is studying the violin and she is quite familiar with the difficulties of youthful muscians, so she conceved the idea of stimulating their interest in practicing by preparing them for a series of informai concerts. Mrs. Thiem believes that the children also benefit by the additional experience derived from playing in public, as they soon overcome any tendencies toward stage fright.

There are over sixty members of the club above the fifth grade, half of whom, are quite advanced in their studies. They play the piano, violin, mandolin and cornet. Meetings are held once a month, at which the youthful musicians play selections which their instructor tells them they have mastered.

Just now, the director, Mrs. Thiem, is preparing the club for the last musicale of the season, which will be given Tuesday. June 9, in the school auditorium The interest manifested by the children in their music has been so encouraging that the organization bids fair to hecome a permanent institution in the school and plans for next year's study are being considered. This Coming Week for Coodyear Tire Displays Like This. They'll Show You Where to Get These Tires

Goodyear Week

Here and everywhere, this coming week, all the leading Goodyear dealers will make window displays like this.

It is done to show you where No-Rim-Cut tires are sold, and sold at Goodyear prices. Mark these exhibits. These are the dealers who, despite higher profits on other tires, supply you the world's best.

They Undersell 16 Other Makes

These dealers will sell you No-Rim-Cut tires for 28 per cent less than they cost in March, 1913. They will sell them below the prices asked for 16 other makes. They will sell you four tires for the price of three of some of Goodyear's rivals.

They will supply you, at Goodyear prices, the utmost in a

tire. The tire that outsells any other tire in the world. The tire that won top place in Tiredom through millions of mileage tests.

They will sell you the tire to which motorists are coming faster than ever before. This year's sales have broken every record, by 55 per cent.

Four Other Savings

In addition they give you these four features, found in no other tire:

Our No-Rim-Cut feature-the only feasible way to end rim-cutting.

Our "On-Air" cure—an extra process which costs us \$450,000 yearly. But it saves our users the countless blow-outs due to wrinkled fabric. Our rubber rivets-hundreds of which are formed in

each tire, during vulcanization, to combat tread separation. Our All-Weather tread-the tough, double-thick anti-

skid. It is flat and smooth, so it runs like a plain tread, but it grasps wet roads with a bulldog grip.

Not one of these features-mark you-is found in the costlier tires.

Note These Dealers

Note these displays-remember who sells Goodyears. You

want these savingsmark where you can get

Goodyear place and prestige prove these the best tires built. And Goodyear prices show how mammoth output lowers factory cost.

Don't go to dealers who push lesser tires or tires at higher prices. Go to the dealers who sell at our prices the premier tire of the world. In first cost and last cost these dealers will save you a good many dollars
