A Query. Jerome S. McWade, the wealthy Duluth connoisseur, said at a recent dinner; "I spent the winter on the Riviera. The "I spent the winter on the Riviers. The winter fashions were really shocking—shocking, that is, to Comatock minds. Nothing shocks me.

"But in the evening, at the Nice Country club dances, young girls would wear sleeveless gowns that left the back quite bare from the waist up. They could say truly—ha. ha, ha!—that they hadn't a stitch to their backs, eh? And in the afternoon at the dansants young girls would wear gowns that were either slashed to the knee, or else that were—a still subtler device— transparent to the knee, permitting the slim and sliken limb to glesm through a panel of lace and tulle. "A western millionaire at the Negresco, in Nice, on seeing his three daughters in gowns of this radical type, gave a loud laugh one day last winter and said:

### RECORD OF SPORT EVENTS

Federation Meeting in France is Preparing List for Adoption,

FOR WORLD-WIDE RECOGNITION

Conference and Its Action Has Sanction of International Ama-

teur Athletic Federa-

time in the history of athletics an official list of world's records to be recognised by all nations was drawn up today by the records committee of the International Amateur Athletic federation, meeting here. It is expected that the list will be adopted early next week,

It is possible, however, that opposition may arise in the case of the disons, in which the committee, having abolished the 8 foot 2% inches circle from the rules, has been unable to recognize any record except that of the American, James Duncan, made at Celtio park in 1919, 145 feet 914 inches.

One of the features of the sitting was the elimination of innumerable records for special distances, and also of all records except those made on a track, The record for 400 yards straightaway of forty-two and half seconds made by M, W. Long at Guttenberg in 1900, has therefore been discarded.

The committee decided to eliminate all Away from Resolute | records above twenty-five miles or forty | kilometers, and also records above two hours on the ground that contosts at greater distances would be exhausting and should not be encouraged.

RYE, N. Y., June 7.—The yacht Vanities turned the tables on the Resolute in the fourth Long Island sound race, sailed to day under the auspices of the Larchmont Yacht club over a triangular course, winning by five minutes and fifty-two seconds in elapsed time.

As the Vanitie gives the Resolute and estimated allowance over the twenty-nine and three-quarters miles course of three minutes and twelve seconds, the margin was believed to have been two minutes and three-quarters miles course of three minutes and forty seconds. Although sailed in light to moderate winds which were somewhat uncertain at times, the race was a fairer test than the contest Tuesday, which was regarded as more of less of a fuke, and which the Vanitie won by sixteen minutes and forty-eight seconds.

Except for the first two miles, the race today was more of a procession than when the Resolute led the Vanitie in the second race Wednesday, which the Bristol boat won by eleven seconds.

The yachts will be overhauled during the packets will be overhauled during the next three days in preparation for the three open sea contests next week off Sandy Hock.
