Yellow Cerent Shows Moderate Advanges Under Buying by Shorts

in the Face of Increased Argentine Offerings.

Wheat Made in Chicago.

OMAHA, June 6, 124. The first sale of new crop wheat grown in Oklahoma, for immediate shipment to ficago, was made by one of the leading was only one car, but it was the entering from the far southwest as rapidly as it wheat will be shipped by June 16 and will probably reach this market by June 2. If not sooner. The hum of the reaper will soon be has been seen for some days. The pur-chase of this new wheat is rapidly bas in day, which were placed at 40,000 bush and day, which were placed at 40,000 bush is a been seen for some days and bush of which half was spring and half OMAHA, June 6, 1914.

According to public and private cables, According to public and private cables, the rains in the southern hemisphere are delaying the seeding of wheat and it was said that this work is now six weeks

The more prominent markets of the old world were lower on wheat yesterday, partially as a reflection of the weakness shown at Chicago Thursday, together with the expectation that the world's shipments will be large Monday and that the amount on passage will show an in-crease.

The amount on passage will show an increase. Corn not only held up well yesterday, but showed moderate advances under buy-ing by shorts, and this too, in the face of increased offerings of the Argentine grain. There are some in the corn trade at Chicago who believe that this grain is cleaned up more closely in the interior than the trade is aware of. The usual custom among the farmers to watch the growing crop and at the same time hold onto their surplus and not let go of it until the prospects in the fields are good. In sections where rains were meeded the precipitation has been heavy during the last forty-eight hours. The provision market was unsatisfac-tory resterday, as the volume of trade was light and the trend of prices more uncertain than for some time. The num-her of hogs at the leading western mar-kets scoeded those of a year ago by about 400 head, yet the price at Chicago was 5 cents higher. A general readjust-ment of values must be made before a healthy condition can be seen for prod-

From what it was at the close of have week. Good cornfed cows and heifers have been in very fair demand throughout the week, with prices steady. On the other hand, the commoner kinds, especially those showing grass, have been easing off a little as usual at this reason of the year with such cattle coming into di-rect competition with Texas grassers Receipts of stockers and feeders have been light throughout the week, while the demand has been slow as usual. De-sirable yearlings and light and medium weight feeders have been in fair demand, and prices fully steady, but plain kinds Cloudy Pt. cloudy Cloudy Pt. cloudy Cloudy Cloudy and prices fully steady, but plain kinds

 Strength and higher prices formed the veck, awing to the extreme lightness of the receipts from day to day. The week opened out with an abnormally small when and values were steady to a shade better, though the packers apparently had rather limited orders. Trade opened and rather limited orders. was light and there were no signs of severe pressure at any point, but the ione was heavy and all the speculative leaders fell back. Lehigh Valley was once more the weak spot in the market, losing a point on the first few transac-tions. The setback was due chiefly to the decline of American atocks in Lon-don. After trading was well under way the market began to show the good un-dertone characteristic most of the weak. Initial losses were soon reduced or can-

The best showing of several days was made in the last hour. Under the lead of the Eastern railroad shares, some of which gained more than a point, the whole list advanced. The upturn was associated with advices received in Wall street that the Interstate Commerce com-mission was hastening work on the text of the rate decision and might have it completed in a few days. HOGS-A fair Saturday run showed up this morning, and as other markets were reported slow and no better than steady. The second packets started out bidding prices that were weak to a nickel lower. As assessmen were holding for steady to strong figures, nothing much moved on the early trade, but a little later on offers strengthened a little, so that when the arry bulk of the supply began to move prices that were made after the market was under way looked to be just about steady. On the whole, prices can be quoted as steady to a shade lower, and the general market is just weak at Friday's average. There was not much activity in evidences was reached the movement was fairly continuous, and a clearance was made in good season.
Bulk of the supply sold at \$5.05468.05.
