NEW YORK, May 25.-Little change from the duliness and irregularity of last week was shown by today's early stock market. Initial changes were nominal, the only stock to vary more than a very small fraction being Bethlehem Steel which rose %. Unite States Steel and Amalgamated were slightly lower and the movement elsewhere was without especial feature. London's range of prices for our securities was mostly lower and most live stock centers this morning, and, notwithstanding another very mod-erate supply of killers here, trade was sluggish most of the foremoon with prices on clipped ewes and clipped lambs show-ing a decline of anywhere from 10c to 20c. The receipts, most of which were clipped lambs, amounted to no more than abount 4.506 head, and aside from three or four cars no good toppy offerings were at the disposal of the packer buyers. The scarcity of choice grades also helped the trade to drag along, it being well on to-ward noon before anything like a clear-ance was effected. Most of the dipped lambs sold at a range of \$7.5007.75. There being a very scant supply if age! sheep here, not maay sales were reported. Some clipped ewes changed hands afoubt the middle of the foremoon at \$4.5.
