Gelatine Bomb is Found in Freight Car Near London

LONDON, May 28.—A bomb filled with gunpowder, gelatine and iron bolts was found today in the freight car of a train at Wellington. The missile is believed by the authorities to have been placed there by suffragettes. A French militant suffragist, who was arrested for smashing three windows at the National Gallery, created quite a scene when she was brought before the magistrate at Bow Street police court today. She continually shouted in French, "Hurrah for Liberty!" and "Hurrah for Christabel Pankhurst!"

PRACTICAL JOKER FINED FOR STEALING SUITCASE

SIoux FALLS, S. D., May 28.—(Special.)—As the result of a practical joke Frank Randall, a traveling man who makes his home at Dell Rapids, was arrested at Milbank on instructions from the Clear Lake authorities on the charge of having stolen a suitcase in Clear Lake. When taken into a Clear Lake court he was found guilty and was fined \$15, which included the costs. Randall is noted as a practical joker, and it is stated in his behalf that he took the suitcase as a joke, intending to return it to its owner after concluding a fishing sojourn at Big Stone lake, his idea being to surprise the owner by returning the suitcase filled with fish.

Maguire Gratified at Morehead's Stand to Run for Governor

(From a Staff Correspondent.) WASHINGTON, May 28.—(Special Telegram.)—Congressman Maguire should hardly contain himself today when he imparted the news he had received of Governor Morehead's decision to allow himself to be left out of the race for Maguire's seat in congress and stand for the governorship. He believes with Morehead that the running for congress he is reading his own title clear for another term. It is thought, however, by some members of the Nebraska delegation that Mr. Maguire will find a formidable opponent in Price, for the reason that the Maguire opposition may concentrate solidly on that one candidate instead of being divided. Congressman Sloan of the Fourth Nebraska district received a welcome caller today in the person of his old friend and classmate at the Ames (Ia.) Agricultural university, George K. Cherry, the scientist and taxidermist, who was a member of the recent Roosevelt Brazilian expedition. Miss Agnes Moran of Omaha is visiting her sister, Miss Margaret Moran, at the Hotel Luxon in this city. J. H. Miles of Falls City called upon Senator Norris today.

Women Will Not Be Allowed to Serve as Ruling Elders

CHICAGO, May 28.—Discussion of the report of the special committee on white slave traffic was the order of the day at the general assembly of the Presbyterian church in the United States. The report emphasized the slogan "no tolerating; no regulation; no recognition" and urged that the evil be eradicated by the strict enforcement of municipal, state and federal laws. Doubt was expressed in the report of the advisability of teaching sex hygiene in the public schools and parents were urged to inform their children personally of the truths of life. An overture seeking to allow women to serve as ruling elders in the Presbyterian church was frowned on by the assembly, which sustained the committee on bills and overtures in its recommendations that no action be taken on the petition. A recommendation that where ministers of the Presbyterian church are sued for divorce the local presbytery should investigate the case and spread its report on the records of the presbytery was approved and sent to the various presbyteries for a referendum vote.

M'BRIDE IS OFFERED PRESIDENCY OF IOWA

IOWA CITY, Ia., May 28.—(Special.)—Acting president Thomas H. Macbride of the State University of Iowa has been tendered the permanent presidency, according to a well-authenticated report here. Prof. Macbride will give his answer to the State Board of Education at its meeting next week. Because of his age and of his long work at the university, he is not anxious to accept the position.

Twenty Years for Earl Perkins. GLENWOOD, Ia., May 28.—(Special.)—In district court here Judge Thorne, after overruling the application for new trials in the case of Earl Perkins, convicted of criminal assault, and Arns Schaller, obstructing the highway, sentenced Perkins to Fort McJannet for twenty years and Schaller to the same reformatory for five years.

RECLAMATION IS IN DANGER

Committee Report Adverse to Longer Time to Pay for Land.

KINKAID FIGHTS FOR BILL

Minority of Committee Files Briefing Report that Outlines Conditions, but Division May Delay Measure.

(From a Staff Correspondent.) WASHINGTON, May 28.—(Special Telegram.)—A dark picture of reclamation work and its projects was presented by Representative Borland of Missouri, White of Ohio, Carey of Pennsylvania and Mahan of Connecticut, members of the subcommittee on appropriations having to do with permanent appropriations, who today went on record in a signed statement recommending that hereafter estimates for reclamation work and direct appropriations for such work be made by congress and the two new projects be undertaken except by permission of congress.

