Chief Justice Reese Files Again for Office
(From a Staff Correspondent.)
LINCOLN, June 16.—(Special Telegram.)—The second filing for chief justice of the supreme court under the non-partisan judiciary law passed by the last legislature was made by Chief Justice M. H. Three petitions with 188 names came in from Clay county, the home of H. C. Palmer, the first man to file for the same office. A number of democrats are on the petition of Judge Reese, among them being W. H. Thompson of Grand Island, and I. L. Albert of Columbus, both attesting to the fact that they were not democrats.

Estes Park Gaining General Popularity as a Summer Resort

Estes park, reached over the Burlington and the Colorado & Southern lines, is steadily growing more popular with summer tourists who long for the beauties of the mountains, the invigorating air and the delightful climate of the Rockies. If Colorado is the playground of America, as ex-President Roosevelt has said, then Estes park is the playground of playgrounds. For here—seventy miles from Denver, at the foot of grim scarred Long's peak—nature has set her garden of Eden, a lovely natural park, ramparted with a wall of rugged mountains that encircle it like a gigantic crooked arm flung out from the main range of the Rockies, the Continental divide. Within the embrace of this circling spur nestles a natural amphitheater of 100,000 acres, every one a contributing detail to a series of panoramas the most charming and picturesque in the world. Estes park is unique and without replica, the inspiration of the Creator's rarest mood. For when white winter sits enthroned among the grandest of peaks and glaciers, the green and tawny park swims in a drowse of golden summer. Above is the circle of great snow peaks—Ypselon and Hagues's and Flat Top and a score of others; while below is the grass carpet of thousands of acres of gently rolling meadow, the silver river threads snaking their way to the deep canons which lead ultimately to the irrigating ditches of fertile northern Colorado, and the grand of rising upland stupendous and beautiful groves of pine, spruce and quaking aspen.

Wisconsin Fishing Trips for Season

Special service for the accommodation of fishing parties to the Wisconsin lakes has been provided by the Chicago & North-western this season, and the lakes were never more inviting than this summer. Veterans of the rod and reel have long known the remote lakes of famed members of the finny tribe in Wisconsin, and the real back-to-nature enthusiast, who has a natural abhorrence for the usual summer resort, finds a keen surprise in the Wisconsin lakes. While hotel accommodations are plentiful and easily reached, there are many lakes far from the haunts of civilization where the camper may hold close communion with nature and the fisherman cast his line without fear of intrusion.

California Again Calls Vacationists

Summer in California has become quite as popular as the world famous winter climates of the sunny Pacific slope. Glorious in its luxuriant garment of foliage, flowers and fruit, the summer season in California is most delightful in the summer time, when fruits and flowers are at their best, ripening in the balmy sunshine and under the cool breezes from the Pacific ocean. The joy of the plunge in the surf, the sting of the salt water and above all the California climate call the busy man from his work and the wife and youngsters from the sweltering cities.

Many Conventions on Pacific Coast

In spite of the fact that the exposition of 1915 has delayed many Pacific coast trips, a number of conventions will be held there this summer, and attractive rates are made over the Northern Pacific in anticipation of these events. Many tourists will use the Northern Pacific route one way, if not both, for the scenery along the line makes it one of the most beautiful in the west. Yellowstone Park is also most convenient on the route for those who desire to spend a portion of their western trip in the wonderful government park.
