the great standard work of reference of the whole world.

"We will go to work," said one of the men, "and make the whole Encyclopaedia Britannica, the whole story of human knowledge down to date, as one complete work, before we put a line of it into type, or print a copy for sale. This is the way the book ought to be made, but has never been made."

Eight years were given to the undertaking, and \$1,500,000 was paid out to do it. When it was all finished and ready to print, the manuscript contained about 44,000,000 words. When you buy the new Britannica, therefore,

You Profit by a Napoleonic Idea

—an idea which not only ensures a much better book, but a much cheaper one than ever before, because it was now possible to print and bind the whole 29 volumes of an enormous encyclopaedia, as one complete book, and therefore reduce all manufacturing costs to a minimum. (If it had been produced under the old piece-meal, volume-by-volume method of publication, the selling price would have been 30 to 40 per cent higher.) Also, it enabled the publishers of the work to conduct the

A FEW FACTS ABOUT THIS GREAT WORK OF ALL HUMAN KNOWLEDGE

29 Volumes; 44,000,000 Words of Text; 41,000 Articles; 30,024 Pages; 14,689 Illustrations; 450 Full-Page Plates in Black and White and in Color; 300 Maps, Showing 125,000 Places; 500,000 Separate References in the Index.

There are 1,500 contributors, of 24 different countries, including the chancellors, presidents and principals of 64 universities and colleges, besides 650 other members of the faculties of these and 92 other such institutions; 191 members of the staffs of observatories, laboratories and surveys; 134 ambassadors, diplomats, and officials of various governments; 327 historians; 107 agriculturalists and biologists; 62 business men and manufacturers; 75 physicians and surgeons; 73 engineers and architects; 75 lawyers; 161 theologians; 73 naval and military officers; 28 chemists, physicists, and mathematicians; 63 meteorologists, geologists and astronomers; 64 geographers and explorers; 72 economists and sociologists; as well as other specialists of other kinds, representing, in all, 41 distinct professions and occupations.

Manufacturing On a Gigantic Scale

10,000 sets at a time. Printers and binders could be employed continuously, as long as there was a ready demand, and a new printing could follow immediately after the preceding one was off the press. The demand, fortunately, was constant, so that the mere saving in printing and binding in large lots was sufficient to justify the publishers in keeping the selling price at a low figure. If the manufacturing had been in small lots instead of large lots, we should long ago have had to increase the prices. When you buy the new Britannica, therefore, you profit not only by an idea which has given the public the best, the fullest and most nearly perfect encyclopaedia ever issued, but

You Profit by Large Savings

in cost of raw materials, printing and binding. You may gain some idea of the magnitude of the manufacturing from the fact that we have had to use more than 2,100 tons of India paper for the 11th edition, the skins (for binding) of 825,000 sheep and goats, and that 16 large cylinder presses have been at work continuously for more than two years and a half.

65,000 Sets

have now been printed, bound and delivered to date at these low figures, which we are about to increase. You can share in the present success of this offer at low prices, and, if you send your order at once, using the attached order form, you will never regret it. But

Never Again can you get these beautifully printed, handsomely bound India paper volumes at such a low price. After Thursday next we must advance the prices by \$29 to \$50 a set, according to the binding. Our letter of instructions from the publishers of the New Encyclopaedia Britannica, the Cambridge University Press of England, says:

"Under no circumstances will any extension after May 28th be given, and orders at present prices postmarked after that date must be returned." (Signed) C. F. CLAY Manager

After May 28th

the new Britannica will be manufactured in small lots, a few thousand sets each year, and, as the manufacturing cost will be so much higher, the selling price will have to be increased in proportion.

It Is Impossible at the Moment

to promise any immediate deliveries at all, because of the fact that the demand for the work is still insistent, and has, in fact, more than trebled within two weeks, so that no more complete sets can be sent out until a new supply arrives from the binder.

If You Don't Want to Wait a Long Time for Your Books

Order Today. If you are content to wait for delivery until next fall, order on Thursday next.

All orders are being dealt with absolutely in rotation, each receiving a number, whether for cash in full, or on the plan of \$5 a month. If you order today, your number will be at least three thousand—perhaps 5,000—ahead of Thursday's orders, and you will then receive your set so much the more quickly.

The Time to Act

Has come—the quicker you act, the sooner your set will reach you.

The New ENCYCLOPAEDIA BRITANNICA 11th Edition The Newest, Most Authoritative, Most Practical Work of Universal Reference, and Beyond Comparison the BEST INVESTMENT FOR SMALL SUMS

\$5.00 Down The Complete Set Sent All at One Time —the balance you can pay in practically any way you like, in 12, 8 or 4 months, if you do not wish to pay cash in full. Or, you may pay at a rate of as little as \$5.00 a month.