The subcommittee of this branch of the appropriation committee, of which the four members mentioned are the majority, find a healthy antagonism in the opposition of Representatives Mondell of Wyoming, Davis of Minnesota and Vawter of Pennsylvania, the minority members of the subcommittee, who have signed and filed a minority report that bristles with facts and is couched in language that does not fail to hit the bulls-eye. The majority of the subcommittee desires to change a settled policy of congress and create a new condition as to the period of payments on reclamation projects. This majority wishes to shorten the time of payments. The minority, represented by Congressman Mondell of Wyoming, desires to extend the time in which payments should be made on reclamation projects from ten years as at present to twenty years.

May Delay Extension. The majority statement signed today, however, makes no reference to the reclamation bill, but it is an open secret that Mr. Borland, chairman of the subcommittee, is hostile to the reclamation measure and so announced himself before he commenced the hearings before his committee. In view of a four to three proposition, as now outlined, it is extremely doubtful whether the extension bill can be secured at this session.

Kinkaid Still Fighting. Judge Kinkaid of the Sixth Nebraska district, who is the ranking republican member of the committee on irrigation, when informed of the action of the subcommittee of the appropriations committee expressed regret over it, but was not greatly surprised because he had been expecting such possible action for several days. He is satisfied that the investigation made by the subcommittee will not after all be so damaging to the extension bill reported by his committee, as he has feared it would be the case.

His faith confident that notwithstanding the majority report the extension bill will be gotten up for consideration and passed at this session without being loaded down, with any serious amendments, although he says he realizes there is strong opposition to be overcome.

Arbitrators Meet at White House.

"Strike Tuh, Mr. President," announced Congressman Lobeck as he introduced Silk O'Loughlin to President Wilson at the White House this morning, "and also allow me to present his associate on the team, Mr. George Hildebrand, the American league umpire officiating here in the games between Washington and Detroit."

The president shook hands with Hildebrand and "strike tuh" very cordially and thanked the Omaha congressman for the introduction to the two arbitrators, intimating with a twinkle in his eye that he was doing some arbitrating himself about this time, although along different lines, but he hoped that the judgments of the arbitrators would be accepted not only by the fans in the one case, but by the American people in the other.

APPLE MARY TIRES OF WAIT FOR SWEETHEART

NEW YORK, May 28.—After sixty-seven years of waiting for the return of her sailor sweetheart, who sailed as the third officer of an American merchantman on a voyage to China, with her promise to marry him on his return, "Apple Mary" Walsh 84 years old, has decided to desert her station at the Battery for more comfortable quarters on Blackwell's Island. The deed yesterday led "Apple Mary" to reach her decision. She asked a policeman to arrest her that she might spend the summer in the workhouse. She was taken before a police magistrate, who after hearing her story, committed her as requested.

EXAMINERS BEGIN WORK ON MORGAN BOOKS

NEW YORK, May 28.—Four examiners of the Interstate Commerce commission arrived at the offices of J. P. Morgan & Co. shortly after 11 o'clock today and began an examination of the firm's books and records relating to the New Haven railroad. The results of the examination are to be secret until submitted to the commission. The formal inquiry into the New Haven matter will be resumed at Washington next Wednesday.

Avoca Children Missing. AVOCA, Neb., May 28.—(Special.)—Fred Selmers and Miss Lockmann, two young people living southwest of Avoca, left for parts unknown Sunday evening. It is supposed that they have gone to Iowa and Missouri and were married. The boy is 18 and the girl 16 years of age.

Newton Stonecker. SEWARD, Neb., May 28.—(Special.)—Newton Stonecker, one of the best known men of the town, died at his home here last night. He leaves a widow and two sons. He was deputy sheriff for years. He was a member of the Ancient Order of United Workmen.

The Persistent and Judicious Use of Newspaper Advertising is the Road to Business Success.

An English Miller

—a hundred years ago—thought he would gain trade and a name if he could give people WHITE BREAD instead of dark, the only kind anybody had ever known before that.

So he removed the bran from flour! This made the flour white and pretty, and people took to WHITE BREAD.

But what really happened when the miller threw out the bran-coat? The flour was robbed of practically all the MINERAL SALTS of the grain—the particular elements of most vital need for preserving normal balance of nerve and brain.

Scientists now know that this lack in white flour and products made from it is responsible to a great degree for a host of present day ills, such as nervous prostration, constipation, kidney trouble, brain fag, and so on.

Grape-Nuts

FOOD

made from prime whole wheat and barley, retains ALL the mineral salts just as Nature grows them in the grains, together with ALL the nutriment of these rich food cereals. Grape-Nuts is a perfect food, long baked, easy of digestion, appetizing, and builds sturdy bodies, keen brains and steady nerves.

Comes ready to eat from the package, fresh and crisp.

A ration of Grape-Nuts with other food supplies perfectly what is lacking in white flour products.

"There's a Reason" for Grape-Nuts

—sold by Grocers everywhere.

CAPTURED FEDERAL OFFICERS EXECUTED BY REBELS AT TEPEC

(Continued from Page One.)

no formal agreement for the pacification of Mexico had been received from Niagara Falls. The reports of the American delegates, which have been coming in at each stage of the negotiations, however, have been so favorable that the situation, it was said, would permit assembling the decided points into the form of a definite agreement very soon. Representatives of the constitutionalists conferred with Secretary Bryan again today and reiterated that steps were being taken to definitely establish relations for the Carranza statement with the Niagara conference. They added that constitutionalist delegates, if they go, would have the same rights and powers as are enjoyed by the American delegates.

Colombian Senate Approves Treaty

BOGOTA, Colombia, May 28.—The Colombian senate, by twenty-three votes against eight, has approved the second reading of the treaty between Colombia and the United States in connection with the Panama canal. The third reading is expected today.

By the treaty the products of the soil and industry of Colombia and the Colombian mails passing through the canal are to be exempted from any charge or duty other than those to which similar

products and mails from the United States are subject. These products are also to be admitted to the canal zone on the same basis as American products. In case of interruption of canal traffic, Colombian troops, war materials, products and mails are to be transported by the railway between Ancon and Cristobal on the same terms as those of the United States.

Within six months after exchange of ratifications of the treaty the United States agrees to pay to Colombia \$25,000,000 gold.

HYMENEAL.

Lambert-Wagner. STELLA, Neb., May 28.—(Special.)—Miss Bertha Wagner and Mr. James Lowell Lambert, were married at noon yesterday at the home of her parents, Mr. and Mrs. Joseph H. Wagner. Rev. Samuel Miller, of Prairie Union performed the ceremony. The bride's wedding dress was white voile, and her traveling dress, of blue whipcord. The bride is a graduate of the Stella and Auburn schools, and the last year taught a school near Stella. The groom formerly lived in this community, and this spring took charge of his father's farm near Kearney, where he and his bride will be at home after June 15.

DEATH RECORD.

George Galpin. MADISON, Neb., May 28.—(Special.)—George Galpin, a veteran of the civil war and pioneer of this county, died quite suddenly after a brief illness at his home here at noon today, death resulting from complications. George Galpin was born at Dorchester, England, February 27,

1842. He came to this country and settled in Illinois in 1866 and 1876 came to Madison county and settled upon a homestead in Schoolcraft precinct. His home had been at Madison for the last fifteen years. In 1888 he was married to Mary Anderson of this county, who survives him. He is also survived by a daughter, Mrs. Elizabeth Rajosky of this city. The deceased when 21 years old enlisted in Company D, Forty-fifth Iowa infantry, and served until the close of the war. Funeral services probably will be held Friday afternoon.

Studebaker ECONOMICAL LIGHT WEIGHT SIX \$1575

But for Studebaker SIX volume, you would pay more and get less.

Volume makes manufacturing economy, which, in turn, makes value.

Production of the Studebaker SIX is greater than any other "Six" in the world.

It engages the biggest and best plant in the world—\$2,000,000 in machinery alone.

It permits a quality of materials, a closeness of manufacturing, beyond the reach of a smaller production.

It cuts down the manufacturing cost per car to the lowest figure.

That is why the Studebaker SIX is the quality-equal of the \$5,000 "Six."

That is why it is outselling every other "Six"—whether near it in price or far above it.

Send for the Studebaker Proof Book, describing Studebaker manufacturing methods.
